

2015 Group Practice Reporting Option Web Interface Supporting Documentation Release Notes

December 2014

The Centers for Medicare & Medicaid Services (CMS) is pleased to announce the release of the 2015 Group Practice Reporting Option (GPRO) Web Interface Supporting Documentation Release Notes. The list below details a comprehensive list of revisions made since the release of the 2014 GPRO Supporting Documentation and is to be used with Version 6.0 of the 2015 Supporting Documentation.

The 2015 GPRO Supporting Documentation has been updated to reflect clinical practice guidelines and applicable health informatics that are the most current available as of November 2014. These documents are available for use by GPRO Web Interface participants. A measure's inclusion in this document does not guarantee that measure will be used in any specific CMS program in 2016 or any subsequent year.

To determine which measures are included in any specific CMS program or demonstration, interested parties should refer to the official documentation for that program or demonstration. Please refer to the Medicare Physician Fee Schedule 2015 Final Rule (published in the Federal Register in November, 2014) to identify the measures that are available for GPRO Web Interface reporting for 2015.

Note: *The 2015 GPRO Web Interface Supporting Documentation consists of several tabs within an excel workbook for each module/patient care measure, the tabs separate the documents by title. These Release Notes are divided into sections by the title of each tab, then by measure. Please review each section for a complete list of changes made to each measure.*
