

# ICD-10-PCS 2010 Version

## Final Addenda

### Change Files

Changes to the PCS definitions between the 2009 version and the 2010 version are represented in three files. The first two provide a readable and printable representation:

*pcs\_delchg\_2009.pdf* – lists the invalid PCS code titles deleted since 2009 in PCS table format, followed by a code-by-code listing of the PCS code titles for which only the description has been revised, showing the old 2009 descriptions.

*pcs\_addchg\_2010.pdf* – lists the new PCS code titles added for 2010 in PCS table format, followed by a code-by-code listing of the PCS code titles for which only the description has been revised, showing the new 2010 descriptions.

The third file, *pcs\_diff\_09\_10.txt*, provides a complete listing of all addenda in a format suitable for processing by computer. This file has one record for each PCS code deleted since 2009, one record for each PCS code added for 2010, and two records for each PCS code for which only the description has been revised, the first showing the old 2009 description and the second showing the new 2010 description. The file is in PCS code order. Each record has the following format:

Position	Length	Contents
1	1	A if code added for 2010, showing 2010 description D if code deleted since 2009. showing 2009 description O if description only changed, showing 2009 description N if description only changed, showing 2010 description
2	1	Blank
3	7	PCS code added, changed or deleted
10	1	Blank
11	to end	Code description
