

Medicaid and CHIP Managed Care Final Rule (CMS-2390-F)

Overview of the Final Rule

Center for Medicaid and CHIP Services

Background

This final rule is the first update to Medicaid and CHIP managed care regulations in over a decade. The health care delivery landscape has changed and grown substantially since 2002.

- Many States have expanded managed care in Medicaid to enroll new populations, including seniors and persons with disabilities who need long-term services and supports, and individuals in the new adult eligibility group
- In 1998, 12.6 million (41%) of Medicaid beneficiaries received Medicaid through capitation managed care plans
- In 2013, 45.9 million (73.5%) of Medicaid beneficiaries received Medicaid through managed care (MCOs, PIHPs, PAHPs, PCCMs)
