

Introduction to the Consistent Poor Performer February Notice

What's the purpose of this notice?

This notice lets people know that they recently enrolled in a plan that has been identified as a consistent poor performer. This means that the plan has received an overall star rating of less than three stars for at least three years. This notice informs people of a one-time opportunity to move into a higher rated plan.

Who gets this notice?

Medicare mails this notice to people who recently enrolled in plans that have an overall star rating of “poor” or “below average” for at least the last three years. The February notice is specifically sent to people who enrolled in consistently poor performing plans during the Medicare fall open enrollment period.

This is the second of two notices sent to individuals enrolled in low performing plans. The first notice was sent in November (CMS Product Number 11627 or 11627-S) to beneficiaries enrolled in poor performing plans as of the beginning of the fall open enrollment period.

When do people get this notice?
