

**Rhode Island Integrated Care Initiative**  
**Summary of Changes to the Three-Way Contract**

The three-way contract was re-executed on July 1, 2023, with the following changes:

- Updated requirements to clarify that re-assessments following a hospitalization are not required for enrollees receiving self-directed care (2.6.2.4.4).
- Updated the new demonstration end date to December 31, 2025 (4.1.2.1) and applicable provisions throughout (e.g., savings percentages and quality withhold measures for Demonstration Years 8 and 9) (4.2.3.1, 4.4.7.6).
- Updated the terms of the medical loss ratio (MLR) to extend the target MLR and the applicable provisions for remittance for Demonstration Years 8 and 9 (4.3.2.1, 4.3.2.2).
- Updated contract renewal timeframes consistent with the updated scheduled end date (5.9.1.).
- Amended Appendix A to reflect changes to covered Medicaid services (adding Doula Services and removing Respite as a Preventive Service).
- Added a new Appendix L – Additional Medicare Waivers to account for Medicare Advantage marketing guidance being codified into regulation and state guidance deviating in certain aspects since the start of the demonstration when the MA guidance was sub-regulatory.
- Added a new Appendix L – Additional Medicare Waivers to allow communication with beneficiaries earlier than 90 days until the end of the demonstration, and tailoring the notification for the MMP to use at the end of the demonstration if members are staying with the same plan sponsor.
- Added a new Appendix L – Additional Medicare Waivers to allow the movement of MMP members to an affiliated D-SNP, dependent on the demonstration transition.
