

## Data Entry and Calculation Steps For the Inpatient PPS PC Pricer

If you selected 'Y' on the PC Pricer HOME screen, you will receive the following screen. Enter claim data on this screen in order to calculate an estimated claim payment. For a description of each field input, please see the descriptions below.

- **BILL PROV NUMBER** – Enter the six-digit CCN (CMS Certification Number) present on the claim.

NOTE: The National Provider Number (NPI) on the claim (if submitted by the hospital) is in this field. Please note that depending on NPI billing rules, a hospital may only submit their NPI number without their CCN number. Should this occur, you will have to contact the billing hospital to obtain their CCN number as the PC Pricer software cannot process using an NPI.

- **PATIENT ID NUMBER** – Not required, but you can enter the patient's ID number on the claim.
- **BILL ADMIT DATE** – Enter the admission date on the claim (the ADMIT date in FL 12).
- **BILL DISCHARGE DATE** – Enter the discharge date on the claim (the THROUGH date in FL 6 of the UB-04).
- **BILL DRG** – Enter the DRG for the claim. The DRG is determined by the Grouper software or may be on the UB-04 claim form in FL 71.
- **BILL CHARGES** – Enter the total covered charges on the claim.

- **COST OUTL THRES** –N/A for IHS/CHS. Enter ‘N’ (or tab) if the cost outlier threshold is not applicable for the claim. Enter ‘Y’ if you want to know the cost outlier threshold if you are trying to price an outlier claim where Medicare benefits have exhausted (i.e., occurrence code A3).
- **HMO PAID CLAIM** – N/A for IHS/CHS. Enter ‘N’ (or tab). HMOs must enter ‘Y’

When a ‘Y’ is entered in this field, and the provider is a Sole Community Hospital (SCH), the ‘MA HSP’ field will be populated. The ‘MA HSP’ field reflects the payment based on 100% Hospital Specific (HSP) rate. HMOs may compare this amount to the ‘TOT OPER AMT’ less the ‘O-HSP’ (Operating Hospital Specific Rate) amount to determine the payment amount for a SCH, that is the greater of the Federal amount or the HSP amount.

When HMO PAID CLAIM field equals ‘Y’ the Pricer shows the outlier amount if there is an outlier, and then includes that amount in the total payment. The MA plans paying out of network PPS hospitals must pay outliers. For Sole community hospitals, the outliers are paid if operating PPS (including outliers) is greater than the HSP. But unlike Medicare, for MA paying non-network SCHs, the greater of the two is paid on a claim by claim basis with no cost settlement.

When the HMO PD CLAIM field is set to ‘Y’ the following pass through payments may be included in the pass through payment field:

- Capital – for new hospitals during their first 2 years of operation
- Certified Registered Nurse Anesthetists (CRNAs) - for rural hospitals that perform fewer than 500 surgeries per year
- Nursing and Allied Health Professional Education - when conducted by a provider in an approved program

**\*\*\*Also see the “A Note on Pass through Payments in the PC Pricer” section at the end of the document. \*\*\***

- **TRANSFER** – Enter ‘Y’ if there is a Patient Status Code 02 on the claim. Otherwise, enter ‘N’ (or tab). Pricer will apply a transfer payment if the length of stay is less than the average length of stay for this DRG.
- **POST ACUTE XFER** – Applicable to FY 2013, enter ‘Y’ if one of the following Patient Status Codes is present on the claim: 03, 05, 06, 62, 63, or 65. Pricer will determine if the post-acute care transfer payment will apply depending on the length of stay and the DRG.

NOTE: There are three factors to consider, the discharge status code on the claim, the length of stay, and the MS DRG in whether the post-acute transfer policy applies. Please review our policy (See section 40.2.4 C.) at

<http://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/clm104c03.pdf>

Keep in mind that the length of stay must be less than the average length of stay for the DRG. The lists of applicable DRGs are in Table 5 each year in the Federal Register. Please see the link below for the FY 2015 list.

- **NEW TECH CARDMEM** - Enter a “Y” for cases involving CardioMEMS™ HF Monitoring System – Cases involving the CardioMEMS™ HF Monitoring System that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure code is: 02HQ30Z.  
The maximum add-on payment is \$8,875.
- **NEW TECH BLINAT** - Enter a “Y” for cases involving Blinatumomab (BLINCYTO™) that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure codes: XW03351 or XW04351.  
The maximum add-on payment for a case of Blinatumomab (BLINCYTO™) is \$ 27,017.85.
- **NEW TECH LUTONIX** - Enter a “Y” for cases involving LUTONIX® Drug Coated Balloon (DCB) Percutaneous Transluminal Angioplasty (PTA) and IN.PACT™Admiral™ Pacliaxel Coated Percutaneous Transluminal Angioplasty (PTA) Balloon Catheter that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure codes: 047K041, 047K0D1, 047K0Z1, 047K341, 047K3D1, 047K3Z1, 047K441, 047K4D1, 047K4Z1, 047L041, 047L0D1, 047L0Z1, 047L341, 047L3D1, 047L3Z1, 047L441, 047L4D1, 047L4Z1, 047M041, 047M0D1, 047M0Z1, 047M341, 047M3D1, 047M3Z1, 047M441, 047M4D1, 047M4Z1, 047N041, 047N0D1, 047N0Z1, 047N341, 047N3D1, 047N3Z1, 047N441, 047N4D1, 047N4Z1
- **NEW TECH ARGUS** - Enter a “Y” for cases involving Argus that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure codes 08H005Z or 08H105Z.  
The maximum add-on payment is \$72,028.75.
- **NEW TECH KCENTRA** - Enter a “Y” for cases involving Kcentra that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure code: 30280B1.  
DO NOT MAKE THIS NEW TECH PAYMENT IF ANY OF THE FOLLOWING DIAGNOSIS CODES ARE ON THE D66, D67, D68.1, D68.2, D68.0, D68.311, D68.312, D68.318, D68.32 and D68.4.  
The maximum add-on payment for a case of Kcentra™ is \$1,587.50.
- **NEW TECH MITRA CLP** - Enter a “Y” for cases involving the MitraClip® System that are eligible for new technology add-on payments will be identified by ICD-10-CM procedure code is: 02UG3JZ.  
The maximum add-on payment is \$15,000.
- **NEW TECH RNS SYST** - Enter a “Y” for cases involving the RNS® System that are eligible for new technology add-on payments will be identified by ICD-10-PCS procedure codes: 0NH00NZ in combination with 00H00MZ.  
The maximum add-on payment is \$18,475.
- **ISLET CELL XFER** - Enter a “Y” for Inpatient hospitals that are participating in this trial that are entitled to an add-on payment for islet isolation services. This amount is in addition to the final IPPS payment made to the hospital.  
The maximum add-on payment is \$18,848.00
- **CELL XFER UNIT 1 OR 2** – Enter “1” or “2” for the total number of islet cell infusions. A maximum of two add-ons will be paid for isolation of the islet cells should two infusions occur during the same hospital stay.

- **ENTER** - Enter 'Y' (or tab through the default value) to calculate. The following screen is an example of what will appear.  
NOTE: Some fields may have \$0.00 values depending on the inputs entered in the prior screen.
- **TOTAL AMT** – The amount of the estimated claim payment.

There are two new fields due to new payment policies for FY 2013 in the middle of the screen, "READMIT" (Readmission Reduction Program Adjustment) and "VBP" (Value Based Purchasing Adjustment) which can either add or subtract from the claim priced amount. If there is a "CR (claim reduction)" next to the field the field amount was subtracted from the claim total. If there is no "CR (claim reduction)" next to the field amount the amount was added to the claim total.

The total uncompensated care payment (UCP) amount and estimated per claim amount to be paid to the Medicare Disproportionate Share Hospitals (DSH) is finalized in the annual IPPS Final Rule. The UCP will be paid on the claim, as an estimated per discharge amount to the hospitals that have been projected to receive Medicare DSH adjustments. UCP eligibility and payment information is included in the DSH data files for each fiscal year, which may be accessed by navigating to the “Downloads” section on the webpage at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS/dsh.html>.

The estimated per claim amount is determined by dividing the total UCP amount by the average number of claims from the most recent three years of claims data. The estimated per discharge UCP amount will be included in the outlier payment determinations, and will be included as a federal payment in the comparison for Sole Community Hospitals to determine if a claim is paid under the hospital specific rate or federal rate. The total UCP amount finalized in the IPPS Final Rule will be reconciled at cost report settlement with the interim estimated UCP amounts that are paid on a per discharge basis.

Beginning in FY 2014, the UCP estimated per claim amount has been included in the PC Pricer and uses the same information that appears in the DSH Supplemental Data File. In the PC Pricer, when “Y” is entered in the HMO PAID CLAIM field (denoting that the payer is a Medicare Advantage (MA) organization), the UCP estimated per claim amount from the DSH Supplemental File will appear in the Pricer’s estimated claim payment calculation in the field labeled “UNCOM CARE”.

### **A Note on Pass Through Payments in the Inpatient PPS PC Pricer:**

There are certain hospital costs that are excluded from the IPPS payment and are paid on a reasonable cost basis. These are known as pass-throughs and they are as follows:

- DGME
- Capital for the first 2 years of a new hospital (generally 85% of Medicare allowed capital costs)
- Organ acquisition costs (excludes bone marrow transplants)
- CRNA's- for small rural hospitals
- Nursing and allied health education costs

Pass-through payments under Medicare FFS are usually paid on a bi-weekly interim basis based upon cost determined via the cost report (or data received prior to cost report filing.) Pass-through payments are computed on the cost report based upon Medicare utilization (per diem cost for the routine and ancillary cost/charge ratios.) In order for the PC Pricer user to estimate what the pass-through payments are, it uses the pass-through per diem fields that are outlined in the provider specific file.

It is important to note that Medicare Advantage plans are not required to pay certain pass-through payments because the hospital is already being reimbursed for them through bi-weekly payments or through the cost report (as stated above) by their Medicare FFS contractor.

Therefore, for PC Pricer purposes, when a 'Y' is entered in the HMO PAID CLAIM field, organ acquisition and graduate medical education costs are omitted. The PASS THRU AMT is calculated by converting the PASS THRU AMT to a per diem and multiplying it by the number of days for the stay.

A plan may refer to the MA Payment Guide for Out of Network payments by accessing the following link for additional information.
