As noted in the Medicare Part B Drug Inflation Rebates Paid by Manufacturers: Revised Guidance, Implementation of Section 1847A(i) of the Social Security Act and the Medicare Part D Drug Inflation Rebates Paid by Manufacturers: Revised Guidance, Implementation of Section 1860D-14B of the Social Security Act (collectively referred to as the “revised guidance”), for public submissions from individuals not representing organizations, CMS has removed the name, address, and contact information of the individual for privacy purposes. The two documents are separated to include all Part B comments and all Part D comments in separate documents. If a comment letter included comments on both Part B and Part D, that comment letter will be included in both documents. There are a total of 37 Part B comments and 54 Part D comments.

Due to technical constraints, we have separated some comments into separate files.
