#### **Report Period:**

Date of Report            02-06-2012  
Period Measured        January 1, 2010 to December 31, 2010

#### **Notes:**

- Generic Therapeutic Class – The Generic Therapeutic Class (GTC) code is a two-character numeric column that classifies drugs (NDCs) according to the most common intended use. This classification provides the most general therapeutic groupings available from First DataBank.
- One Fill = One PDE Record (not adjusted for 30-day prescription equivalents).
- Gross Drug Costs = Sum of ingredient costs, dispensing fees, vaccine administration fees, and sales tax.
- Due to rounding, the columns may not add 100%.
