

CLIA Annual Laboratory Registry Overview

1. CFR 493.1850 requires that once a year CMS make available to physicians and the general public specific information (including information provided to CMS by the Office of the Inspector General) that is useful in evaluating the performance of laboratories.

- a. In January a letter is sent to each CMS Operations Locations requesting any sanctions taken against a laboratory in the previous calendar year.
- b. Letters are also sent to the each Accreditation Organization (AO).
- c. Time frame – the CMS Operations Locations and AOs have 60 days to respond and submit actions to CMS Baltimore.

2. Once the information is received from the CMS Locations and the AOs, it has to be sorted and put in numerical order within each category. There are 10 regulatory sections.

1. A list of laboratories that have been convicted, under Federal or State laws relating to fraud and abuse, false billing or kickbacks.
2. A list of laboratories that have had their CLIA certificate suspended, limited, or revoked, and the reason for the adverse actions.
3. A list of persons who have been convicted of violating CLIA requirements, as specified in section 353(1) of the PHS Act, together with circumstances of each case and the penalties imposed.
4. A list of laboratories on which alternative sanctions have been imposed, showing-
 - (i) the effective date off the sanctions;
 - (ii) the reason for imposing them;
 - (iii) any corrective action taken by the laboratory;
 - (iv) if the laboratory has achieved compliance, the verified date of compliance
5. A list of laboratories whose accreditation has been withdrawn or revoked and the reason for the withdrawal or decision.
6. All appeals and hearing decisions.
7. A list of laboratories against which CMS has brought suit under Section 493.1846 and the reason for those actions.
8. A list of laboratories that have been excluded from participation in Medicare or Medicaid and the reasons for exclusion.
9. This Section is for “Corrections of any Erroneous Statements of Information that Appeared in a previous Registry”.
10. Other Actions. This Section includes other Specific information that may be useful in evaluating the performance of Laboratories, as specified in 42 CFR 493.1850(a). It also includes information provided by CLIA exempt status.

The Registry can also include SETTLEMENTS which is generally supplied by the Office of the Inspector General.

1. Once the CMS Operations Locations have finished input for the calendar year under review into the data system (AEM – ASPEN Enforcement Manager), a report is run that collates the information in numerical order and per section (1 through 10). All actions taken by the AOs must be entered into AEM manually.
2. A final Laboratory Registry report is run when all of the information is complete. This report is checked for accuracy by the CMS Locations, AOs, and CMS Baltimore prior to publication on the CLIA website.
