

2011 Physician Quality Reporting System (PQRS) and Electronic Prescribing (eRx) Incentive Program Experience Report, Including Trends (2008-2012) Release Notes

CMS released an updated version on the 2011 PQRS/eRx Experience Report on 4/9/2013. This document lists the changes to the report since the original release on March 29, 2013.

Changes to the report include:

- 4/9/2013 date on the cover page
- A new version of Table 16 (in the prior version of the report this table showed the 2010 results rather than 2011)
- A new sentence summarizing Table 16 (located on page 21, just before the new table)

The appendix and all other components of the report remain unchanged.
