Auxiliary Beneficiary	A beneficiary who has a beneficiary identification code (BIC) that is not a primary BIC (A, M, J, T (second position is a space), or TA).
Batch Processing	An automated systems approach to processing in which data items to be processed must be grouped.
Beneficiary Identification Code (BIC)	That portion of the Medicare health insurance claim number that identifies a specific beneficiary.
Benefit Stabilization Fund	Established by CMS upon request of an HMO or CMP when it is required to provide its Medicare enrollees with additional benefits, in order to prevent excessive fluctuation in the provision of those benefits in subsequent contract periods.
Button	A rectangular icon on a screen. When the button is clicked, an action is taken. The button is labeled with word(s) that describe the action, such as Find or Update.
Checkbox	A field on a screen that is part of a group of options, any number of which may be selected. Each checkbox is represented with a small box, where ‘x’ means “on” and an empty box means “off.” When a checkbox is clicked, an ‘x’ appears in the box. When the checkbox is clicked again, the ‘x’ is removed.
Concatenation	The process of combining files, especially those being uploaded or downloaded with one transmission.
Connect:Direct	Proprietary software that transfers files between systems.
Correction	A record submitted by a Plan or CMS office to correct or update existing data concerning a beneficiary.
Cost Plan	A type of contract under which a Plan is reimbursed by CMS for its reasonable costs.
Current Payment Month (CPM)	The month for which Plans receive payment from CMS, not the current calendar month. The current Processing Month (PM) is the current calendar month in which processing occurs to generate payments.
Creditable Coverage	Prescription Drug coverage, generally from an employer or union, that has been determined to be at least as good as the Medicare standard prescription drug coverage.
Data entry field	A field on a screen that requires the user to type in information.

Term	Definition
Election period	Time periods during which a beneficiary may elect to join, change or leave Medicare Part C and/or Part D plans. These periods are fully defined in CMS Enrollment and Disenrollment guidance for Part C and D plans available on the web at: http://www.cms.gov/home/medicare.asp under “Eligibility and Enrollment.”
Enrollment	A record submitted when a beneficiary joins an MCO or a drug plan.
Exception	A transaction that was not processed because it contains errors or internal inconsistencies.
Formulary	A list of drugs that a MA organization or prescription drug plan covers.

Medicare+Choice (M+C) (now known as Medicare Advantage)	See Medicare Advantage.
Medicare Advantage (formerly known as Medicare+Choice)	A type of contract under which a payment is received from CMS for each member, based on demographic characteristics and health status (also referred to as Risk). In a Risk or M+C contract, the MCO accepts the risk if the payment does not cover the cost of services (but keeps the difference if the payment is greater than the cost of services). Risk is managed by having a membership where the high cost for very sick members can be balanced by the lower cost for a larger number of relatively healthy members.
Menu	A horizontal list of items at the top of a screen. Clicking on a menu item will display a screen and possibly display a submenu of items corresponding to the selected menu item.
Medicare Managed Care System	The system that replaced Group Health Plan system.
Network Data Mover	Software used for transmitting and receiving data (replaced by Connect: Direct).
MicroStrategy	A tool used for generating and viewing standard and ad hoc reports.

Term	Definition

Beneficiaries who are NHC are those whose condition would ordinarily require them to be cared for in a nursing home. Only acceptable for certain demonstration social health maintenance organization (SHMO)-type plans.
Off-cycle	A retroactive transaction waiting for approval from CMS. A retroactive transaction needs CMS approval because its effective date is too far in the past to be accepted automatically.
Online	An automated systems approach to processing that processes data in an interactive manner, normally through computer input.
Premium	The monthly payment a beneficiary makes to Medicare, an insurance company or a healthcare plan.
Program for All Inclusive Care for the Elderly (PACE) Plans	The PACE program is a unique capitated managed care benefit for the frail elderly provided by a not-for-profit or public entity that features a comprehensive medical and social service delivery system. It uses a multidisciplinary team approach in an adult day health center supplemented by in-home and referral service in accordance with participants' needs.
Radio button	A field on a screen that is part of a group of options, of which only one may be selected. A radio button is represented with a small circle, where a circle that is filled in means the button is selected, and an empty circle means it is not selected. Clicking a radio button will select that option and deselect the existing selection.
Reply Codes	Codes used to explain what action the system took in response to new information from CMS systems or in response to input from MCOs, CMS, or other users.
Required field	A field on a screen that must be filled in before a button is clicked to take some action. If the button is clicked and the field is not filled in, an error message is displayed and the action is not carried out. There are two types of required fields: • Always required. These are marked with an asterisk (*) • Conditionally required, that is, at least one or only one of the conditionally required fields must be filled in. These are marked with a plus sign (+).
Risk	A type of contract under which beneficiaries are “locked in” to network providers and a payment is received from CMS for each member, based on demographic characteristics and health status (also referred to as M+C). In a Risk or M+C contract, the MCO accepts the risk if the payment does not cover the cost of services (but keeps the difference if the payment is greater than the cost of services). Risk is managed by having a membership where the high costs for very sick members can be balanced by the lower costs for a larger number of relatively healthy members.

E.1 *820 Format Payment Advice Data File*

The 820 Format Payment Advice data file is a Health Insurance Portability & Accountability Act of 1996 (HIPAA)-compliant version of the Plan Payment Report which is also known as the Automated Plan Payment System (APPS) Payment Letter. The data file itemizes the final monthly payment to the Plan. It is produced by APPS when final payments are calculated, and is made available to Plans as part of the month-end processing. This data file is not available through MARx.

The following records are included in this file:

- Header Record (numbers 1-6 below)
- Detail Record (numbers 7-10 below)
- Summary Record (number 11 below)

The segments are listed in a required order:

1. ST, 820 Header
2. BPR, Financial Information
3. TRN, Re-association Key
4. DTM, Coverage Period
5. N1, Premium Receiver's Name
6. N1, Premium Payer's Name
7. RMR, Organization Summary Remittance Detail
8. IT1, Summary Line Item
9. SLN, Member Count
10. ADX, Organization Summary Remittance Level Adjustment
11. SE, 820 Trailer

The physical layout of a segment is:

- Segment Identifier, an alphanumeric code, followed by
- Each selected field (data element) preceded by a data element separator ("*")
- And terminated by a segment terminator ("~").

Fields are mostly variable in length and do not contain leading/trailing spaces.
Fields are skipped (if they contain nothing) by inserting contiguous data element separators ("*") unless they are at the end of the segment. Fields which are not selected are represented in the same way as fields that have been selected but in this particular iteration of the transaction set

contain no data, i.e., they are skipped.

For example, in fictitious segment XXX, fields 2, 3, and 5 (the last field) are skipped:

XXX*field 1 content*field 4 content~**

BALANCING REQUIREMENTS[1]

Following two balancing rules are given:

1. BPR02 = total of all RMR04
2. RMR04 = RMR05 + ADX01

In order to comply with balancing rules, BPR02 and RMR04 are set equal to Net Payment (paid amount), RMR05 is set equal to Gross/Calculated Payment (billed amount), and ADX01 is set equal to Adjustment amount.

On Cost/HCPP contracts, put the actual dollars billed --- rather than the “risk equivalent” dollar amounts --- into RMR05.

E.2 *September Preliminary PDP Notification File for Plans Losing Beneficiaries to Reassignment*

This file is sent to PDPs losing beneficiaries to reassignment due to premium increase (i.e., the premium going above LIS benchmark in the next year, or going from basic to enhanced benefit). It is a preliminary list of those CMS expects the plan to lose due to reassignment. It is used to help PDPs target the appropriate Annual Notice of Change to these beneficiaries. Please note the file does not include individuals who may regain deemed status in October, nor those whom a State Pharmaceutical Assistance Program (SPAP) may reassign if it has the authority to enroll on behalf of its members.

There is no header or footer for this file.

Note 1: Election type rules do apply to HCPP, COST 1 without drug, COST 2 without drug, CCIP/FFS demos, MDHO demo, MSHO demo and PACE National enrollments in cases where such an enrollment would cause an automatic disenrollment from another plan requiring an election type. The election type for the Plan on the enrollment request must be consistent with the election type required for automatic disenrollment.

Note 2: MA organizations and cost plans that auto/facilitate enroll LIS beneficiaries on behalf of CMS should use the appropriate newly-designated enrollment source code when submitting auto-enrollments or facilitated enrollments: E = Plan-submitted auto-enrollment, F = Plan-submitted facilitated enrollment, G = Point of Sale (POS) submitted enrollment (*for use by POS contractor only*), H = CMS reassignment enrollment, I = Assigned to Plan-submitted enrollment with enrollment source other than any of the following: B, E, F, G, H and blank

Note 1: 4Rx and NUNCMO transactions (Type 72 and 73) can be retroactive as well as prospective. Any effective date will be accepted as long as it matches an already existing Part D enrollment effective date.

Note 2: For 4Rx (Type 72) Record Update transactions, the current Primary 4Rx values, if any, are replaced with the Primary 4Rx values from the transaction. When Secondary 4Rx values are specified, the Secondary 4Rx values from the transaction are added as a new instance of Secondary 4Rx coverage. There is **no** mechanism for plans to **delete** or **replace** an instance of Secondary 4Rx coverage via MARx transactions.

Note 3: NUNCMO Record Update (creditable coverage) transaction (Type 73) information can be retroactive (not prior to August 2006) as well as prospective (not past CPM plus 2 months). Effective date on the transaction should match a Part D enrollment date if the creditable coverage flag is Y, N or blank. Effective date on the transaction can be within a Part D enrollment period if the creditable coverage flag is R or U.

E.8 *Failed Transaction Data File - OBSOLETE*

Effective with the November 2009 Software Release, the Failed Transaction Data File will no longer be generated. The reporting of failed records has now been incorporated into Batch Completion Status Summary (BCSS) Data file. See E.3 page E-11 for an updated layout.

The Failed Transaction data file details transactions that cannot be loaded into MARx for processing due to formatting errors with the file header, user authentication, transaction format or incorrect data types for transaction data elements. It is sent to the user who submitted the batch.

E.18 *Loss of Subsidy Data File*

This is a file sent to notify Plans about beneficiaries' loss of low-income subsidy deemed status for the following calendar year based on CMS' annual re-determination of deemed status or SSA's re-determination of LIS awards. The file is sent to Plans twice per year, once in September and once in December.

The September file is informational only and should be used to assist Plans in reaching out to the affected population and encouraging them to file an application to qualify for the upcoming calendar year.

The December file is for transactions and should be used by Plans to determine who has lost the low income subsidy as of January 1st of the coming year. The TRC used for this file is 996, which indicates the loss of the low income subsidy. This means the beneficiary will not be LIS eligible as of January 1st of the upcoming year.

E.20 *LIS History Data File (LISHIST)*

The Monthly LIS History Data File is produced along with the first weekly TRR of the month.. This file provides the most complete picture of LIS eligibility over a period of time not to exceed 36 months. This data file includes LIS activity for past, present, and future enrollees who have LIS.

Please note the following limitations:

- The LIS History Data File will display only those LIS history changes during active, contiguous enrollment with a contract over a period of time not to exceed 36 months.
- Enrollees whose LIS eligibility span is cancelled in its entirety will not be on the reports after the cancellation becomes effective. To identify these individuals more precisely, refer to the Weekly LIS Activity File E-27.

NOTE: This file was updated to include a Data Activity Flag in field 16 (position 80) of the Detail Record.

E.21 *NoRx File*

File containing records identifying those enrollees that do not currently have 4Rx information stored in CMS files. A Detail Record Type containing a value of “NRX” in positions 1 – 3 of the file layout will indicate that this record is a request for your organization to send CMS 4Rx information for the beneficiary.

The NoRx File contains the same format as the 4Rx Notification File and is a file that contains records identifying those enrollees who do not currently have 4Rx information stored in CMS files. The only distinction in the format between the two files is that the NoRx file detail record will show blanks, or no information, in fields such as REC TYPE, DATE OF BIRTH, RX BIN, etc.

The following records are included in this file:

- Header Record

Note: CMS provides up to two occurrences of LIS information in the BEQ Response File. During the open enrollment period, CMS is not aware whether Plans are submitting queries for 2008 enrollments or 2009 enrollments. Therefore, the BEQ provides the current and future LIS information so Plans have the correct information for the year in which they will be submitting the enrollment transaction.

E.25 *Auto Assignment (PDP) Address Notification File*

This file contains monthly addresses of Beneficiaries who have been either Auto Assigned, Facilitated Assigned, or reassigned to PDPs. This file contains a header record, detail records and a trailer record. Please see section 9.2 for details on its use.

- Header Record — This is the first record of the file. It will only occur once.
- Detail Record — This record will contain beneficiary information. It may occur multiple times.
- Trailer Record — This is the last record of the file. It will only occur once.

Starting October, 2009 CMS will modify how it populates the beneficiary address fields in the "Auto Assignment (PDP) Address Notification File." This change is expected to make it easier for PDPs to use these address data. The address data elements and related positions will remain the same, but how they are populated will change.

Currently, the full address (including city/state/zip code) is "wrapped" in the fields "Beneficiary Address Line 1" through "Beneficiary Address Line 6," with the result that street address, city, and state may appear on different lines for different beneficiaries. With the change in October, the different parts of the address will appear only on certain lines, as follows:

- Beneficiary Address Lines 1-6 will be limited to Representative Payee Name (if applicable), and street address, and these elements will be "wrapped."
- When a Beneficiary has a Representative Payee, the Beneficiary Representative Payee Name will be printed on Address Line 1, and may use more Address Lines.
- The actual street address in such cases will be printed on the line after the name concludes.
- Address Lines printed on fewer than six lines will have remainder of the lines padded with space prior to printing.
- City/State/Zip Code data will only appear in the fields labeled as City/State/Zip Code data fields.

E.28 *Long Term Institutionalized Resident Report Data File*

The Long Term Institutionalized (LTI) Resident Report provides Part D sponsors a list of their beneficiaries who are LTI residents during July and January of each year. This report contains basic information on the beneficiaries and their institutions (Skilled Nursing Home or Nursing Home).

This new report will provide information to Part D Sponsors on which of their enrollees are institutionalized, as well as the names and addresses of the particular long-term care (LTC) facilities in which those beneficiaries reside. This information is obtained by linking Medicare enrollment information with data from the Minimum Data Set (MDS) of nursing home assessments. The list of beneficiaries represents those who are LTI residents as of July and January of each year who have a reported length of stay of over 90 days.

The file is sent via HPMS to Part D sponsors in late April and late September beginning in 2009. The report is provided in a fixed-length text format and the record layout is described below.

E.29 *Agent Broker Compensation Report Data File*

For plan enrollments, the MARx system will establish a status of initial or renewal as well as a 6-year compensation cycle which will provide plans with the information necessary to determine how to pay agents for specific beneficiary enrollments. Plans can pay agents an initial amount or a renewal amount as provided in the CMS agent compensation guidance.

Based on the qualification rules, year 1 is the initial year and years 2 through 6 are the renewal years. Plans are responsible for using this information in conjunction with their internal payment and enrollment tracking systems to determine if an agent was used and how much the agent should be paid.

The Agent Broker Compensation Report Data File will be generated and sent to plans along with the first weekly Transaction Reply Report (TRR) of each calendar month.

E.32 *No Premium Due Data File Layout*

MA enrollees who elect optional supplemental benefits may also elect SSA premium withholding. In mid-November, the MARx system begins preparing the premium records for the next year. Since MARx cannot anticipate what optional premiums an enrollee may elect for next year, an enrollee only paying optional premiums may go from "SSA Premium Withholding" status in one year to "No Premium Due" status for the next year. The No Premium Due Data File can be used to identify enrollees in a "No Premium Due" status for the next year. Plans should review the report and submit both a Miscellaneous Record Update (Transaction Code 74) to update the Part C premium Amount, and a Premium Withhold Option Update (Transaction Code 75) to request SSA Withholding Status, for enrollees who are renewing both elections for the next year.

Functions are grouped together under a common menu item (e.g., most of the beneficiary-specific information can be found under the Beneficiary menu item). **Table F-1** lists the names of the Common UI screens that are accessible to MCOs, their screen numbers (for reference only), and on which page of this appendix (F) they can be found.

H.2 *Transaction Reply Codes*

Table H-2 lists the reply codes returned for transactions found in Table H.1.

Transaction Reply Code Types:

A -	Accepted -	A transaction was accepted and the requested action was applied (Example: enrollment or disenrollment)
R -	Rejected -	A transaction was rejected due to an error or other condition. The requested action was not applied to the CMS System. The TRC code indicates the reason that the transaction was rejected. *These should be analyzed by the Plan to validate the submitted transaction and to determine if the transaction should be resubmitted with corrections.*
I -	Informational -	These replies accompany replies with Accepted TRCs. They give additional information about the transaction or beneficiary. For example: If an enrollment transaction for a beneficiary who is “out of area” is accepted, the Plan will receive an accepted TRC (TRC 011) and an additional reply will be included in the TRR that gives the Plan the additional information that the beneficiary is “Out of Area” (TRC 016).
M -	Maintenance -	These replies are sent to Plans to give them information about beneficiaries who are enrolled in their Plan. They are sent in response to information received by CMS. For example: If CMS is informed that a beneficiary’s claim number has changed, a reply will be included in the Plan’s TRR with TRC 086, giving the Plan the new claim number.
F -	Failed -	A transaction was failed due to an error or other condition. The requested action was not processed. The TRC code indicates the reason that the transaction failed. *These should be analyzed by the Plan and resubmitted with correction.*

Legend for Type: **A** = Accepted **R** = Rejected **I** = Informational **M** = Maintenance **F** = Failed

Table H-2 Transaction Reply Codes

Code/Type*	Title	Short Definition	Definition
001 R	Invalid Transaction Code	BAD TRANS CODE	A transaction failed because the transaction type code (field 16) contained an invalid value. Valid transaction type code values are 01, 51, 60, 61, 62, 71, 72, 73, 74, 75 and 85. This transaction should be resubmitted with a valid transaction type code. ***Note:*** *Transaction Types 30 and 31 are valid for pre-2004 adjustments. Transaction Types 41 and 54 are not submitted by the Plans.* *This TRC code will be returned in the BCSS.* This TRC code will not be returned in the *TRR.* **Plan Action:** Correct the Transaction Code and resubmit if appropriate.
002 R	Invalid Correction Action Code	BAD ACTION CODE	A correction transaction (01) failed because the supplied action code was an invalid value. The valid action code values are D, E, F and G. The transaction should be resubmitted with a valid action code. *This TRC will be returned in the BCSS.* This TRC code will not be returned in the *TRR.* **Plan Action:** Correct the Action Code and resubmit if appropriate.
003 R	Invalid Contract Number	BAD CONTRACT #	A transaction (01, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) failed because CMS did not recognize the contract number. *This TRC will be returned in the BCSS.* This TRC code will not be returned in the *TRR.* **Plan Action:** Correct the Contract Number and resubmit if appropriate.

Code/Type*	Title	Short Definition	Definition
004 R	Beneficiary Name Required	NEED MEMB NAME	A transaction (01, 41, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) was rejected, because both of the beneficiary name fields (Surname and First Name) were blank. The beneficiary's name must be provided. The transaction should be resubmitted with beneficiary name included. **Plan Action:** Populate the Beneficiary Name fields and resubmit if appropriate.
006 R	Invalid Birth Date	BAD BIRTH DATE	A transaction (01, 41, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) failed or was rejected because the beneficiary Birth Date (field 6) was invalid or inappropriate. A value submitted in the Birth Date field must be a valid date in the format YYYYMMDD. If the Birth Date contains a non-blank invalid date (ex: "Aug 1940" or "19400199"), the transaction is returned with TRC 006 in the BCSS as a failed record (NOT the TRR). If the Birth Date contains a valid date but the birth year is before 1870 or greater than the current year, the transaction is rejected and a record with TRC 006 is returned in the TRR. ***Note:*** *A blank Birth Date does not result in TRC 006 but may affect the ability to identify the appropriate beneficiary. See TRC 009.* **Plan Action:** Correct the Birth Date and resubmit if appropriate.

Code/Type*	Title	Short Definition	Definition
007 R	Invalid Claim Number	BAD HICN FORMAT	A transaction (01, 41, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) was rejected, because the beneficiary claim number was not in a valid format. The valid format for a claim number could take one of two forms: • HICN is an 11-position value, with the first 9 positions numeric and the last 2 positions alphanumeric. • RRB is a 7 to 12 position value, with the first 1 to 3 positions alpha and the last 6 or 9 positions numeric. **Plan Action:** Determine the correct claim number (HICN or RRB) for the beneficiary and resubmit the transaction if appropriate.
008 R	Beneficiary Claim Number Not Found	HICN NOT FOUND	A transaction (01, 41, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) was rejected, because a beneficiary with this claim number was not found. The transaction should be resubmitted with a valid claim number. **Plan Action:** Determine the correct claim number (HICN or RRB) for the beneficiary and resubmit the transaction if appropriate.
009 R	No beneficiary match	NO BENE MATCH	A transaction (01, 41, 51, 60, 61, 62, 71, 72, 73, 74, 75, 85) attempted to process but the system was unable to find the beneficiary based on the identifying information submitted in the transaction. A match on claim number (HICN) is required, along with a match on 3 of the following 4 fields: surname, first initial, date of birth and sex code. **Plan Action:** Correct the beneficiary identifying information and resubmit if appropriate.

Code/Type*	Title	Short Definition	Definition
011 A	Enrollment Accepted as Submitted	ENROLL ACCEPTED	The new enrollment (60, 61, 62) has been successfully processed. The effective date of the new enrollment is shown in the Effective Date (field 18) of the Transaction Reply record and in the EFF DATE column on the printed report. This is the definitive enrollment acceptance record. Other accompanying replies with different TRCs may give additional information about this acceptance enrollment. **Plan Action:** Ensure the Plan's system matches the information included in the TRR record. Take the appropriate actions as per CMS enrollment guidance.
013 A	Disenrollment Accepted as Submitted	DISENROL ACCEPT	A disenrollment transaction (51) has been successfully processed. The effective date of the disenrollment is reported in field 24 of the Transaction Reply record and is shown in the EFF DATE column on the printed report. The disenrollment effective date is always the last day of the month. **Plan Action:** Ensure the Plan's system matches the information included in the TRR record and that the beneficiary's disenrollment date matches the date in field 24. Take the appropriate actions as per CMS enrollment guidance.

Code/Type*	Title	Short Definition	Definition
014 A	Disenrollment Due to Enrollment in Another Plan	DISNROL-NEW MCO	This TRC is returned on a reply with the successful processing of transaction types 51 (disenrollment), 60/ 61/ 62 (regular enrollment) and 71 (PBP Change). The effective date of the disenrollment is reported in field 24 of the Transaction Reply record and in the EFF DATE column on the printed report. The disenrollment date will always be the last day of the month. For the type 51 transaction, the beneficiary has been disenrolled from this Plan because they were successfully enrolled in another Plan The Source ID (field 28) contains the Contract number of the Plan that submitted the new enrollment which caused this disenrollment. For the 60, 61, 62 and 71 type transactions, the TRC will be issued whenever a retroactive enrollment runs into an existing enrollment that prevails according to application date edits. The Source ID (field 28) contains the Contract number of the prevailing plan. **Plan Action:** Update the Plan's records accordingly, ensuring that the beneficiary's information matches the data included in the TRR record and that the beneficiary's disenrollment date matches the date in field 24. Take the appropriate actions as per CMS enrollment guidance.
015 A	Enrollment Canceled	ENROLL CANCELED	An existing enrollment was cancelled. The effective date of the enrollment which has been cancelled is reported in the Effective Date (field 18). This will always be a disenrollment transaction type (51). A cancellation may be the result of an action on the part of the beneficiary, CMS or another Plan. When an enrollment is cancelled, it means that the enrollment never occurred. **Plan Action:** Because it was cancelled, this entire enrollment that was scheduled to begin on the date in field 18 should be removed from the Plan's enrollment records. Take the appropriate actions as per CMS enrollment guidance.

Code/Type*	Title	Short Definition	Definition
016 I	Enrollment Accepted, Out Of Area	ENROLL-OUT AREA	The beneficiary’s residence state and county codes placed the beneficiary outside of the Plan’s approved service area. This TRC provides additional information about a new enrollment or PBP change (60, 61, 62, 71) for which an acceptance was sent in a separate Transaction Reply record with an enrollment acceptance TRC. The Effective Date of the enrollment for which this information is pertinent is reported in field 18 of the Transaction Reply record and in the EFF DATE column on the printed report. The transaction type will reflect the transaction type of the enrollment or PBP change (60, 61, 62. 71). **Plan Action:** Investigate the apparent discrepancy and take the appropriate actions as per CMS enrollment guidance.
017 I	Enrollment Accepted, Payment Default Rate	ENROLL—BAD SCC	CMS was unable to derive a valid state and county code for the beneficiary who has been successfully enrolled. Part C payment for this beneficiary will be at the plan bid rate with no geographic adjustment. This TRC provides additional information about a new enrollment or PBP change (60, 61, 62, 71) for which an acceptance was sent in a separate Transaction Reply with an enrollment acceptance TRC. The effective date of the new enrollment for which this information is pertinent is reported in fields 18 on the Transaction Reply record and in the EFF DATE column on the printed report. The transaction type reflects the transaction type of the enrollment or PBP change (60, 61, 62, 71). **Plan Action:** Contact your CMS Central Office Health Insurance Specialist for assistance.

Code/Type*	Title	Short Definition	Definition
018 A	Automatic Disenrollment	AUTO DISENROLL	The beneficiary has been disenrolled from the Plan. This disenrollment record (type 51) reports the disenrollment date in fields 18 and 24 of the Transaction Reply record and in the EFF DATE column on the printed report. On the printed report the reason for disenrollment is shown in the REMARKS column. The disenrollment date will always be the last day of the month. The disenrollment may be the result of an action on the part of the beneficiary, CMS or another Plan. A TRR reply with this TRC is usually accompanied by one or more replies which make the reason for automatic disenrollment evident. For example, in the case of beneficiary death, the reply with TRC 018 is accompanied by two replies with TRC 090. **Plan Action:** Update the Plan's records to reflect the disenrollment using the date in field 24. Take the appropriate actions as per CMS enrollment guidance.
019 R	Enrollment Rejected – Loss Of Part A And B Entitlement	NO ENROLL-NO AB	A submitted enrollment or PBP change transaction (60, 61, 62,71) was rejected because the beneficiary does not have Medicare entitlement as of the effective date of the transaction. **Plan Action:** Take the appropriate actions as per CMS enrollment guidance.
020 R	Enrollment Rejected – PACE Under 55	NO ENROLL-NOT 55	A submitted enrollment or PBP change transaction (60, 61, 62, 71) for a PACE plan was rejected because the beneficiary is not yet 55 years of age. **Plan Action:** Take the appropriate actions as per CMS enrollment guidance.

Code/Type*	Title	Short Definition	Definition
022 A	Transaction Accepted, Claim Number Change	-NEW HICN	A transaction (60, 61, 62, 71, 72, 73, 74, 75, 85) has been successfully processed. The effective date of the transaction is shown in the Effective Date (field 18) of the Transaction Reply record and in the EFF DATE column on the printed report. **Additionally,** the claim number for this beneficiary has changed. I.3 *Demographic Report*

Description

This report provides a summary, by state and county, of the membership of the MCO. Members are counted in categories that parallel the factors used in calculating the demographic payment (age and sex, Medicaid, and institutional status), as well as ESRD and hospice status.

Example

Below is a section of a Demographic Report that covers one state and county. The section is repeated for each SCC in which the MCO has members.

Description

This report summarizes payments to an MCO for the month, in several categories, and adjustments, by all adjustment categories. When the report is automatically generated as part of month-end processing, it covers one contract in one payment month. When the report is generated on user request, it is based on the transcriptions received to-date for the current payment month and may be generated for one contract or for all contracts in a region.

I.12 *Plan Payment Report (APPS Payment Letter)*

Description

Also known as the "Payment Letter," this report itemizes the final monthly payment to the MCO. This report is produced by the Automated Plan Payment System (APPS) when final payments are calculated. CMS makes this report available to MCOs as part of month-end processing.

Plan Payment Report (PPR) - Final

The PPR includes Part D payments and adjustments, the National Medicare Education Campaign (NMEC) and Coordination of Benefits (COB) User Fees and premium settlement information. There is one version of the PPR applicable to all plans and it will be provided monthly

Contents of the Plan Payment Report

PAYMENT #	PAYMENT DATE	PAYMENT CONTAINS….	PPR CONTAINS….
1	January 1, 2006	January Part D capitated and LIS payments from CMS	January Part D capitated and LIS payments from CMS
2	February 1, 2006	February Part D capitated and LIS payments from CMS + January Withheld premiums from SSA, RRB & OPM	February Part D capitated and LIS payments from CMS + January Withheld premiums from SSA, RRB & OPM
3	March 1, 2006	March Part D capitated and LIS payments from CMS + February Withheld premiums from SSA, RRB & OPM	March Part D capitated and LIS payments from CMS + February Withheld premiums from SSA, RRB & OPM
4	April 1, 2006	April Part D capitated and LIS payments from CMS + March Withheld premiums from SSA, RRB & OPM	April Part D capitated and LIS payments from CMS + March Withheld premiums from SSA, RRB & OPM

The PPR displays the summarized amounts that constitute the monthly amount wired to Plans by the Treasury Department. This includes the Part A/B and D payment amounts. Some of the adjustments will have Part A/B and D components and there are also five adjustment types related to Part D.

The User Fees are applied as follows during January through September of each year.

- The NMEC user fee will be applied against MA-PD payments and PDP payments.
- The COB user fee will be applied against payments for members electing Part D.

The PPR also includes low-income premium subsidy payments made to Plans on behalf of the Plan's eligible members as well as the withheld premium amounts.

NOTE: The PPR contains the summarized LIS amounts paid to Plans monthly. This may be problematic because the report does not provide beneficiary-level LIS information. The beneficiary –level LIS information can be obtained from the Bi-Weekly LIS data file (see Section E.19). The amounts also can be derived using the following information from the MMR:

- Identify all members that have a low-income cost sharing payment component.
- Obtain the difference between the Total Part D Payment (field 71) and the sum of the Direct Subsidy (field 68) + the Reinsurance amount (field 69) + Low-Income Cost Sharing amount (field 70) + the Rebate for Part D Basic Premium Reduction (field 66).

This difference is the Low-Income Premium subsidy for the member.

I.13 *Interim Plan Payment Report (IPPR)*

Description

Also known as the "Interim Payment Letter," this report itemizes interim payments to the MCO. It is produced by the Automated Plan Payment System (APPS) when interim payments are calculated. CMS computes interim payments on an as-needed basis. When this occurs, the interim payment letter is pushed to the involved plan(s).

Interim Plan Payment Report (IPPR)

The Interim APPS Plan Payment Report is provided when a Plan is approved for an interim payment outside of the normal monthly process. The report will contain the amount and reason for the interim payment to the Plan.

The report (IPPR) can also be requested via the MARx User Interface (Common UI) under the weekly reports section of the menu.

Note: For a sample of this report, refer to I-12 Plan Payment Report (PPR) for the file format.

This page intentionally left blank.

I.14 *Transaction Reply Activity Report (TRR) (Weekly & Monthly)*

Description

This report lists all of the transactions that CMS processed for an MCO in that week, regardless of source, and gives a final disposition code for each transaction.

Note: A monthly version of this report is also made available to Plans. The report uses the same format as the Weekly TRR.

L: *Valid Election Types for Plan Submitted Transactions*

Table L-1 shows the valid election types for plan submitted enrollment and disenrollment transactions. Plans must ensure the requirements as provided in the CMS Enrollment and Disenrollment guidance applicable to the plan type are followed to properly determine and report the election type.

Note 1: For usage of these codes, refer to the previously released MMA Guidance and PDP Guidance.

Note 2: For election type SEP, the following values may be used under these specific circumstances:

- U - for Duals and Individuals with LIS
- W - for EGHP
- V - for permanent moves
- Y - CMS Casework use only (not submitted by plans)
- S - Any other SEP as provided in guidance that is not one of the above values.

Note 3: In addition to these election period identifiers, CMS has provided a valid value of 'X' for use in the election period identifier field. This value is an Administrative Action and may be used when a transaction being submitted is not reflective of an actual beneficiary election, as follows:

- Plan submitted "rollover"- Year-end processing occasionally requires that Plans submit transactions to accomplish the Plan crosswalk from one contract year to another. When required, as defined in the CMS Call Letter instructions, Plans should use the 'X' value in the election period field of the enrollment transaction being submitted for this purpose.

- Involuntary Disenrollment - In limited circumstances, Plans may involuntarily disenroll individuals for specific reasons and meeting all of the conditions provided in CMS enrollment guidance. Since these actions are not "elections," Plans should use the value of 'X' in the election period field of the disenrollment transaction being submitted for this purpose.

- Premium Withhold Option Change - Plans may submit changes to an individual's premium withhold status via a 72 transaction. When doing so, Plans should use the 'X' value in the election period field of the 72 transaction being submitted for this purpose.

- Plan-submitted "canceling" Transaction - Since beneficiaries may choose to cancel an enrollment or disenrollment request prior to the effective date of the request, occasionally Plans submit "canceling" transactions to CMS to cancel an already

submitted action. Plans should use the value of 'X' in the election period field of the enrollment or disenrollment transaction being submitted for this purpose.
