2012 Physician Quality Reporting System: Reporting the Preventive Care Measures Group Via Claims Made Simple

FACT SHEET

<http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS>

Background

The Physician Quality Reporting System (Physician Quality Reporting) is a voluntary reporting program. The program provides an incentive payment to practices with eligible professionals (identified on claims by their individual National Provider Identifier [NPI] and Tax Identification Number [TIN]) who satisfactorily report data on quality measures for covered Physician Fee Schedule (PFS) services furnished to **Medicare Part B Fee-For-Service (FFS) beneficiaries** (including Railroad Retirement Board and Medicare Secondary Payer).

A web page dedicated to providing all the latest news on Physician Quality Reporting is available at <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS> on the Centers for Medicare & Medicaid Services (CMS) website.

Purpose

This fact sheet provides guidance on satisfactorily reporting the Preventive Care Measures Group via claims for 2012 Physician Quality Reporting.

Is This Your Situation?

- You have not yet begun to participate in 2012 Physician Quality Reporting,
- You don't currently submit data to a registry, and
- You would like to participate in 2012 Physician Quality Reporting using claims-based reporting.

CPT only copyright 2011 American Medical Association. All rights reserved. CPT is a registered trademark of the American Medical Association. Applicable FARS\DFARS Restrictions Apply to Government Use. Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT, and the AMA is not recommending their use. The AMA does not directly or indirectly practice medicine or dispense medical services. The AMA assumes no liability for data contained or not contained herein.

Solution

- Report on the Preventive Care Measures Group for 30 **unique** Medicare Part B FFS patients or 50 percent of applicable Medicare Part B FFS patients (with a minimum of 15 patients) between January 1 and December 31, 2012.

How to Start Using This Measures Group

- Select a start date to begin submitting quality data (e.g., January 1, 2012);
- Identify the next Medicare Part B FFS patient you will see who is 50 years of age or older and for whom you will bill an Evaluation and Management (E/M) Current Procedural Terminology (CPT) code in the ranges of 99201 – 99205 or 99212 – 99215. No specific International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) diagnosis code is required for this measures group;
- Report the measures group specific intent Healthcare Common Procedure Coding System (HCPCS) G-code (G8486) with your first patient; and
- Refer to Table 1 to see which measures apply to the patient based on the patient’s age and gender.

Table 1. Preventive Measures Group Demographic Criteria

Age	Measures for Male Patients	Measures for Female Patients
< 50 years	Patient does not qualify for measures group analysis	Patient does not qualify for measures group analysis
50 – 64 years	110, 113, 128, 173, 226	110, 112, 113, 128, 173, 226
65 – 69 years	110, 111, 113, 128, 173, 226	39, 48, 110, 111, 112, 113, 128, 173, 226
70 – 75 years	110, 111, 113, 128, 173, 226	39, 48, 110, 111, 113, 128, 173, 226
≥ 76 years	110, 111, 128, 173, 226	39, 48, 110, 111, 128, 173, 226

How to Report Using This Measures Group

- **When you identify your first patient, place intent G-code G8486 on the claim submitted for that patient. This signals CMS that you plan to submit the Preventive Care Measures Group for 30 unique Medicare Part B FFS patients or 50 percent of applicable Medicare Part B FFS patients (with a minimum of 15 patients) between January 1 and December 31, 2012.** Look at the “Data Collection Worksheet” in [Appendix A](#) for a brief description of the measures in the Preventive Care Measures Group and the codes to report depending on the quality action or service you provide to the patient. The appropriate Quality-Data Codes (QDCs) for the measures you report for each patient need to be included on the claim you submit for the patient during the 12-month reporting period. It is generally easier to report all of the applicable measures at one time on the same claim when the patient is seen. However, if a particular service has yet to be performed (e.g., a mammogram) you may report that measure at the time the patient returns post-procedure, if that patient is seen again prior to the end of the reporting period on December 31, 2012. If all quality actions for the patient have been performed for the Preventive Care Measures Group, the composite G-code G8496 (i.e., all quality actions for the applicable measures in the Preventive Care Measures Group have been performed for this patient) may be reported in lieu of the individual QDCs for each of the measures within the group.

- Check <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/MeasuresCodes.html> on the CMS website for the full measures groups specifications.

Select Sample Method:

- **30-Patient Sample Method:** This method uses 30 **unique** Medicare Part B FFS patients meeting patient sample criteria for the measures group. (Note: The 30 patients do not have to be seen on consecutive dates.)
 - Use the “Worksheet to Track Unique Medicare Part B FFS Patients for Reporting Preventive Care Measures Group” in [Appendix A](#) to track each of your 30 unique patients. (Note: You may want to collect more than 30 as a safeguard.) You can list the measures that still need to be reported to help guide you during the patient’s next visit. This is a suggested informal worksheet intended for your office’s internal use only and should **not** be sent to CMS or your carrier or A/B Medicare Administrative Contractor (MAC).

OR

- **50 Percent Patient Sample Method:** This method uses all patients meeting patient sample criteria for the measures group during the entire reporting period (January 1 – December 31, 2012). For the 12-month reporting period, a minimum of 15 Medicare Part B FFS patients must meet the measures group patient sample criteria to report satisfactorily.
 - **All applicable measures within the group must be reported** using the appropriate QDCs on the claim you submit for each Medicare Part B FFS patient. To assist with tracking, consider photocopying the “Data Collection Worksheet” in [Appendix A](#). Highlight or circle the appropriate measures and measures codes (QDCs) you need to submit for that patient’s visit and staple the worksheet to your encounter form. Your clinical support staff can use this information to report the appropriate measures codes on the patient’s claim. Your system may also help you select those patients eligible for this measure by identifying the appropriate ICD-9-CM and CPT codes for each measure.

Resources

- For more information about what’s new for 2012 Physician Quality Reporting, visit <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/EducationalResources.html> on the CMS website.
- For more information about reporting via claims, refer to the “2012 Physician Quality Reporting System: Claims Reporting Made Simple” document at <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/EducationalResources.html> on the CMS website.
- For answers to frequently asked questions, visit <https://questions.cms.gov> on the CMS website.

Appendix B: Form CMS-1500 Claim [Detailed Measures Group] – Sample 1 (continues on next page)

The following is a claim sample for reporting the Rheumatoid Arthritis (RA) Measures Group on a Form CMS-1500 claim, and it continues on the next page. Two samples are included: one is for reporting of individual measures for the RA measures group; the second sample shows reporting performance of all measures in the group using a composite G-code. For more information, visit <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/MeasuresCodes.html> on the CMS website.

21. Review and determine if ANY diagnosis (Dx) listed in Item 21 meets the patient sample criteria for the RA measures group.

24D. Procedures, Services, or Supplies – CPT/HCPCS, Modifier(s) as needed

Quality-Data Codes (QDCs) must be submitted with a line-item charge of \$0.00. Charge field cannot be blank.

21. DIAGNOSIS OR NATURE OF ILLNESS OR INJURY (Relate Items 1, 2, 3 or 4 to Item 24E by Line)										22. MEDICAID RESUBMISSION CODE										ORIGINAL REF. NO.

Identifies claim line-item

Report ALL measures' QDCs within the RA measures group

For group billing, the rendering NPI number of the individual eligible professional who performed the service will be used from each line-item in the Physician Quality Reporting calculations.

The NPI of the billing provider is entered here. If a solo practitioner, then enter the individual NPI; if a Group is billing, enter the NPI of the group here. This is a required field.

NUCC Instruction Manual available at: www.nucc.org APPROVED OMB-0938-0999 FORM CMS-1500 (08/05)

The patient was seen for an office visit (99202). The provider reports all measures (#108, #176, #177, #178, #179, and #180) in the RA Measures Group:

- Intent G-code (G8490) was submitted to initiate the eligible professional's submission of the RA Measures Group.
- Measure #108 (RA-DMARD Therapy) with QDC 4187F + RA line-item diagnosis (24E points to Dx 714.0 in Item 21);
- Measure #176 (RA-Tuberculosis Screening) with QDCs 3455F + 4195F + RA line-item diagnosis (24E points to Dx 714.0 in Item 21);
- Measure #177 (RA-Periodic Assessment of Disease Activity) with QDC 3471F + RA line-item diagnosis (24E points to Dx 714.0 in Item 21);

RA Measures Group Sample 1 continues on the next page.

Appendix B: Form CMS-1500 Claim [Detailed Measures Group] – Sample 1 (cont.)

If billing software limits the line items on a claim, you may add a nominal amount such as a penny to one of the QDC line items on that second claim for a total charge of \$0.01.

21. Review and determine if **ANY** diagnosis (Dx) listed in Item 21 meets the patient sample criteria for the RA measures group.

24D. Procedures, Services, or Supplies – CPT/HCPCS, Modifier(s) as needed

QDC(s) must be submitted with a line-item charge of \$0.00 or \$0.01. Charge field cannot be blank.
