

# Data Specifications

## **OASIS Data Specifications V2.30.1**

The OASIS Data Submission Specifications Version 2.30.1 are now available in the **Downloads** section below. This FINAL version applies to the OASIS-D item set which is scheduled for implementation on January 1, 2019. Please note that, in addition to incorporating the issues identified previously in Errata Document V2.30.1, there were a few more revisions to the final specs. The edits for the M1311 items were revised since the dash [-] is now an allowed value. Edit -4211 was replaced by edit -5680. Several edits for GG items were revised, as the caret [^] is not an allowed value for some of the items. Edit -5510 was revised to include only a subset of the Discharge Goal items. Please review the Item Change and Edit Change Reports for entries beginning with “[V2.30.1]” for additional details.

## **Errata Document V2.30.1 for OASIS Data Specifications V2.30.0**

An errata document for the OASIS Data Submission Specifications Version 2.30.0 has been posted in the **Downloads** section below. Three issues have been identified. As a result, one new edit, -5670, has been added to the M1028 items. Also, item M1860\_CRNT\_AMBLTN has been restored to RFAs 04 and 05, as it had been inadvertently removed from them. Furthermore, three edits were deleted from the M1021/M1023 items, as they referenced the M1025 items that have been deleted in OASIS-D.

## **OASIS Data Specifications V2.30.0**

The OASIS Data Submission Specifications Version 2.30.0 are now available in the **Downloads** section below. This DRAFT version applies to the OASIS-D item set which is scheduled for implementation on January 1, 2019. There are a large number of changes in this release. Many items have been deleted, while Sections GG and J have been added. Please review the Item Change and Edit Change Reports for the details.
