

## CHAPTER 3 – OASIS ITEM GUIDANCE

Chapter 3 contains item-by-item guidance for all OASIS items. For each data item, guidance is provided on the following topics:

- OASIS ITEM text.
- ITEM INTENT: Describes the rationale for collecting the information, in the context of outcome and process quality measurement, care planning, outcome risk adjustment, or prospective payment rate adjustment.
- TIME POINTS COMPLETED: Describes when the information is to be collected during the patient's home health episode of care.
- RESPONSE-SPECIFIC INSTRUCTIONS: Describes how the clinician should decide which of the possible responses should apply. These instructions may not always provide definitive guidance for coding of responses in every case, because clinical judgment is often required to determine the most accurate response to a specific item.
- DATA SOURCES/RESOURCES: Describes the potential sources of information that should be accessed during the assessment to determine the most accurate response to this specific item. May include other clinicians, administrative records, online guidance regarding coding or other assessment guidelines, or standards promulgated by professional or accrediting organizations.

The following table shows the changes that have been made to the OASIS-C1/ICD-9 Data Set and the corresponding changes that have been made to Chapter 3 – OASIS-C1/ICD-9 Item Guidance in response to provisions in the Protecting Access to Medicare Act of 2014 (PAMA).

An "X" in a column indicates that a change has been made to the OASIS-C1/ICD-9 Data Set and/or the OASIS-C1/ICD-9 Guidance Manual.

OASIS-C Item Number	OASIS-C1/ICD-9 Data Set					OASIS-C1/ICD-9 Guidance Manual
