LTSS in Our Community:
Tribal Nursing Home & Assisted Living Facility Directory

Introduction

The Tribal Nursing Home & Assisted Living Facility Directory lists information about each tribally operated nursing home and assisted living facility in the country. The information includes the facility's tribal affiliation, facility name, address, certification, number of beds, and year opened. Additionally, this report outlines information about the facilities' Quality Improvement Organizations and Long-Term Care Ombudsman programs. This document is updated annually. Please report corrections to ltssinfo@kauffmaninc.com.

Long-Term Care Ombudsman

Long-Term Care (LTC) Ombudsman programs help **resolve** health, safety, and welfare issues and **advocate** for the rights of individuals living in LTC facilities, like nursing homes and assisted living facilities. Each state manages an LTC Ombudsman program. The program is directed by the Older Americans Act to:

- Identify, investigate, and resolve complaints made by or on behalf of residents
- Provide information to residents about long-term services and supports
- Ensure that residents have regular and timely access to ombudsman services
- Represent the interests of residents before governmental agencies
- Seek administrative, legal, and other remedies to protect residents and
- Analyze, comment on, and recommend changes in laws and regulations pertaining to the health, safety, welfare, and rights of residents

To learn more about the LTC Ombudsman program and to find your area's ombudsman program, visit: https://theconsumervoice.org/home

Quality Improvement Organizations

Quality Improvement Organizations (QIOs) aim to improve the effectiveness, efficiency, economy, and quality of services delivered to Medicare beneficiaries. QIOs are required under Sections 1152-1154 of the Social Security Act. Their core functions are to:

- Improve quality of care for beneficiaries
- Protect the integrity of the Medicare Trust Fund by ensuring that Medicare pays only for services and goods that are reasonable and necessary and that are provided in the most appropriate setting and
- Protect beneficiaries by addressing individual complaints, such as provider-based notices of appeal and violations of the Emergency Medical Treatment and Labor Act

There are two types of QIO programs, Beneficiary and Family Centered Care (BFCC-QIOs) and Quality Innovation Network (QIN-QIOs). Each type has separate directions, as identified in Table 10.

Table 10. BFCC-QIOs and QIN-QIOs

BFCC-QIOs	QIN-QIOs

• Help Medicare beneficiaries exercise their right to high-quality health care
• Manage beneficiary complaints and quality of care reviews
• Manage beneficiary appeals of a health care provider's decision to discharge them from the hospital or discontinue other types of services
	• Bring Medicare beneficiaries, providers, and communities together in data-driven initiatives to:
	  • increase patient safety
	  • make communities healthier
	  • better coordinate post-hospital care and
	  • improve clinical quality

To learn more about QIOs and to find your area's QIO program, visit: https://qioprogram.org/
