Dear Dr. Phurrough:

This letter is a formal request to CMS for a national coverage decision on:

Colorectal cancer screening through the identification of specific colorectal cancer associated DNA mutations and alterations by the analysis of human DNA isolated from stool.

In accordance with the NCD request process published in the Federal Register, September 6, 2003 (FR Vol. 68, number 187, pages 55634-55641), we request that CMS uses the collaborative NCD development track, track one (FR Vol. 68, number 187, pg 55638, IV E).

Dr. Barry M. Berger, Vice President for Laboratory Medicine, EXACT Sciences Corporation, the primary requestor and contact for this NCD request and may be reached at any time for additional information or clarification: 508-683-1250 Ph Office, 617-293-7738 Ph Cell:, email: bberger@exactsciences.com.

I serve as a member of the Board of Directors of EXACT Sciences Corporation.

Sincerely,

A handwritten signature in cursive script that reads "Connie Mack".

Connie Mack
United States Senate (Ret.)
