

# ICD-10-PCS 2012 Version

## Final Addenda

### Change Files

Changes to the PCS definitions between the 2011 version and the 2012 version are represented in three files. The first two provide a readable and printable representation:

*pcs\_delchg\_2011.pdf* – lists the invalid PCS code titles deleted since 2011 in PCS table format, followed by a code-by-code listing of the PCS code titles for which only the description has been revised, showing the old 2011 descriptions.

*pcs\_addchg\_2012.pdf* – lists the new PCS code titles added for 2012 in PCS table format, followed by a code-by-code listing of the PCS code titles for which only the description has been revised, showing the new 2012 descriptions.

The third file, *pcs\_diff\_11\_12.txt*, provides a complete listing of all addenda in a format suitable for processing by computer. This file has one record for each PCS code deleted since 2011, one record for each PCS code added for 2012, and two records for each PCS code for which only the description has been revised, the first showing the old 2011 description and the second showing the new 2012 description. The file is in PCS code order. Each record has the following format:

Position	Length	Contents
1	1	A if code added for 2012, showing 2012 description D if code deleted since 2011, showing 2011 description O if description only changed, showing 2011 description N if description only changed, showing 2012 description
2	1	Blank
3	7	PCS code added, changed or deleted
10	1	Blank
11	to end	Code description
