Physician Quality Reporting Initiative (PQRI) Feedback Reports

Purpose

The Physician Quality Reporting Initiative (PQRI) Feedback Report User Guide is designed to assist eligible professionals and their authorized users with accessing and interpreting the 2010 PQRI feedback reports. The 2010 PQRI incentive payment will occur in September-October 2011. The 2010 PQRI feedback reports reflect data from the Medicare Part B claims received for the dates of service January 1, 2010 – December 31, 2010 that were processed into the National Claims History (NCH) by February 25, 2011. In 2011, PQRI became the Physician Quality Reporting System. However, for the purpose of this guide for 2010 we will refer to the program as PQRI.

PQRI Program Overview

The 2006 Tax Relief and Health Care Act (TRHCA) authorized a physician quality reporting system, including an incentive payment for eligible professionals who satisfactorily reported data on quality measures for Medicare Part B Physician Fee Schedule (PFS) covered professional services furnished to Medicare Fee-for-Service beneficiaries during the second half of 2007. CMS named this program the Physician Quality Reporting Incentive (PQRI).

The PQRI was further modified as a result of The Medicare, Medicaid, and SCHIP Extension Act (MMSEA) and the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA). MMSEA authorized CMS to establish two alternative reporting periods, the reporting of measures groups, and to allow submission of data on PQRI quality measures through clinical data registries. For each program year, CMS implements PQRI through an annual rulemaking process published in the *Federal Register*. The program has expanded the number of measures and reporting options over time to facilitate quality reporting by a broad array of eligible professionals.

The 2010 PQRI continued as a pay-for-reporting program that included claims-, registry-, electronic health record (EHR)-, and Group Practice Reporting Option (GPRO)-based reporting of data on 175 individual quality measures as well as 13 measures groups. The two alternative reporting periods for this program year were: January 1, 2010 – December 31, 2010 and July 1, 2010 – December 31, 2010. There were 12 options for satisfactorily reporting quality measures data for the 2010 PQRI that differed based on the reporting period, the reporting option (individual measures or measures groups), and the selected data collection method (claims, qualified registry, qualified EHR, or GPRO).

Beginning with the 2010 PQRI, group practices that satisfactorily submitted data on quality measures could qualify to earn a PQRI incentive payment if it was determined that the group practice satisfactorily reported data on PQRI quality measures. This incentive payment is equal to two percent of the group practice's total estimated Medicare Part B Physician Fee Schedule (PFS) allowed charges processed no later than two months after the end of the applicable 2010 reporting period. Previously, the determination of satisfactory reporting and calculation of the incentive payment amount was made only at the individual eligible professional level. GPROs consist of a single Tax Identification Number (TIN) with 200 or more individual eligible professionals or individual National Provider Identifiers (NPIs). Group practices must go through a self-nomination process and meet the requirements for participating in the 2010 PQRI GPRO.

For more information on the 2010 PQRI, please visit the PQRI section of the CMS website at <http://www.cms.gov/PQRS>.

Report Overview

The 2010 PQRI feedback reports are packaged at the Taxpayer Identification Number (Tax ID Number, or TIN) level, with individual-level reporting (by National Provider Identifier or NPI level) and performance information for each eligible professional who reported at least one valid PQRI quality-data code (QDC) on a claim submitted under that TIN for services furnished during the reporting period. GPRO participants will not have reporting or performance data at the eligible professional level, only the TIN level. Reports include information on reporting rates, clinical performance, and incentives earned by individual professionals, with summary information on reporting success and incentives earned at the practice (TIN) level. Reports for individual measures via claims also include information on the measure-applicability validation (MAV) process and any impact it may have had on the eligible professional's incentive eligibility. For more information about MAV, go to <http://www.cms.gov/PQRS>.

The 2010 PQRI included five claims-based reporting methods, five registry-based reporting methods, GPRO reporting, and EHR reporting. All Medicare Part B claims submitted with PQRI QDCs, all registry data, all EHR data, and all GPRO data received for services furnished from January 1, 2010 – December 31, 2010 (for the 12-month reporting period) and for services furnished from July 1, 2010 – December 31, 2010 (for the 6-month reporting period) were analyzed to determine whether the eligible professional earned a PQRI incentive payment. Each TIN/NPI had the opportunity to participate in PQRI via multiple reporting methods. Participation is defined as eligible professionals submitting at least one valid QDC via claims or submitting data via a qualified registry, qualified EHR, or GPRO. Valid submissions are where a QDC was submitted and all measure-eligibility criteria were met (i.e., correct age, gender, diagnosis, and CPT). For those NPIs satisfactorily reporting using multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive.

- Eligible professionals who participated in the 2010 eRx Incentive Program as an individual NPI solo proprietor (submitted claims under a SSN) will be able to access their individual reports by three methods: 1) TIN/SSN level report via the Portal (will show only their data) at <http://www.qualitynet.org/PQRI>, or 2) NPI-level report via their Part B Carrier/MAC (will receive NPI report via email that also shows only their data), or 3) a web-based support page (when available, additional information on this new request method will be provided through the usual CMS communication channels).
- Eligible professionals who participated in the 2010 eRx Incentive Program as an individual NPI under a Tax ID practice (assigned benefits to a TIN) will be able to access their individual reports by three methods: 1) TIN-level report via the Portal (will show Table 1 TIN summary as well as all of the NPI-level reports for that TIN), or 2) NPI-level report via their Part B Carrier/MAC (will receive NPI report via email that shows only the data of that one NPI), or 3) another web-based support page (when available, additional information on this new request method will be provided through the usual CMS communication channels).
- Eligible professionals who participated in the 2010 eRx Incentive Program under the GPRO will receive TIN-level based reports through the Portal. Eligible professionals under the GPRO who reported at least one valid eRx QDC on a claim, or eRx data through a qualified registry or EHR system will have available to them a feedback report for each TIN under which they submitted services furnished during the reporting period.

CMS aims to distribute feedback reports as closely as possible to the incentive payment timeframe. 2010 PQRI feedback reports will be distributed in approximately September-October 2011. For more information on that process, see: <http://www.cms.gov/MLNMArticles/downloads/SE0922.pdf>.

Note: These reports may contain a partial or "masked" Social Security Number/Social Security Account Number (SSN/SSAN) as part of the TIN field. Care should be taken in the handling and disposition of these reports to protect the privacy of the individual practitioner with whom the SSN is potentially associated. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

System Requirements

Minimum hardware and software requirements to effectively access and view the PQRI feedback reports are listed below.

Hardware

- 166 MHZ Pentium processor with a minimum of 125 MB free disk space
- 32 MB Ram

Software

- Microsoft® Internet Explorer version 7.0
- Adobe® Acrobat® Reader version 5.0 and above
- JRE 6 or higher
- Windows XP operating system
- WinZip version 7.0 or greater (or compatible zip programs using default compression settings) for Zip file creation to upload data

Internet Connection

- The Physician Quality Reporting System Submission Portlet will be accessible via any Internet connection running on a minimum of 33.6k or high-speed Internet.

Participant Feedback Report Content and Appearance

Four tables may be included in the 2010 PQRI feedback reports. PQRI feedback reports will be generated for each TIN with at least one eligible professional reporting a QDC. Participants reporting via claims will receive Tables 1-4; via registry will receive Tables 1, 2, and 4; via EHR will receive Tables 1, 2, and 4; and via GPRO will receive Tables 1 and 4. The TIN-level feedback report is only accessible by the TIN. It is up to the TIN to distribute the information in Tables 2-4 to the individual NPI. The length of the feedback report will depend on the number of TIN/NPIs participating in PQRI. For TIN/NPIs reporting via multiple reporting methods, the feedback report will display each reporting method. A total incentive payment amount will be calculated for all TIN/NPIs. A breakdown of each individual NPI and their earned incentive amount will also be included.

Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)

Each TIN will receive only one report.

- **Total Tax ID Earned Amount for NPIs:** The total incentive amount earned by the Tax ID. The actual incentive payment may vary slightly from this amount due to rounding.
- **NPI Total Earned Incentive Amount:** The 2.0% incentive amount earned for each TIN/NPI. TIN reporting thru GPRO will not receive information by NPI. This field will display "N/A" if the eligible professional is not incentive eligible or \$0 if the NPI is incentive eligible but does not have any Part B allowed charges.

For definition of terms related to 2010 PQRI feedback reports, see **Appendix A**. Also refer to the footnotes within each table for additional content detail.

Examples of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID) in this *Guide* include:

- *Figure 1.1 Screenshot of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)*
- *Figure 1.2 Screenshot of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID – GPRO (pass))*
- *Figure 1.3 Screenshot of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID – GPRO (fail))*

Example 1.1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The methods reported and amounts earned for each TIN/NPI are summarized below. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)
Sorted by NPI Number and sub-sorted by Earned Incentive Yes/No

Tax ID Name: John Q. Public Clinic
Tax ID Number: XXXXX6789

Distribution of Total Incentive Earned Among Carriers/MACs That Processed Payments		
Carrier/MAC Identification #	Proportion of Incentive per Carrier/MAC	Tax ID Earned Incentive Amount Under Carrier/MAC
12345	90.0%	\$20,544.00
67890	10.0%	\$2,282.67

Total Tax ID Earned Incentive Amount for NPIs (listed below):

\$22,826.67

NPIs that did not earn an incentive will still appear in the report along with the reason they were not incentive eligible.

NPI	NPI Name	Incentive Eligible*				Total # Measures Submitted^	Total # Measures Denominator Eligible..	Total # Measures Satisfactorily Reported:	Total Estimated Allowed Medicare Part B PFS Charges	NPI Total Earned Incentive Amount*

^aName identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

^bThe percentage of the total incentive amount earned by the TIN/NPI combinations, split across Carrier/MACs based on the proportionate split of the Tax ID's total estimated allowed Medicare Part B Physician Fee Schedule (PFS) charges billed across the Carrier/MACs. (100% of incentive will be distributed by a single Carrier/MAC if a single Carrier/MAC processed all claims within the reporting period for the TIN/NPI.)

^cAn NPI satisfactorily reporting at least one claims-based reporting method or at least one registry-based reporting method and passing the applicable validation process is eligible to receive a PQRI incentive.

^dThe number of measures where quality-data codes (QDCs) or quality action data are submitted, but are not necessarily valid. Only valid submissions count towards reporting success. If the reporting method is through measures groups, this field will be populated with "N/A".

^eThe number of measures for which the TIN/NPI reported at least one valid quality-data code (QDC) or quality action data. If the reporting method is through measures groups, this field will be populated with "N/A".

^fThe total number of measures the TIN/NPI reported at a satisfactory rate; satisfactory rate is for $\geq 80\%$ of instances. If the reporting method is through measures groups, this field will be populated with "N/A".

^gThe total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period. The PFS claims included were based on the six or twelve month reporting period for the method by which the NPI was incentive eligible.

^hThe amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges for services performed within the length of the reporting period for which a TIN/NPI was eligible. If N/A, the NPI was not eligible to receive an incentive.

Note: The registry information is based on data calculated and supplied by the 2010 PQRI participating registries.

Note: The PQRI incentive payments are subject to offsets. Payments are made to the first NPI associated with the TIN. If the first NPI associated with the TIN has an offset, Carrier/MACs will apply the lump sum and/or sanction.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

Total 2% incentive earned by the TIN for all participating NPIs

Figure 1.1 Screenshot of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)

Example 1.2: Earned Incentive Summary for Taxpayer Identification Number (Tax ID) – GPRO (Pass)

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The GPRO tool results reported and amount earned for the TIN are summarized below. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID) - GPRO
Sorted by DM/PCM

Tax ID Name: John Q. Jr. Public Clinic
Tax ID Number: XXXXX1234

Total incentive amount earned for the GPRO (TIN)

Total Tax ID Earned Incentive Amount*	Total Estimated Allowed Medicare Part B PFS Charges†	Distribution of Total Incentive Earned Among Carriers/MACs That Processed Payments		
		Carrier/MAC Identification #	Proportion of Incentive per Carrier/MAC %	Tax ID Earned Incentive Amount Under Carrier/MAC
\$92,425.67	\$4,621,283.50	12345	90.0%	\$83,183.10
		67890	10.0%	\$9,242.57

Total incentive amount earned for GPRO under each Carrier/MAC

Disease Module/Preventive Care Measure (DM/PCM)	Incentive Eligible‡	
	Yes/No	Rationale
Coronary Artery Disease	Yes	Met reporting requirements for consecutively completed cases
Diabetes Mellitus	Yes	Met reporting requirements for consecutively completed cases
Heart Failure	Yes	Met reporting requirements for consecutively completed cases
Hypertension	Yes	Met reporting requirements for consecutively completed cases
Preventive Care and Screening: Colorectal Cancer Screening	Yes	Met reporting requirements for consecutively completed cases
Preventive Care and Screening: Influenza Immunization for Patients ≥ 50 Years Old	Yes	Met reporting requirements for consecutively completed cases
Preventive Care and Screening: Pneumonia Vaccination for Patients 65 Years and Older	Yes	Met reporting requirements for consecutively completed cases
Preventive Care and Screening: Screening Mammography	Yes	Met reporting requirements for consecutively completed cases

Incentive Eligible column shows whether the GPRO met reporting requirements for each disease module -- in this example, the GPRO met all reporting requirements for consecutively completed cases

Page 1 of 2

Example 1.2 continued

*Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

†The amount of Medicare Part B PFS charges for services performed within the length of the reporting period for which a TIN was eligible. If N/A, the TIN was not eligible to receive a PQRI incentive payment.

‡The total estimated Medicare Part B PFS charges associated with services rendered during the reporting period.

§The percentage of the total incentive amount earned by the TIN, split across Carrier/MACs based on the proportionate split of the Tax ID's total estimated allowed Medicare Part B Physician Fee Schedule (PFS) charges billed across the Carrier/MACs. (100% of incentive will be distributed by a single Carrier/MAC if a single Carrier/MAC processed all claims within the reporting period for the Tax ID).

¶A TIN satisfactorily reporting on all selected beneficiaries for each disease module and preventive measure and passing the applicable validation process is eligible to receive a PQRI incentive. More information regarding the incentive calculations is available on the CMS website.

Note: The PQRI incentive payments are subject to offsets. Payments are made to the first NPI associated with the TIN. If the first NPI associated with the TIN has an offset, Carrier/MACs will apply the lump sum and/or sanction.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

Figure 1.3 Screenshot of Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID) – GPRO (Fail)

Table 2: NPI Reporting Detail

Each TIN/NPI who submitted via claims, registry, or EHR for Medicare Part B Physician Fee Schedule (PFS) covered professional services for which one or more PQRI quality measure applied will receive Table 2. This report reflects 1) the Participation Summary, 2) PQRI Incentive Detail listing the NPI's total earned incentive amount, and 3) a PQRI Reporting Detail listing the individual NPI's reporting rate for each measure.

- **Total # Measures Denominator Eligible:** The number of measures for which a TIN/NPI reported a valid quality-data code (QDC).
- **Total # Measures Satisfactorily Reported:** The total number of measures the TIN/NPI reported at a satisfactory rate; satisfactory rate is reporting on 80% or more of eligible instances.
- **Reporting Rate:** The TIN/NPI's reporting rate is calculated by finding the quotient of the number of numerator-eligible reporting instances divided by the number of denominator-eligible instances.
- **Total Estimated Allowed Medicare Part B PFS Charges:** The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) allowed charges associated with covered professional services rendered during the reporting period. The PFS claims included were based on the reporting period for the method by which the NPI was incentive eligible.
- **NPI Total Earned Incentive Amount:** The 2.0% incentive for each incentive-eligible professional's TIN/NPI. This field will display "N/A" if the eligible professional is not incentive eligible.

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TINNPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TINNPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include: a Participation Summary table listing all of the individual NPIs reporting methods attempted, an Incentive Detail table listing the NPIs total earned incentive amount for the reported method, and a Reporting Detail table listing all of the measures reported by the individual NPIs with the reporting rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 2: NPI Reporting Detail – Individual Measure(s) Reporting via Registry for 12 Months
Sorted by Reporting Rate

Tax ID Name: John Q. Public Clinic
Tax ID Number: XXXXX6789
NPI Number: 1000000003

This column displays all methods by which the NPI reported, whether satisfactorily or not

Participation Summary				
All Methods Reported	Reporting Period	Registry/EHR Associated	Qualifies for Incentive	Reporting Method Period Used for Incentive
Individual measure(s) reporting via registry	12 months	ACC	Yes	Yes
Measures Groups - 80% beneficiaries via registry	12 months	SYS	Yes	No

If the reporting method is through a registry, the registry name will be populated; if not, it will say "N/A"

#35	Stroke and Stroke Rehabilitation: Screening for Dysphagia	Episode	450	382	85%
#36	Stroke and Stroke Rehabilitation: Consideration of Rehabilitation Services	Episode	410	336	82%
#32	Stroke and Stroke Rehabilitation: Discharged on Antiplatelet Therapy	Episode	375	270	72%

The Rationale indicates the reason an NPI was or was not incentive eligible

*Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

†The method/period of reporting deemed most advantageous will be indicated with a "Yes". If the NPI did not qualify for incentive through any reporting methods/periods, the reporting method/period that was most advantageous would be populated with N/A.

‡An NPI satisfactorily reporting any method and passing the applicable validation process is eligible to receive a PQRI incentive. More information regarding the incentive calculations is available on the CMS website.

*The number of measures where quality data codes (QDCs) or quality action data are submitted, but are not necessarily valid. These instances do not count towards reporting success.

†The total number of measures the TINNPI reported at a satisfactory rate; satisfactory rate is for a 80% of instances.

‡The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period. The PFS claims included were based on the six or twelve month reporting period for the method by which the NPI was incentive eligible.

*The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges processed within the length of the longest reporting period satisfied by the eligible professional.

†The analytic category for each measure that determines how the measure will be calculated for PQRI. Measure tags can be found in the PQRI Feedback Report User Guide and the PQRI Implementation Guide.

‡The number of instances the TINNPI was eligible to report the measure.

§The number of reporting instances where the quality data codes (QDCs) or quality action data submitted met this measure specific reporting criteria.

*A satisfactorily-reported measure has a reporting rate of 80% or greater.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner. This SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

♦Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive. More information regarding the incentive calculations is available on the CMS website. ♦♦The method/period of reporting deemed most advantageous will be indicated with a ♦. If multiple methods/periods are reported, the reporting method/period that was most advantageous would be populated with N/A.

Reports may be longer than one page; Footnotes are included with each table

♦An NPI satisfactorily reporting any method and passing the applicable validation process is eligible to receive a PQRI incentive. More information regarding the incentive calculations is available on the CMS website.
 ♦The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period. The PFS claims included were based on the six or twelve month reporting period for the method by which the NPI was incentive eligible.
 ♦The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges processed within the length of the longest reporting period satisfied by the eligible professional.
 ▶ Each measure within the measures group is analyzed as specified in the 2010 PQRI Measures Groups Specifications Manual located on the CMS PQRI website.
 ▶▶ This count is for all measures reported within the measures group.
 ♦The # of reporting instances meeting the common denominator inclusion criteria for the measures group.
 ♦♦The # of reporting instances for which this TIN/NPI submitted all quality-data code(s) (QDCs) or quality action data corresponding with all applicable measures within the measures group or submitted the composite G-code for the measures group. For each measure within the measures group, this indicates the # of reporting instances for which this TIN/NPI submitted one or more QDCs or quality actions corresponding with the applicable measure within the measures group.
 ♦The number of instances where reporting was not met due to insufficient quality-data code (QDC) information/numerator coding not complete for the measure from the TIN/NPI combination (e.g. two numerator codes are necessary for the measure, only one was submitted; inappropriate CPT II modifier submitted for the measure). This column will be populated with N/A for the Measures Group Title line.
 ♦The number of instances where reporting was not met due to no quality-data code (QDC) information/numerator coding existing for the measure from the TIN/NPI combination. This column will be populated with N/A for the Measures Group Title line.
 **The reporting rate for the measures group where all applicable QDCs or quality action data for all applicable measures within the measures group is reported for an eligible reporting instance which is used to determine incentive eligibility. The reporting rate for the measure where a QDC or quality action for the measure is reported for applicable cases.

Note: Due to measures group calculations, the overall measures groups reporting rate will not be an average of the individual measure's reporting rates.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

#119	Urine Screening for Microalbumin or Medical Attention for Nephropathy in Diabetic Patients	211	211
#163	Foot Exam	229	211

The NPI also satisfactorily reported all of the measures within this measures group for at least 30 eligible Medicare patients

αName identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

ββThe method/period of reporting deemed most advantageous will be indicated with a "Yes". If the NPI did not qualify for incentive through any reporting methods/periods, the reporting method/period that was most advantageous would be populated with N/A.

•An NPI satisfactorily reporting any method and passing the applicable validation process is eligible to receive a PQRI incentive. More information regarding the incentive calculations is available on the CMS website.
 □The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period. The PFS claims included were based on the six or twelve month reporting period for the method by which the NPI was incentive eligible.

*The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges processed within the length of the longest reporting period satisfied by the eligible professional.

▶ Each measure within the measures group is analyzed as specified in the 2010 PQRI Measures Groups Specifications Manual located on the CMS PQRI website.

▶▶ This count is for all measures reported within the measures group.

♦The # of reporting instances meeting the common denominator inclusion criteria for the measures group.

βThe # of reporting instances for which this TIN/NPI submitted all quality-data code(s) (QDCs) or quality action data corresponding with all applicable measures within the measures group or submitted the composite G-code for the measures group. For each measure within the measures group, this indicates the # of reporting instances for which this TIN/NPI submitted one or more QDCs or quality actions corresponding with the applicable measure within the measures group. A satisfactorily-reported measures group for 30 patients has a reporting numerator of at least 30.

Note: Due to measures group calculations, the overall measures groups reporting rate will not be an average of the individual measure's reporting rates.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Example 2.8: NPI Reporting Detail – Measures Groups: 80% Beneficiaries via Claims for 12 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include: a Participation Summary table listing all of the individual NPI's reporting methods attempted, an Incentive Detail table listing the NPI's total earned incentive amount for the reported method, and a Reporting Detail table listing all of the measures reported by the individual NPI's with the reporting rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 2: NPI Reporting Detail - Measures Groups: 80% Beneficiaries via Claims for 12 Months
Sorted by Reporting Rate of Measures Group and Sub-Sorted by Measure #

Tax ID Name: John Q. Public Clinic
Tax ID Number: XXXXX6789
NPI Number: 1000000008

The NPI reported using two different methods, and qualified for the incentive through each of the two methods. If the NPI achieved satisfactory reporting under more than one 2010 PQRI reporting method, (s)he will receive the incentive payment for the most advantageous reporting period for which (s)he qualified (in this case, 12 months)

Participation Summary				
All Methods Reported	Reporting Period	Registry/ EHR Associated	Qualified for Incentive	Reporting Method/Period Used for Incentive

+Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.
 ♦♦The method/period of reporting deemed most advantageous will be indicated with a "Yes". If the NPI did not qualify for incentive through any reporting methods/periods, the reporting method/period that was most advantageous would be populated with N/A.

•An NPI satisfactorily reporting any method and passing the applicable validation process is eligible to receive a PQRI incentive. More information regarding the incentive is available at www.cms.gov/pqri.
 □The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period. The PFS claims are reported for the method by which the NPI was incentive eligible.
 *The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges processed within the length of the longest reporting period satisfied.
 ▶ Each measure within the measures group is analyzed as specified in the 2010 PQRI Measures Groups Specifications Manual located on the CMS PQRI website.
 ▶▶ This count is for all measures reported within the measures group.
 ♦The # of reporting instances meeting the common denominator inclusion criteria for the measures group.
 ♦♦The # of reporting instances for which this TIN/NPI submitted all quality-data code(s) (QDCs) or quality action data corresponding with all applicable measures within the measures group. For each measure within the measures group, this indicates the # of reporting instances for which this TIN/NPI submitted one or more applicable measure within the measures group.
 ♦The number of instances where reporting was not met due to insufficient quality-data code (QDC) information/numerator coding not complete for the measure from the TIN/NPI combination (e.g. two numerator codes are necessary for the measure, only one was submitted; inappropriate CPT II modifier submitted for the measure). This column will be populated with N/A for the Measures Group Title line.
 ♦The number of instances where reporting was not met due to no quality-data code (QDC) information/numerator coding existing for the measure from the TIN/NPI combination. This column will be populated with N/A for the Measures Group Title line.
 **The reporting rate for the measures group where all applicable QDCs or quality action data for all applicable measures within the measures group is reported for an eligible reporting instance which is used to determine incentive eligibility. The reporting rate for the measure where a QDC or quality action for the measure is reported for applicable cases.

Note: Due to measures group calculations, the overall measures groups reporting rate will not be an average of the individual measure's reporting rates.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Insufficient quality-data codes refers to instances where two numerator codes are necessary for the measure but only one was submitted or an inappropriate CPT II modifier was submitted

♦Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC system, the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment.

♦♦The method/period of reporting deemed most advantageous will be indicated with a "Yes". If the NPI did not qualify for incentive through any reporting method/period that was most advantageous would be populated with N/A.

♦An NPI satisfactorily reporting any method and passing the applicable validation process is eligible to receive a PQRI incentive. More information is available on the CMS website.

□The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) charges associated with services rendered during the reporting period for the six or twelve month reporting period for the method by which the NPI was incentive eligible.

*The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges processed within the length of the longest reporting period satisfied by the eligible professional.

▶ Each measure within the measures group is analyzed as specified in the 2010 PQRI Measures Groups Specifications Manual located on the CMS PQRI website.

▶▶ This count is for all measures reported within the measures group.

♦The # of reporting instances meeting the common denominator inclusion criteria for the measures group.

♦♦The # of reporting instances for which this TIN/NPI submitted all quality-data code(s) (QDCs) or quality action data corresponding with all applicable measures within the measures group or submitted the composite G-code for the measures group. For each measure within the measures group, this indicates the # of reporting instances for which this TIN/NPI submitted one or more QDCs or quality actions corresponding with the applicable measure within the measures group.

**The reporting rate for the measures group where all applicable QDCs or quality action data for all applicable measures within the measures group is reported for an eligible reporting instance which is used to determine incentive eligibility. The reporting rate for the measure where a QDC or quality action for the measure is reported for applicable cases.

Note: Due to measures group calculations, the overall measures groups reporting rate will not be an average of the individual measure's reporting rates.

All measures groups submitted under the reporting method will be displayed, along with all the individual measures within each measures group.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Figure 2.11 Screenshot of Table 2: NPI Reporting Detail – Measures Groups: 80% Beneficiaries via Registry for 6 Months

Table 3: NPI QDC Submission Error Detail

For the 2010 PQRI, only NPIs who participated through claims-based measure reporting with QDC submission errors will receive Table 3. This will only apply to eligible professionals who submitted at least one insufficient QDC. There is one NPI detail report for each TIN/NPI participating in PQRI.

- **QDC Exceptions (Denominator Mismatches):**

- **Only Incorrect CPT:** Number of invalid QDC submissions resulting from an incorrect CPT code.
- **Only QDC on Claim (no CPT/HCPCS):** Number of invalid QDC submissions due to a missing qualifying denominator code since all lines were QDCs.

For definition of terms related to 2010 PQRI feedback reports, see **Appendix A**. Also refer to the footnotes within each table for additional content detail.

Examples of Table 3: NPI QDC Submission Error Detail in this *Guide* include:

- *Figure 3.1 Screenshot of Table 3: NPI QDC Submission Error Detail (12 months)*
- *Figure 3.2 Screenshot of Table 3: TIN QDC Submission Error Detail (6 months)*

Example 3.1: NPI QDC Submission Error Detail (12 months)

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/PI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) use the PQRI system to submit data using the GPRO tool. All Medicare Part B claims submitted and all data for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group is reporting under the aforementioned methods. A submission is considered valid if quality data is submitted at the TIN/PI level via multiple reporting methods, the method associated with the most advantageous submission order results for individual measures via claims are below. More information regarding the PQRI program is available at www.cms.gov/pqri.

Table 3: NPI QDC Submission Error Detail
Sorted by Measure

Incorrect CPT, Incorrect DX, Incorrect CPT and DX, Only QDC on Claim, and Only QDC and Incorrect DX are all mutually exclusive. If there is an incorrect CPT code and also an incorrect diagnosis, it will only fall into the "Both Incorrect CPT and DX" cell for that measure and will not fall into the other two cells.

Tax ID Name: John Q. Public Clinic
NPI Name: Doe, John
NPI Number: 1000000012

Method of Reporting: Individual measure(s) reporting via claims for 12 months

Denominator mismatches are shown in the QDC Exceptions column

QDC Submission Error Detail												
Measure #	Measure Title	Measure Tag	QDC Occurrences			QDC Exceptions (Denominator Mismatches)						
			Actual # Reported	Reporting Numerator: Valid QDCs Reported	% of Valid QDCs Accepted	Gender	Age	Only Incorrect CPT	Only Incorrect DX	Both Incorrect CPT and DX	Only QDC on Claim (no CPT/HCPCS)	Only QDC and Incorrect DX
#32	Stroke and Stroke Rehabilitation: Discharged on Antiplatelet Therapy	Episode	99	74	74.7%	0	0	13	5	4	1	2
#36	Stroke and Stroke Rehabilitation: Consideration of Rehabilitation Services	Episode	54	45	83.3%	0	0	5	2	0	2	0
#51	Chronic Obstructive Pulmonary Disease (COPD): Spirometry Evaluation	Patient-Process	210	180	85.7%	0	0	21	2	7	0	0
#52	Chronic Obstructive Pulmonary Disease (COPD): Bronchodilator Therapy	Patient-Process	410	400	97.6%	0	0	3	7	0	0	0
#53	Asthma: Pharmacologic Therapy	Patient-Process	50	0	0.0%	0	25	12	32	4	2	0
#64	Asthma Assessment	Patient-Process	25	0	0.0%	0	15	14	2	8	0	0

*Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2019 PQRI incentive payment, only the system's ability to populate this field in the report.

The analytic categories each measure that determines how the measure will be calculated:

- Number of quality-data code (QDC) submissions for a measure whether or not the QDC is valid
- Number of valid and appropriate quality-data code (QDC) submissions for a measure.
- The percentage of reported quality-data codes (QDCs) that were valid.
- Number of invalid quality-data code (QDC) submissions resulting from a combination of
 - Number of invalid quality-data code (QDC) submissions due to a missing qualifying denominator
 - Number of invalid QDC submissions due to a missing qualifying denominator code since

NPIs will only receive this table if they had QDC submission errors when reporting the PQRI measure (or a percentage of valid QDCs accepted that was less than 100%)

Note: A QDC submission attempt may be counted for age, gender, and one of the following: incorrect DX (i.e., a submission attempt may be counted for age, gender, and incorrect DX).

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The individual NPI's quality-data code (QDC) submission error results for individual measures via claims are below. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 3: NPI QDC Submission Error Detail
Sorted by Measure

Incorrect CPT, Incorrect DX, Incorrect CPT and DX, Only QDC on Claim, and Only QDC and Incorrect DX are all mutually exclusive. If there is an incorrect CPT code and also an incorrect diagnosis, it will only fall into the "Both Incorrect CPT and DX" cell for that measure and will not fall into the other two cells.

Tax ID Name: John Q. Public Clinic

NPI Name: Doe, Jane

NPI Number: 1000000015

Method of Reporting: Individual measure(s) reporting via claims for 6 months

No qualifying CPT and diagnosis code on claim

QDC Submission Error Detail												
Measure #	Measure Title	Measure Tag	QDC Occurrences			QDC Exceptions (Denominator Mismatches)						
			Actual # Reported	Reporting Numerator: Valid QDCs Reported	% of Valid QDCs Accepted	Gender	Age	Only Incorrect CPT	Only Incorrect DX	Both Incorrect CPT and DX	Only QDC on Claim (no CPT/HCPCS)	Only QDC and Incorrect DX

Figure 3.2 Screenshot of Table 3: TIN QDC Submission Error Detail (6 months)

Table 4: NPI Performance Detail

Each TIN/NPI will receive Table 4 if they participated in the 2010 PQRI through any reporting method. **Note: This information is provided for informational and performance improvement purposes. Performance rates do not affect the incentive payment for the 2010 PQRI.**

- **Clinical Performance Rate:** The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If 'NULL', all of the measure's performance eligible instances were performance exclusions.
- **Clinical Performance Not Met:** Includes instances where a CPT II code with an 8P modifier or G-code is used to indicate the quality action was not provided for a reason not otherwise specified.
- **Clinical Performance Denominator:** The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator eligible reporting instances (Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met). Valid reasons for exclusions may apply and are specific to each measure. The 2010 PQRI Quality Measures Specifications document is available on the CMS PQRI website.
- **Clinical Performance Numerator Met:** The number of instances the TIN/NPI submitted the appropriate QDCs or quality action data satisfactorily meeting the performance requirements for the measure.
- **Reporting Numerator:** The number of reporting instances where the QDCs or quality action data submitted met the measure specific reporting criteria. (Reporting Numerator = 1P + 2P + 3P + Other + Clinical Performance Denominator).

For definition of terms related to 2010 PQRI feedback reports, see **Appendix A**. Also refer to the footnotes within each table for additional content detail. Only individuals (within the TIN) submitting valid QDCs will have detailed reports generated for them.

Example 4.1: NPI Performance Detail – Individual Measure(s) Reporting via Claims for 12 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the individual NPIs with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 4: NPI Performance Detail - Individual Measure(s) Reporting via Claims for 12 Months

Sorted by Clinical Performance Rate and Sub-Sorted by Reporting Numerator

Reporting Numerator = 1P + 2P + 3P + Other + Clinical Performance Denominator
Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met

Tax ID Name: John Q. Public Clinic

NPI Name: Doe, John

NPI Number: 1000000012

Method of Reporting: Individual measure(s) via claims for 12 months

The National Comparison for Performance includes performance information for all TIN/NPI combinations submitting at least one quality-data code (QDC) for the measure

Performance Information														
Measure #	Measure Title	Reporting Numerator: Valid QDCs Reported ¹	Eligible Instances Excluded				Clinical Performance Numerator Met ²	Clinical Performance Not Met ²	Clinical Performance Rate ^{3,4}	National Comparison for Performance ^{5,6}				
			Medical (1P)	Patient (2P)	System (3P)	Other ⁷				National Mean Performance Rate ⁵	25th Percentile	50th Percentile	75th Percentile	
#51	Chronic Obstructive Pulmonary Disease (COPD): Spirometry Evaluation	180	53	15	12	0	100	80	20	80%	50%	23%	51%	84%
#36	Stroke and Stroke Rehabilitation: Consideration of Rehabilitation Services	42	6	4	0	0	32	18	14	56%	82%	74%	81%	91%
#52	Chronic Obstructive Pulmonary Disease (COPD): Bronchodilator Therapy	400	7	3	1	14	375	175	190	47%	33%	0%	34%	72%
#32	Stroke and Stroke Rehabilitation: Discharged on Antiplatelet Therapy	74	72	2	0	0	0	0	0	NULL	52%	34%	53%	95%

¹Name identified by matching the identifier number in the CMS national Provider Enrollment, Chain, and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as the organization or professional's enrollment status or eligibility for a 2010 PQRI incentive payment.

²The number of reporting instances where the quality-data codes (QDCs) on the claim are valid.

³Includes instances where an 8P modifier, G-code or CPT II code is used to indicate the quality action was not provided for a reason not otherwise specified.

⁴The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator-eligible reporting instances.

⁵The number of instances the TIN/NPI submitted the appropriate quality-data code for the measure.

⁶Includes instances where an 8P modifier, G-code or CPT II code is used to indicate the quality action was not provided for a reason not otherwise specified.

⁷The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If 'NULL', all of the measure's performance eligible instances were performance exclusions.

⁸The National Comparison for Performance includes performance information for all TIN/NPI combinations submitting at least one quality-data code (QDC) for the measure. The 25th percentile indicates that 25% of the TIN/NPI combinations participating nationally are performing at or below this rate, the 50th percentile indicates that 50% of the TIN/NPI combinations participating nationally are performing at or below this rate, and the 75th percentile indicates that 75% of the TIN/NPI combinations participating nationally are performing at or below this rate.

⁹The mean performance rate for all TIN/NPI combinations submitting at least one QDC for the measure.

The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator-eligible reporting instances

¹⁰The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If 'NULL', all of the measure's performance eligible instances were performance exclusions.

¹¹The National Comparison for Performance includes performance information for all TIN/NPI combinations submitting at least one quality-data code (QDC) for the measure. The 25th percentile indicates that 25% of the TIN/NPI combinations participating nationally are performing at or below this rate, the 50th percentile indicates that 50% of the TIN/NPI combinations participating nationally are performing at or below this rate, and the 75th percentile indicates that 75% of the TIN/NPI combinations participating nationally are performing at or below this rate.

¹²The mean performance rate for all TIN/NPI combinations submitting at least one QDC for the measure.

Example 4.2: NPI Performance Detail – Individual Measure(s) Reporting via Registry for 12 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the individual NPI's with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 4: NPI Performance Detail - Individual Measure(s) Reporting via Registry for 12 Months
Sorted by Clinical Performance Rate and Sub-Sorted by Reporting Numerator

Reporting Numerator = Eligible Instances Excluded + Clinical Performance Denominator
Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met

NPI Name: Not Available

NPI Number: 1000000003

Tax ID Name: John Q. Public Clinic

Method of Reporting: Individual measure(s) via registry for 12 months

The registry reported three measures for the eligible professional with these clinical performance rates

Performance Information							
Measure #	Measures Titles	Reporting Numerator	Eligible Instances Excluded	Clinical Performance Denominator ^{aa}	Clinical Performance Numerator Met	Clinical Performance Not Met	Clinical Performance Rate ^{ooo}
#117	Dilated Eye Exam in Diabetic Patient	220	33	187	180	7	82%
#1	Hemoglobin A1c Poor Control in Diabetes Mellitus	184	22	162	150	12	82%
#119	Urine Screening for Microalbumin or Medical Attention for Nephropathy in Diabetic Patients	167	167	0	0	0	NULL

^aName identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

^{aa}The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator eligible reporting instances. Valid reasons for exclusions may apply and are specific to each measure. The 2010 PQRI Quality Measures Specifications document is available on the CMS PQRI website.

^{||}The number of instances the TIN/NPI submitted the appropriate quality-data code(s) (QDCs) or quality action data satisfactorily meeting the performance requirements for the measure.

^{ooo}The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If "NULL", all of the measure's performance eligible instances were performance exclusions.

Note: For the Hemoglobin A1c Poor Control in Diabetes Mellitus (#1) measure, a lower performance rate indicates better performance.

Note: For the Inappropriate Use of "Probably Benign" Assessment Category in Mammography Screening (#146) measure, a lower performance rate indicates better performance.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

Example 4.3: NPI Performance Detail – Individual Measure(s) Reporting via EHR for 12 Months

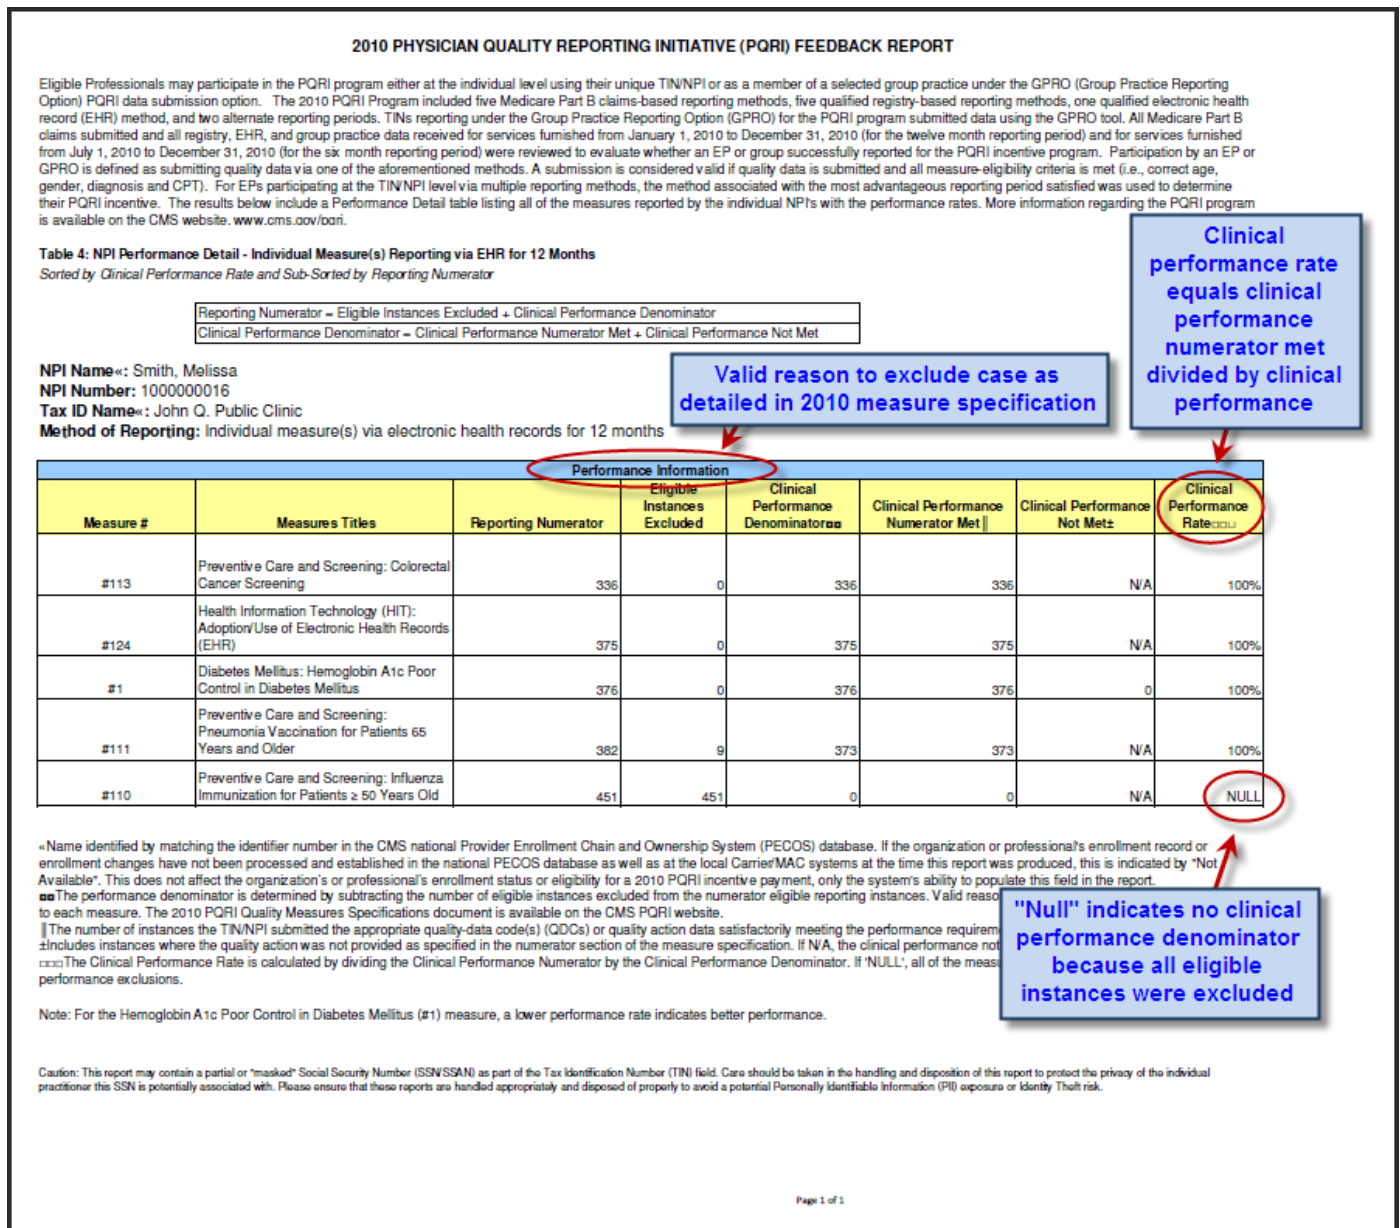

Figure 4.3 Screenshot of Table 4: NPI Performance Detail – Individual Measure(s) Reporting via EHR for 12 Months

Example 4.4: NPI Performance Detail – Individual Measure(s) Reporting via Claims for 6 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPPO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPPO) for the PQRI program submitted data using the GPPO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPPO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the individual NPIs with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 4: NPI Performance Detail - Individual Measure(s) Reporting via Claims for 6 Months
Sorted by Clinical Performance Rate and Sub-Sorted by Reporting Numerator

Reporting Numerator = 1P + 2P + 3P + Other + Clinical Performance Numerator
Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met

Tax ID Name: John Q. Public Clinic

NPI Name: Doe, Jane

NPI Number: 1000000015

Method of Reporting: Individual measure(s) via claims for 6 months

Instances where QDC met measure-specific reporting criteria

Performance Information														
Measure #	Measure Title	Reporting Numerator: Valid QDCs Reported ¹	Eligible Instances Excluded				Clinical Performance Numerator Met ²	Clinical Performance Numerator Not Met ³	Clinical Performance Rate ⁴	National Comparison for Performance ^{5,6,7}

¹Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

²The number of reporting instances where the quality-data codes (QDCs) or quality action data submitted met the measure specific reporting criteria.

³Includes instances where an 8P modifier, G-code or CPT II code is used as a performance exclusion for the measure.

⁴The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator eligible reporting instances. Valid reasons for exclusions may apply and are specific to each measure. The 2010 PQRI Quality Measures Specifications document is available on the CMS PQRI website.

⁵The number of instances the TIN/NPI submitted the appropriate quality-data code(s) (QDCs) or quality action data satisfactorily meeting the performance requirements for the measure.

⁶Includes instances where an 8P modifier, G-code or CPT II code is used to indicate the quality action was not provided for a reason not otherwise specified.

⁷The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If "NULL", all of the measure's performance eligible exclusions.

⁸The National Comparison for Performance includes performance information for all TIN/NPI combinations submitting at least one quality-data code (QDC) for the measure. The 25th percentile indicates that 25% of the TIN/NPI combinations participating nationally are performing at or below this rate, the 50th percentile indicates that 50% of the TIN/NPI combinations participating nationally are performing at or below this rate, and the 75th percentile indicates that 75% of the TIN/NPI combinations participating nationally are performing at or below this rate.

⁹The mean performance rate for all TIN/NPI combinations submitting at least one QDC for the measure.

Note: For the Hemoglobin A1c Poor Control in Diabetes Mellitus (#1) measure, a lower performance rate indicates better performance.

Note: For the Inappropriate Use of "Probably Benign" Assessment Category in Mammography Screening (#146) measure, a lower performance rate indicates better performance.

Note: For 2010 Measure #146, a lower performance rate indicates better performance

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or identity theft risk.

Example 4.9: NPI Performance Detail – Measures Groups: 80% Beneficiaries via Registry for 12 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and GPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the individual NPIs with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 4: NPI Performance Detail - Measures Groups: 80% Beneficiaries via Registry for 12 Months
Sorted by Measure Group and Sub-Sorted by Clinical Performance Rate

Reporting Numerator = Eligible Instances Excluded + Clinical Performance Denominator
Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met

NPI Name: Not Available

NPI Number: 1000000006

Tax ID Name: John Q. Public Clinic

Method of Reporting: Measures Groups - 80% beneficiaries via registry for 12 months

The number of reporting instances where quality-data codes (QDCs) or quality action data submitted met the measure-specific reporting criteria

#180	Glucocorticoid Management	320	320	0	0	0	NULL

-Name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.

► Each measure within the measures group is analyzed as specified in the 2010 PQRI Measures Groups Specifications Manual located on the CMS PQRI website.

■ The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator eligible reporting instances. Valid reasons for exclusions may apply and are specific to each measure. The 2010 PQRI Measures Groups Specifications Manual containing measure specific information is available on the CMS website.

|| The number of instances the TIN/NPI submitted the appropriate quality-data code(s) (QDCs) or quality action data satisfactorily meeting the performance requirements for the measure.

□□□ The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If 'NULL', all of the measure's performance eligible instances were performance exclusions.

Note: For the Hemoglobin A1c Poor Control in Diabetes Mellitus (#1) measure, a lower performance rate indicates better performance.

Note: For the Inappropriate Use of "Probably Benign" Assessment Category in Mammography Screening (#146) measure, a lower performance rate indicates better performance.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Example 4.10: NPI Performance Detail – Measures Groups: 80% Beneficiaries via Claims for 6 Months

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the individual NPI's with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

Table 4: NPI Performance Detail - Measures Groups: 80% Beneficiaries via Claims for 6 Months
Sorted by Measure Group and Sub-Sorted by Clinical Performance Rate

Reporting Numerator = 1P + 2P + 3P + Other + Clinical Performance Numerator Met
Clinical Performance Denominator = Clinical Performance Numerator Met + Clinical Performance Not Met

NPI Name: Not Available

NPI Number: 1000000004

Tax ID Name: John Q. Public Clinic

Method of Reporting: Measures Groups - 80% beneficiaries via claims for 6 months

The clinical performance rate is a result of the clinical performance met divided by the clinical performance denominator. For 2010 PQRI Measure #119, it's 27 divided by 30 for 97%.

Example 4.12: TIN Performance Detail – GPRO

2010 PHYSICIAN QUALITY REPORTING INITIATIVE (PQRI) FEEDBACK REPORT

Eligible Professionals may participate in the PQRI program either at the individual level using their unique TIN/NPI or as a member of a selected group practice under the GPRO (Group Practice Reporting Option) PQRI data submission option. The 2010 PQRI Program included five Medicare Part B claims-based reporting methods, five qualified registry-based reporting methods, one qualified electronic health record (EHR) method, and two alternate reporting periods. TINs reporting under the Group Practice Reporting Option (GPRO) for the PQRI program submitted data using the GPRO tool. All Medicare Part B claims submitted and all registry, EHR, and group practice data received for services furnished from January 1, 2010 to December 31, 2010 (for the twelve month reporting period) and for services furnished from July 1, 2010 to December 31, 2010 (for the six month reporting period) were reviewed to evaluate whether an EP or group successfully reported for the PQRI incentive program. Participation by an EP or GPRO is defined as submitting quality data via one of the aforementioned methods. A submission is considered valid if quality data is submitted and all measure-eligibility criteria is met (i.e., correct age, gender, diagnosis and CPT). For EPs participating at the TIN/NPI level via multiple reporting methods, the method associated with the most advantageous reporting period satisfied was used to determine their PQRI incentive. The results below include a Performance Detail table listing all of the measures reported by the GPRO (TIN) with the performance rates. More information regarding the PQRI program is available on the CMS website, www.cms.gov/pqri.

^κName identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier/MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment, only the system's ability to populate this field in the report.
^μThe number of Patients/Visits eligible for the measure (met the measure's inclusion criteria).
[¶]The number of eligible patients that were removed from the Clinical Performance Denominator for medical, patient or system exclusion reasons (where applicable).
[€]The total number of Patients/Visits minus any Clinical Performance Denominator Exclusions. Valid reasons for exclusions may apply and are specific to each measure.
^τThe number of Patients/Visits that did not meet the performance requirements for the measure.
^θThe number of Patients/Visits that met the performance requirements for the measure.
^θThe Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator Met by the Clinical Performance Denominator.

Note: For DM-2, a lower Clinical Performance Rate indicates better performance/control.

Caution: This report may contain a partial or "masked" Social Security Number (SSN/SSAN) as part of the Tax Identification Number (TIN) field. Care should be taken in the handling and disposition of this report to protect the privacy of the individual practitioner this SSN is potentially associated with. Please ensure that these reports are handled appropriately and disposed of properly to avoid a potential Personally Identifiable Information (PII) exposure or Identity Theft risk.

Figure 4.12 Screenshot of Table 4: TIN Performance Detail – GPRO

Accessing Feedback Reports

Eligible professionals can request individual National Provider Identifier (NPI)-level reports through their Carrier/Medicare Administrative Contractor (MAC) or a future web-based support page. Taxpayer Identification Number (TIN)-level and GPRO reports will be available on the Physician and Other Health Care Professionals Quality Reporting Portal (Portal) at <http://www.qualitynet.org/PQRI> and will require an Individuals Authorized Access to CMS Computer Services (IACS) account (see <https://idm.cms.hhs.gov/idm/user/newregistration.jsp>).

The Portal is the secured entry point to access the complete 2010 feedback reports. Your report is safely stored online and accessible only to you (and those you specifically authorize). Eligible professionals will need to obtain a user name, password, and appropriate role in order to access their 2010 PQRI feedback reports through the secure Portal. As shown in Figure 5.1, the Quick Reference Guides provide step-by-step instructions to register for an IACS account, if you do not already have access. Downloadable 2010 PQRI feedback reports will be available as an Adobe® Acrobat® PDF in September-October of 2011. The report will also be available as a Microsoft® Excel or .csv file.

Please see the 2011 Portal User Guide (<http://www.qualitynet.org/PQRI>) for detailed instructions on logging into the Portal.

Figure 5.1 Screenshot of Physician and Other Health Care Professionals Quality Reporting Portal

Key Facts about PQRI Incentive Eligibility and Amount Calculation

Measure-Applicability Validation (MAV) and Incentive Eligibility

As required by the Tax Relief and Health Care Act of 2006 (TRHCA), the 2010 PQRI included a validation process to ensure that each eligible professional satisfactorily reported the minimum number of measures. Eligible professionals who satisfactorily submitted QDCs via claims-based reporting on one or two PQRI individual measures for at least 80% of their patients eligible for each measure reported and did not submit any QDCs on any additional measures were subject to MAV for determination of whether they should have submitted QDCs for additional measure(s). This validation process is only applicable to claims-based reporting and does not apply to registry or EHR-based submissions or to GPRO. For more information, refer to PQRI FAQs and the 2010 MAV documents on the CMS PQRI website at <http://www.cms.gov/PQRS>.

Lump-Sum Incentive Payment Payment Calculations

- The 2.0% incentive is based on CMS' estimate of all Medicare Part B PFS allowed charges for covered professional services: (1) furnished during the applicable 2010 reporting period, (2) processed by the Carrier or Medicare Administrative Contractor (MAC) no more than two months past the end of the reporting period, and (3) paid under or based on the PFS. PQRI incentive payments will be aggregated at the TIN level.
- For the incentive payment calculation, an eligible professional eligible for the incentive is defined as a TIN/NPI who meets the PQRI criteria for satisfactory reporting for the applicable program year. A GPRO eligible for the incentive is defined as a TIN who met the PQRI criteria for successful reporting for the 2010 PQRI Incentive program year.
- The analysis of satisfactory reporting will be performed at the individual TIN/NPI level, except those participating in GPRO, to identify each eligible professional's services and quality data. The analysis of successful reporting among eligible professionals under the GPRO will be performed at the TIN level to identify the group's services and quality data.
 - Incentive payments earned by individual eligible professionals will be issued to the TIN under which he or she earned an incentive, based on the Medicare Part B PFS covered professional services claims submitted under the TIN, aggregating individual eligible professionals' incentives to the TIN level.
 - For eligible professionals who submit claims under multiple TINs, CMS plans to group claims by TIN for analysis and payment purposes. As a result, a professional who submits claims under multiple TINs may earn a PQRI incentive under one of the TINs and not the other(s), or may earn an incentive under each TIN. The PQRI financial incentive earned by any individual professional under a given TIN, based on the claims associated with that TIN, will be included in that TIN's aggregate PQRI incentive payment.
- For further information related to the incentive payment please refer to the 2010 PQRI program pages on the CMS PQRI website (<http://www.cms.gov/PQRS>), including the *Guide for Understanding 2010 PQRI Incentive Payment*.

Distribution

- 2010 PQRI Incentive payments will be issued to the TIN by the Carrier or MAC in September-October of 2011 electronically or via check, based on how the TIN normally receives payment for Medicare Part B PFS covered professional services furnished to Medicare beneficiaries.
- Incentive payments for the 2010 PQRI and the 2010 Electronic Prescribing (eRx) Incentive Program will be distributed separately.
- If a TIN submits claims to multiple Medicare claims-processing contractors (Carriers or MACs), each contractor may be responsible for a proportion of the TIN incentive payment equivalent to the proportion of Medicare Part B PFS claims the contractor processed for the 2010 PQRI reporting periods. *(Note: if splitting an incentive across contractors would result in any contractor issuing a PQRI incentive payment less than \$20 to the TIN, the incentive will be issued by fewer contractors than may have processed PFS claims from the TIN for the reporting period).*

Frequent Concerns

- If the lump-sum incentive payment does not arrive, contact your Carrier or MAC.
- If the incentive payment amount does not match what is reflected in your PQRI feedback report, contact your Carrier or MAC. The incentive amount may differ by a penny or two from what is reflected in the feedback report due to rounding. The proportion of incentive amount by Carrier/MAC may not equal 100 percent due to rounding.
- The incentive payment and the PQRI feedback report will be issued at different times. The payment, with the remittance advice, will be issued by the Carrier or MAC and identified as a lump-sum PQRI incentive payment. CMS will provide the 2010 PQRI feedback reports through a separate process.
- The Electronic Remittance Advice sends a 2-character code (LE) to indicate incentive payments plus a 4-digit code for the type of incentive and reporting year (PQ10) to accompany the incentive payment.
- The Paper Remittance Advice states: "This is a PQRI incentive payment."
- PQRI participants will not receive claim-level detail in the feedback reports.
- 2010 PQRI feedback reports will be available September-October 2011.
- PQRI feedback report availability is not based on whether or not an incentive payment was earned. Feedback reports will be available for every TIN under which at least one eligible professional (identified by his or her NPI submitting Medicare Part B PFS claims) reported at least one PQRI measure a minimum of once during the reporting period.
- Feedback reports for multiple years will now be accessible via the Portal and will not be archived.
- If **all** of the 2010 PQRI QDCs submitted by individual eligible professionals are not denominator-eligible events for the 2010 PQRI measure, Tables 1, 2, and 4 of the individual eligible professional's NPI-level reports will be populated with zeroes in most or all of the numeric fields of the tables. Table 3 will give NPI-level detailed information in regards to these invalid submissions.
- In some cases for eligible professionals reporting as individuals via registry or EHR, an individual NPI will be indicated in the feedback report as incentive eligible, but the incentive payment is determined to be zero dollars. This is due to when the incentive payment calculation for the individual NPI indicates they do not have any total estimated Medicare Part B PFS allowed charges for covered professional services billed under that individual's TIN/NPI combination.

Help/Troubleshooting

Following are helpful hints and troubleshooting information:

- Adobe® Acrobat® Reader is required to view the feedback report in PDF format. You can download a free copy of the latest version of Adobe® Acrobat® Reader from <http://www.adobe.com/products/acrobat/readstep2.html?promoid=BUIGO>.
- The report may not function optimally, correctly, or at all with some older versions of Microsoft® Windows, Microsoft® Internet Explorer, Mozilla® Firefox, or Adobe® Acrobat® Reader.
- Feedback files for PQRI are generated in the 2007 version of Microsoft® Excel. Microsoft offers a free viewer application for opening Office 2007 files to users running Windows Server 2003, Windows XP, or Windows Vista Operating Systems. With Excel Viewer, you can open, view, and print Excel workbooks, even if you do not have Excel installed. You can also copy data from Excel Viewer to another program. However, you cannot edit data, save a workbook, or create a new workbook. This download is a replacement for Excel Viewer 97 and all previous Excel Viewer versions. See <http://www.microsoft.com/download/en/details.aspx?DisplayLang=en&id=10> to download the free Microsoft® Excel Viewer.
- One of the format options for the feedback report is Character Separated Values (.csv) files. This is a commonly recognized delimited data format that has fields/columns separated by the comma character or other character and records/rows separated by a line feed or a carriage return and line feed pair. Csv files generated for the eRx feedback report will use the [tab] as the delimiting character. The .csv file type is generally accepted by spreadsheet programs and database management systems using the application's native features.
- Users may need to turn off their web browser's Pop-up Blocker or temporarily allow Pop-up files in order to download the eRx feedback report.
- Regardless of the format, users should preview their feedback reports prior to printing. In Microsoft® Excel, view Print Preview to ensure all worksheets show as fit to one page.
- If you need assistance with the **IACS registration process** (i.e., forgot ID, password resets, etc.), contact the QualityNet Help Desk at 866-288-8912 (TTY 877-715-6222) or qnetsupport@sdps.org (Monday-Friday 7:00 a.m.-7:00 p.m. CT). You may also contact them for **PQRI assistance including accessing the Portal**.
- Contact your Carrier or MAC with general payment questions. The Provider Contact Center Toll-Free Numbers Directory offers information on how to contact the appropriate provider contact center and is available for download at: http://www.cms.gov/MLNGenInfo/01_Overview.asp.

Appendix A: 2010 PQRI Feedback Report Definitions

Table 1: Earned Incentive Summary for Taxpayer Identification Number (Tax ID)

Term	Definition
Tax ID Name	Legal business name associated with a Taxpayer Identification Number (TIN). Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.
Tax ID Number	The masked TIN, whether individual or corporate TIN, Employer Identification Number, or individual professional's Social Security Number.
Total Tax ID Earned Incentive Amount for NPIs	The total incentive amount earned by the TIN.
Carrier MAC Identification #	Carrier and/or MAC number to which the TIN bills their claims.
Proportion of Incentive per Carrier/MAC	The percentage of the total incentive amount earned by the TIN/NPI, split across carriers based on the proportionate split of the TIN's total estimated allowed Physician Fee Schedule covered charges billed across the carriers (100% of incentive will be distributed by a single carrier if a single carrier processed all claims for the TIN for all dates of service for the applicable reporting period).
Tax ID Earned Incentive Amount Under Carrier/MAC	The total incentive amount earned by NPIs within the Tax ID (TIN) billing to each carrier. More information regarding incentive calculations can be found on the CMS website, http://www.cms.gov/PQRS .
NPI (Individual Only)	National Provider Identifier of the eligible professional billing under the TIN.
NPI Name (Individual Only)	Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.

Term	Definition
Incentive Eligible	<ul style="list-style-type: none"> • Method of Reporting: The method of reporting attempted by the NPI. For those NPIs participating in PQRI by multiple reporting methods, the most advantageous method is displayed. The twelve reporting methods are: <ul style="list-style-type: none"> ○ 12 months – individual measures via claims ○ 12 months – individual measures via registry ○ 12 months – individual measures via EHR ○ 6 months – individual measures via claims ○ 6 months – individual measures via registry ○ 12 months – 30 beneficiary measures groups via claims ○ 12 months – 30 beneficiary measures groups via registry ○ 12 months – 80% measures groups via claims ○ 12 months – 80% measures groups via registry ○ 6 months – 80% measures groups via claims ○ 6 months – 80% measures groups via registry ○ 12 months – Group Practice Reporting Option • Reporting Period: The 12- or 6-month time period for which an eligible professional can submit quality data for PQRI. • Yes/No: “Yes” if the TIN/NPI is eligible for the incentive payment and “No” if the TIN/NPI is not eligible for the incentive payment. • Rationale: The rationale for those NPIs who were or were not eligible to receive an incentive. <ul style="list-style-type: none"> ○ Sufficient # of measures reported at 80% ○ Sufficient # of beneficiaries reported at 80% and a minimum of 8 eligible beneficiaries ○ Sufficient # of beneficiaries reported at 80% and a minimum of 15 eligible beneficiaries ○ Sufficient # of patients reported ○ Sufficient # of beneficiaries reported ○ Insufficient % of beneficiaries reported ○ Insufficient # of patients reported ○ Insufficient # of measures reported at 80% ○ Insufficient number of minimum eligible beneficiaries ○ Did not pass MAV <p>More information regarding incentive calculations can be found on the CMS website, http://www.cms.gov/PQRS.</p>
Total # Measures Submitted (Individual Only)	The number of measures where quality-data codes (QDCs) or quality actions data are submitted, but are not necessarily valid. Only valid submissions count toward reporting success. If the reporting method is through measures groups, this field will be populated with ‘N/A’.
Total # Measures Denominator Eligible (Individual Only)	<p>The number of measures for which the TIN/NPI reported at least one valid quality-data code (QDC) or quality action data. If the reporting method is through measures groups, this field will be populated with ‘N/A’.</p> <ul style="list-style-type: none"> ○ Quality-Data Code: Specified CPT Category II codes with or without modifiers (and G-codes where CPT II codes are not yet available) used for submission of PQRI data. CMS <i>PQRI Quality Measures Specifications</i> document contains all codes associated with each PQRI measure and instructions for data submission through the administrative claims system. This document can be found on the 2010 PQRI program page on the CMS website at http://www.cms.gov/pqrs.
Total # Measures Satisfactorily Reported (Individual Only)	The total number of measures the TIN/NPI reported at a satisfactory rate; satisfactory rate is for ≥ 80% of instances. If the reporting method is through measures groups, this field will be populated with ‘N/A’.
Total Estimated Allowed Medicare Part B PFS Charges	The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) allowed charges associated with covered professional services rendered during the reporting period. Date of service on the claim is used to determine the reporting period. The PFS claims included were based on the 12- or 6-month reporting period for the method by which the NPI was incentive eligible.

Term	Definition
NPI Total Earned Incentive Amount (Individuals Only)	The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges for services performed within the length of the reporting period for which a TIN/NPI was eligible. If N/A, the NPI was not eligible to receive an incentive.
TIN Total Earned Incentive Amount (GPROs Only)	The 2.0% incentive for incentive-eligible group TIN, based on the total estimated allowed Medicare Part B PFS charges for services performed within the length of the reporting period for which a TIN was eligible. If N/A, the group TIN was not eligible to receive an incentive.
Disease Module/Preventive Care Measures (GPROs Only)	The 2010 GPRO PQRI disease module or preventive care measures title.

Table 2: NPI Participation Detail

Term	Definition
Tax ID Name	Legal business name associated with a TIN. Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.
Tax ID Number	The masked Taxpayer Identification Number, whether individual or corporate TIN, Employer Identification Number, or individual professional's Social Security Number.
All Methods Reported	All reporting methods attempted by the NPI. Every reporting method that may apply to the eligible professional is analyzed.
Reporting Period	The 12- or 6-month time period for which an eligible professional can submit quality data for PQRI.
Registry/EHR Associated	The registry submitting PQRI quality data on behalf of the NPI or the EHR product used by the NPI to submit their quality data.
Qualified for Incentive	"Yes" if satisfactorily met reporting criteria and "No" if did not satisfactorily meet reporting criteria.
Reporting Method/Period Used for Incentive	The method/period of reporting satisfactorily meeting the reporting criteria and deemed most advantageous will be indicated with a "Yes". If the NPI did not qualify for an incentive through any reporting methods/periods, the reporting method/period will be populated with N/A.
NPI	National Provider Identifier of the individual eligible professional billing under the TIN.
NPI Name	Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.

Term	Definition
Incentive Eligible	<ul style="list-style-type: none"> • Method of Reporting: The method of reporting attempted by the NPI. For those NPIs participating in PQRI by multiple reporting methods, the most advantageous method is displayed. The twelve reporting methods are: <ul style="list-style-type: none"> ○ 12 months – individual measures via claims ○ 12 months – individual measures via registry ○ 12 months – individual measures via EHR ○ 6 months – individual measures via claims ○ 6 months – individual measures via registry ○ 12 months – 30 beneficiary measures groups via claims ○ 12 months – 30 beneficiary measures groups via registry ○ 12 months – 80% measures groups via claims ○ 12 months – 80% measures groups via registry ○ 6 months – 80% measures groups via claims ○ 6 months – 80% measures groups via registry ○ 12 months – Group Practice Reporting Option • Reporting Period: The 12- or 6-month time period for which an eligible professional can submit quality data for PQRI. • Yes/No: “Yes” if the TIN/NPI is eligible for the incentive payment and “No” if the TIN/NPI is not eligible for the incentive payment. • Rationale: The rationale for those NPIs who were or were not eligible to receive an incentive. <ul style="list-style-type: none"> ○ Sufficient # of measures reported at 80% ○ Sufficient # of beneficiaries reported at 80% and a minimum of 8 eligible beneficiaries ○ Sufficient # of beneficiaries reported at 80% and a minimum of 15 eligible beneficiaries ○ Sufficient # of patients reported ○ Sufficient # of beneficiaries reported ○ Insufficient % of beneficiaries reported ○ Insufficient # of patients reported ○ Insufficient # of measures reported at 80% ○ Insufficient number of minimum eligible beneficiaries ○ Did not pass MAV • More information regarding incentive calculations can be found on the CMS website, http://www.cms.gov/PQRS.
Total # Measures Submitted	The number of measures where QDCs or quality action data are submitted, but not necessarily valid. Only valid submissions count toward reporting success.
Total # Measures Denominator Eligible	<p>The number of measures for which the TIN/NPI reported at least one valid quality-data code (QDC) or quality action data. If the reporting method is through measures groups, this field will be populated with ‘N/A’.</p> <ul style="list-style-type: none"> • Quality-Data Code: Specified CPT Category II codes with or without modifiers (and G-codes where CPT II codes are not yet available) used for submission of PQRI data. CMS <i>PQRI Quality Measures Specifications</i> document contains all codes associated with each PQRI measure and instructions for data submission through the administrative claims system. This document can be found on the 2010 PQRI program page on the CMS website at http://www.cms.gov/PQRS.
Total # Measures Satisfactorily Reported	The total number of measures the TIN/NPI reported at a satisfactory rate; satisfactory rate is for ≥ 80% of instances. If the reporting method is through measures groups, this field will be populated with ‘N/A’.
Total Estimated Allowed Medicare Part B PFS Charges	The total estimated amount of Medicare Part B Physician Fee Schedule (PFS) allowed charges associated with covered professional services rendered during the reporting period. Date of service on the claim is used to determine the reporting period. The PFS claims included were based on the 12- or 6-month reporting period for the method by which the NPI was incentive eligible.

Term	Definition
NPI Total Earned Incentive Amount	The amount of the incentive is based on the total estimated allowed Medicare Part B PFS charges for services performed within the length of the reporting period for which a TIN/NPI was eligible. If N/A, the NPI was not eligible to receive an incentive.
Measure #/Measure Title	2010 PQRI measure number and title.
Measure Tag	<p>The analytic category for each measure that determines how the measure will be calculated for PQRI.</p> <ul style="list-style-type: none"> • Patient-Intermediate - Report a minimum of once per reporting period per individual eligible professional (NPI). • Patient-Process - Report a minimum of once per reporting period per individual eligible professional (NPI). • Patient-Periodic - Report once per time frame specified in the measure for each individual eligible professional (NPI) during the reporting period. • Episode - Report once for each occurrence of a particular illness/condition by each individual eligible professional (NPI) during the reporting period. • Procedure - Report each time a procedure is performed by the individual eligible professional (NPI) during the reporting period. • Visit - Report each time the patient is seen by the individual eligible professional (NPI) during the reporting period.
Reporting Denominator: Applicable Cases	The number of instances the TIN/NPI was eligible to report the measure or the number of reporting instances meeting the common denominator inclusion criteria for the measures group.
Reporting Numerator: Valid QDCs Reported	<p>The number of reporting instances where the quality-data codes (QDCs) or quality action data submitted met the measure-specific reporting criteria for claims-based reporting.</p> <p>The number of reporting instances for which this TIN/NPI submitted all quality-data code(s) (QDCs) or quality action data corresponding with all applicable measures within the measures group or submitted the composite G-code for the measures group. For each measure within the measures group, this indicates the number of reporting instances for which this TIN/NPI submitted one or more QDCs or quality actions corresponding with the applicable measure within the measures group.</p>
Insufficient QDC Information	The number of instances in claims-based reporting where reporting was not met due to insufficient quality-data code (QDC) information/numerator coding not complete for the measure from the TIN/NPI combination (e.g., two numerator codes are necessary for the measure, only one was submitted; inappropriate CPT II modifier submitted for the measure). This column will be populated with N/A for the measures group title line.
QDC Not Reported	The number of instances where reporting was not met due to no quality-data code (QDC) information/numerator coding existing for the measure from the TIN/NPI combination. This column will be populated with N/A for the measures group title line.
Reporting Rate	<p>A satisfactorily-reported measure has a reporting rate of 80% or greater.</p> <p>The reporting rate for the measures group where all applicable QDCs or quality action data for all applicable measures within the measures group is reported for an eligible reporting instance which is used to determine incentive eligibility. The reporting rate for the measure where a QDC or quality action for the measure is reported for applicable cases.</p>

Term	Definition
Measure Validation Clinical Focus Area	<p>Eligible professionals may find that they have opportunities to report measures in areas that are clinically-related to measures they have chosen to report. The clinical focus area, according to the measure-applicability validation (MAV) process, for each measure is indicated for reporting via claims. Please note that some measures may be generally applicable and are not part of a clinical focus area. A detailed description of the MAV process is available on the CMS website.</p> <ul style="list-style-type: none"> • Measure-Applicability Validation (MAV): <ul style="list-style-type: none"> ○ If an eligible professional submits QDCs for only one or two PQRI measures for the 2010 reporting period, achieves a reporting rate of at least 80% on each measure submitted, and does not submit QDCs for any other PQRI measure, the completeness of their selection of measures may be subject to the MAV process. ○ Any NPI reporting on at least three measures for $\geq 80\%$ of instances, or on one or two measures for $\geq 80\%$ of instances and not found to have been eligible to report additional applicable measures by the MAV process is eligible to receive a PQRI incentive. More information regarding the MAV process and the clinical focus areas can be found on the CMS website, http://www.cms.gov/PQRS.
Measures Groups	<p>2010 PQRI Measures Groups submitted by the NPI. Each measure within the measures group is analyzed as specified in the <i>2010 PQRI Measures Groups Specifications Manual</i> located on the CMS PQRI website.</p>

Table 3: NPI QDC Submission Error Detail

Term	Definition
Tax ID Name	Legal business name associated with a TIN. Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.
NPI Name	Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.
NPI Number	Individual National Provider Identifier of the eligible professional billing under the TIN.
Method of Reporting	The method of reporting attempted by the NPI.
Measure #/Measure Title	2010 PQRI measure number and title.
Measure Tag	<p>The analytic category for each measure that determines how the measure will be calculated for PQRI.</p> <ul style="list-style-type: none"> • Patient-Intermediate - Report a minimum of once per reporting period per individual eligible professional (NPI). • Patient-Process - Report a minimum of once per reporting period per individual eligible professional (NPI). • Patient-Periodic - Report once per time frame specified in the measure for each individual eligible professional (NPI) during the reporting period. • Episode - Report once for each occurrence of a particular illness/condition by each individual eligible professional (NPI) during the reporting period. • Procedure - Report each time a procedure is performed by the individual eligible professional (NPI) during the reporting period. • Visit - Report each time the patient is seen by the individual eligible professional (NPI) during the reporting period.
QDC Occurrences	<ul style="list-style-type: none"> • Actual # Reported: Number of QDC submissions for a measure, whether or not the QDC submission was valid and appropriate (was submitted on a claim meeting denominator criteria) • Reporting Numerator: Valid QDCs Reported: Number of valid and appropriate QDC submissions for a measure • % of Valid QDCs Accepted: The percentage of reported QDCs that were valid
Gender	Number of QDC submissions that were not accepted due to not meeting the gender requirements for the measure.
Age	Number of QDC submissions that were not accepted due to not meeting the age requirements for the measure.
Only Incorrect CPT	Number of invalid QDC submissions resulting from an incorrect CPT code.
Only Incorrect DX	Number of invalid QDC submissions resulting from an incorrect diagnosis code.
Both Incorrect CPT and DX	Number of invalid QDC submissions resulting from a combination of incorrect CPT code and incorrect diagnosis code.
Only QDC on Claim (no CPT/HCPCS)	Number of invalid QDC submissions due to a missing qualifying denominator code since all lines were QDCs.
Only QDC and Incorrect DX	Number of invalid QDC submissions due to a missing qualifying denominator code since all lines were QDCs and the diagnosis code was incorrect.

Note: A QDC submission attempt may be counted for age, gender and one of the following: Incorrect CPT, Incorrect DX, Incorrect CPT and DX, Only QDC on Claim, and Only QDC and Incorrect DX. Incorrect CPT, Incorrect DX, Incorrect CPT and DX, Only QDC on Claim, and Only QDC and Incorrect DX are all mutually exclusive. If there is an incorrect CPT code and also an incorrect diagnosis, it will only fall into the "Both Incorrect CPT and DX" cell for that measure and will not fall into the other two cells.

Table 4: NPI Performance Detail

NOTE: Performance information is provided for the GPRO or eligible professional's use to assess and improve their clinical performance. Performance rates do not affect 2010 PQRI incentive payment eligibility or amount at the individual eligible professional or practice level.

Term	Definition
NPI Name (Individual Only)	Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 20092010 PQRI incentive payment; only the system's ability to populate this field in the report.
NPI Number (Individual Only)	Individual National Provider Identifier of the eligible professional billing under the TIN.
Tax ID Name	Legal business name associated with a TIN. Eligible professional's name identified by matching the identifier number in the CMS national Provider Enrollment Chain and Ownership System (PECOS) database. If the organization's or professional's enrollment record or enrollment changes have not been processed and established in the national PECOS database as well as at the local Carrier or MAC systems at the time this report was produced, this is indicated by "Not Available". This does not affect the organization's or professional's enrollment status or eligibility for a 2010 PQRI incentive payment; only the system's ability to populate this field in the report.
Tax ID Number (GPROs only)	The masked TIN, whether individual or corporate TIN, Employer Identification Number, or individual professional's Social Security Number.
Method of Reporting	The method of reporting attempted by the NPI. For those NPIs participating in PQRI by multiple reporting methods, all methods are displayed.
Measure #/Measure Title	2010 PQRI measure number and title.
Reporting Numerator	The number of reporting instances where the quality-data codes (QDCs) or quality action data submitted met the measure-specific reporting criteria.
Reporting Numerator: Valid QDCs Reported (Individual Measures via Claims Only)	The number of reporting instances where the quality-data codes (QDCs) or quality action data submitted met the measure-specific reporting criteria.
Eligible Instances Excluded	The number of instances the TIN/NPI submitted a quality-data code (QDCs) or quality action data indicating a performance exclusion for the measure.
Eligible Instances Excluded (Individual Measures via Claims Only)	<p>The number of instances the TIN/NPI submitted a modifier or QDC as performance exclusion for the measure.</p> <ul style="list-style-type: none"> • Medical 1P: For each measure, the number (#) of instances the TIN/NPI submitted modifier 1P. • Patient 2P: For each measure, the number (#) of instances the TIN/NPI submitted modifier 2P. • System 3P: For each measure, the number (#) of instances the TIN/NPI submitted modifier 3P. <p>Other: Includes instances where a CPT II code, G-code, or 8P modifier is used as a performance exclusion for the measure.</p>

Term	Definition
Clinical Performance Denominator Exclusion (GPRO Only)	<ul style="list-style-type: none"> The number of eligible patients that were removed from the Clinical Performance Denominator for medical, patient, or system exclusion reasons (where applicable).
Clinical Performance Denominator	The performance denominator is determined by subtracting the number of eligible instances excluded from the numerator eligible reporting instances. Valid reasons for exclusions may apply and are specific to each measure. The <i>2010 PQRI Quality Measures Specifications</i> document is available on the CMS PQRI website.
Clinical Performance Numerator Met	Number of instances the TIN/NPI submitted the appropriate QDC(s) or quality action data satisfactorily meeting the performance requirements for the measure. Please note that some measures look at “poor control” or “inappropriate care”. For these measures, it is desirable to have a small number.
Clinical Performance Not Met	Includes instances where a CPT II code with an 8P modifier or G-code is used to indicate the quality action was not provided for a reason not otherwise specified.
Clinical Performance Rate	<p>For “poor control” or “inappropriate care” measures, it is desirable to have a lower rate. The Clinical Performance Rate is calculated by dividing the Clinical Performance Numerator by the Clinical Performance Denominator. If 'NULL', all of the measure's performance eligible instances were performance exclusions.</p> <ul style="list-style-type: none"> Note: Instances reported with recognized performance exclusions (modifiers and/or QDC codes) are not included when calculating the performance rate. In other words, these exclusions serve as denominator exclusions for the purpose of measuring performance. For each PQRI measure for a particular program year, the recognized performance exclusions are identified in the relevant PQRI Measure Specifications which are available for download from the CMS PQRI website.
National Comparison for Performance (Individual Measures via Claims Only)	<p>The National Comparison for Performance includes performance information for all TIN/NPI combinations submitting at least one QDC for the measure. Performance rates are sorted in ascending order (i.e., lowest to highest) then:</p> <ul style="list-style-type: none"> The 25th percentile indicates that 25% of all participating TIN/NPI combinations are performing at or below this rate. The 50th percentile indicates that 50% of all participating TIN/NPI combinations are performing at or below this rate. The 75th percentile indicates that 75% of all participating TIN/NPI combinations are performing at or below this rate. <p>For “poor control” or “inappropriate care” measures, the percentile is reversed, so the 25th percentile indicates better performance.</p>
National Mean Performance Rate (Individual Measures via Claims Only)	The mean performance rate for all TIN/NPI combinations submitting at least one QDC for the measure.
Measures Groups - Title	Name of 2010 PQRI measures group.
Reporting Numerator	The number of reporting instances where the QDCs or quality action data submitted met the measure specific reporting criteria. (Reporting Numerator = 1P + 2P + 3P + Other + Clinical Performance Denominator).
Total Patients/Visits (GPRO Only)	The number of patients or visits eligible for the measure (met the measure's inclusion criteria)
