Have worked in healthcare for 30 years.Have been in dialysis for 5 years

Provisions That Will Remain In Effect

Provisions That Will Remain In Effect

I am really upset over the way we waste medication according to medicare standards.We have an order to give 4mcgs of zemplar but instead of using 2 2mcg vails we use a 5mcg vail ,and have to waste 1 mcg.I really dont understand the rationale we are using.Medication costs are terrible and people struggle everyday to get thier meds ,yet we waste much of the time.The same thing for the venofer doses,we use a 100mg vail to give 25mg and waste 75mg.This makes no sense to me. I thank you for hearing my comments.
