Implementation Date: April 1, 2024

Related CR Transmittal Number: R12449CP

Related CR Title: April 2024 Healthcare Common Procedure Coding System (HCPCS) Codes Used for Skilled Nursing Facility (SNF) Consolidated Billing (CB) Enforcement: April 2024 Quarterly Update

Affected Providers

- SNFs
- Other providers billing Medicare Administrative Contractors (MACs) for services they provide to Medicare patients

Action Needed

Make sure your billing staff knows:

- Updates to the lists of HCPCS codes that are subject to the CB provision of the SNF prospective payment system (PPS)
- Additions and deletions of certain angiography, chemotherapy, radioisotope, customized prosthetic devices, and blood clotting factors from the Medicare Part A and Part B SNF files

Background

CMS periodically updates the lists of HCPCS codes excluded from the CB provision of the SNF PPS. We may pay providers, other than SNFs, for services excluded from SNF PPS and CB for patients, even in a SNF stay. Medicare won't pay for services not on the exclusion lists to any providers other than a SNF.

For non-therapy services, SNF CB applies only when you provide the services to a SNF resident during a covered Part A stay. However, SNF CB applies to physical and occupational therapies and speech-language pathology services whenever provided to a SNF resident, regardless of whether Part A covers the stay. To make sure we make proper payment

in all settings, Medicare systems must edit for services provided to SNF patients both included and excluded from SNF CB.

The updated lists for institutional and professional billing are available on the [CMS website](#).
