

OASIS ITEM						
(M2100) Types and Sources of Assistance: Determine the level of caregiver ability and willingness to provide assistance for the following activities, if assistance is needed. (Check only <u>one</u> box in each row.)						
Type of Assistance	No assistance needed in this area	Caregiver(s) currently provides assistance	Caregiver(s) need training/ supportive services to provide assistance	Caregiver(s) <u>not likely</u> to provide assistance	Unclear if Caregiver(s) will provide assistance	Assistance needed, but no Caregiver(s) available
a. ADL assistance (e.g., transfer/ ambulation, bathing, dressing, toileting, eating/feeding)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
b. IADL assistance (e.g., meals, housekeeping, laundry, telephone, shopping, finances)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
c. Medication administration (e.g., oral, inhaled or injectable)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
d. Medical procedures/ treatments (e.g., changing wound dressing)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
e. Management of Equipment (includes oxygen, IV/infusion equipment, enteral/ parenteral nutrition, ventilator therapy equipment or supplies)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
f. Supervision and safety (e.g., due to cognitive impairment)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5
g. Advocacy or facilitation of patient's participation in appropriate medical care (includes transportation to or from appointments)	<input type="checkbox"/> 0	<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3	<input type="checkbox"/> 4	<input type="checkbox"/> 5

ITEM INTENT
Identifies availability and ability of the caregiver(s) (other than home health agency staff) to provide categories of assistance needed by the patient.
TIME POINTS ITEM(S) COMPLETED
Start of care Resumption of care Discharge from agency – not to an inpatient facility

Guidance for this item updated 12/2010

RESPONSE—SPECIFIC INSTRUCTIONS (Cont'd for OASIS Item M2100)

- At SOC/ROC, report what is known on the day of assessment regarding the availability and ability of caregivers to provide help in the various categories of assistance for the upcoming episode of care. At Discharge, report what is known on the day of the discharge assessment regarding the availability and ability of caregivers to provide assistance to the patient at the time of the discharge.
- For each row a-g, select one description of caregiver assistance.
- If patient needs assistance with any aspect of a category of assistance (e.g., needs assistance with some IADLs but not others), consider the aspect that represents the most need and the availability and ability of the caregiver(s) to meet that need.
- If more than one response in a row applies, (e.g., the caregiver(s) provides the assistance but also needs training or assistance), select the response that represents the greatest need ("caregiver(s) needs training/supporting services to provide assistance").
- "Caregiver(s) not likely to provide" indicates that the caregiver(s) has indicated an unwillingness to provide assistance, or that the caregiver(s) is/are physically and/or cognitively unable to provide needed care.
- "Unclear if caregiver(s) will provide" indicates that the caregiver(s) may express willingness to provide care, but their ability to do so is in question or there is reluctance on the part of the caregiver(s) that raises questions as to whether the caregiver will provide the needed assistance.
- Row a – ADLs include basic self-care activities such as the examples listed.
- Row b – IADLs include activities associated with independent living necessary to support the ADLs such as the examples listed.
- Row c – Medication administration refers to any type of medication (prescribed or OTC) and any route of administration including oral, inhalant, injectable, topical, or administration via g-tube/j-tube, etc.
- Row d – Medical procedures/treatments include procedures/treatments that the physician or physician-designee has ordered for the purpose of improving health status. Some examples of these procedures/treatments include wound care and dressing changes, range of motion exercises, intermittent urinary catheterization, postural drainage, electromodalities, etc.
 - Devices such as T.E.D hose, prosthetic devices, orthotic devices, or other supports that have a medical and/or therapeutic impact should be considered medical procedures/treatments, not as ADL/dressing items in Row a.
- Row e – Management of equipment refers to the ability to safely use medical equipment as ordered. Examples of medical equipment include oxygen, IV/infusion equipment, enteral/parenteral nutrition, ventilator therapy equipment or supplies, continuous passive motion machine, wheelchair, hoist lift, etc.
- Row f – Supervision and safety includes needs related to the ability of the patient to safely remain in the home. This category of assistance needs includes a wide range of activities that may be necessary due to cognitive, functional, or other health deficits. Such assistance may range from calls to remind the patient to take medications, to in-person visits to ensure that the home environment is safely maintained, to the need for the physical presence of another person in the home to ensure that the patient doesn't wander, fall, or for other safety reasons (i.e., leaving the stove burner on).
- Row g – Advocacy or facilitation of patient's participation in appropriate medical care includes taking patient to medical appointments, following up with filling prescriptions, or making subsequent appointments, etc.

DATA SOURCES / RESOURCES

- Patient/caregiver interview
- Review of previous health history

Guidance for this item updated 12/2010

OASIS ITEM
<p>(M2110) How Often does the patient receive ADL or IADL assistance from any caregiver(s) (other than home health agency staff)?</p> <p> <input type="checkbox"/> 1 - At least daily <input type="checkbox"/> 2 - Three or more times per week <input type="checkbox"/> 3 - One to two times per week <input type="checkbox"/> 4 - Received, but less often than weekly <input type="checkbox"/> 5 - No assistance received <input type="checkbox"/> UK - Unknown* </p> <p>*at discharge, omit Unknown response.</p>
ITEM INTENT
Identifies the frequency of the assistance with ADLs (e.g., bathing, dressing, toileting, transferring, ambulating, feeding, etc.) or IADLs (e.g., medication management, meal preparation, housekeeping, laundry, shopping, financial management) provided by any non-agency caregivers.
TIME POINTS ITEM(S) COMPLETED
Start of care Resumption of care Discharge from agency – not to an inpatient facility
RESPONSE—SPECIFIC INSTRUCTIONS
<ul style="list-style-type: none"> Responses are arranged in order of most to least assistance received from caregivers. Note that this question is concerned broadly with ADLs and IADLs, not just the ones specified in other OASIS items. ADLs are defined as the tasks of everyday life. Basic ADLs include eating, dressing, getting into or out of a bed or chair, taking a bath or shower, and using the toilet. Instrumental activities of daily living (IADL) are activities related to independent living and include preparing meals, managing money, shopping, doing housework, and using a telephone. Select the response that reports how often the patient receives assistance with any ADL or IADL.
