GG-38 – GG-39	**Rationale:** When assessing a patient for GG0170I, Walk 10 feet, consider the patient's status prior to the current episode of care and current 3-day assessment status. Use code 09, Not applicable, because Mr. L did not walk prior to the current episode of care and did not walk during the 3-day assessment period. Because GG0170I, Walk 10 feet, is coded 09, follow the skip pattern to GG0170Q1 (admission) or GG0170Q3 (discharge), Does the patient use a wheelchair and/or scooter? Mr. L's care plan includes fitting and use of bilateral prostheses and walking as a goal. A discharge goal for any admission performance item skipped may be entered if a discharge goal is determined as part of the patient's care plan.	**Rationale:** When assessing a patient for GG0170I, Walk 10 feet, consider the patient's status prior to the current episode of care and current 3-day assessment status. Use code 09, Not applicable, because Mr. L did not walk prior to the current episode of care and did not walk during the 3-day assessment period. Because GG0170I, Walk 10 feet, is coded 09, follow the skip pattern to GG0170M, 1 step (curb). Mr. L's care plan includes fitting and use of bilateral prostheses and walking as a goal. A discharge goal for any admission performance item skipped may be entered if a discharge goal is determined as part of the patient's care plan.	Corrected skip pattern
