Group Performance Information on Medicare Care Compare
2019 Doctors and Clinicians Public Reporting

Overview

This document summarizes the group and virtual group[1] performance information and plain language measure and activity titles[2] that are publicly reported on Medicare Care Compare and in the Provider Data Catalog (PDC). The Centers for Medicare & Medicaid Services (CMS) is publicly reporting 2019 Quality Payment Program (QPP) group performance information. Performance information that meets statistical public reporting standards (valid, reliable, comparable, and meet the minimum reliability threshold) is included in the PDC.[3] A subset of this information is published on Care Compare profile pages. Any information publicly reported on profile pages must also resonate with patients and caregivers, as shown through user testing.

The 2019 QPP group performance information that is publicly reported on Care Compare and in the PDC includes Merit-based Incentive Payment System (MIPS) and QCDR quality measures, Consumer Assessment of Healthcare Providers and Systems (CAHPS) for MIPS Summary Survey measures, MIPS Promoting Interoperability measures and attestations, and MIPS Improvement Activities attestations.

For questions about public reporting for doctors and clinicians, visit the Care Compare: Doctors and Clinicians Initiative page or contact us at QPP@cms.hhs.gov.

CAHPS for MIPS Quality Measures

CMS is publicly reporting seven CAHPS for MIPS Summary Survey measures on group profile pages. These measures are also included in the PDC. CAHPS for MIPS measures are reported as top-box percent performance scores. Top-box scores are created by calculating the percentage of survey respondents who chose the most positive score for a given item response scale. For example, for CAHPS 1 (Getting Timely Care, Appointments, and Information), this would be the percent of respondents who said they "always" got timely care, appointments, and information.
