

Children's Health Insurance Program Reauthorization of 2009 (CHIPRA): Outreach and Enrollment Grants

Meredith Robertson and Susan Gratzner
Division of State Children's Health Insurance

December 2, 2009

What is CHIPRA?

- Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3)
- Signed into law by President Obama on February 4, 2009
- Extends the CHIP program for 4 ½ years (April 1, 2009 – September 30, 2013)
- Significant new Federal funding (\$68.9 billion) for health coverage for children

CHIP Basics

- The program gives each State authority to provide health insurance for children, up to age 19, who are not already insured & who meet other requirements.
- CHIP is a partnership with States.
- Because each State sets its own guidelines, there is not one nationwide SCHIP/CHIP program.

CHIP-Who Is Eligible?

- Uninsured children & pregnant women with income too high for Medicaid.
- Families that do not currently have health insurance are likely to be eligible, even if the parent(s) are working.

CHIP Funding

- States receive an enhanced match for CHIP children up to 300% FPL.
- The amount of CHIP funds received annually has historically been based on the:
 - number of uninsured, low-income children in the state; and
 - a geographic health care cost factor.

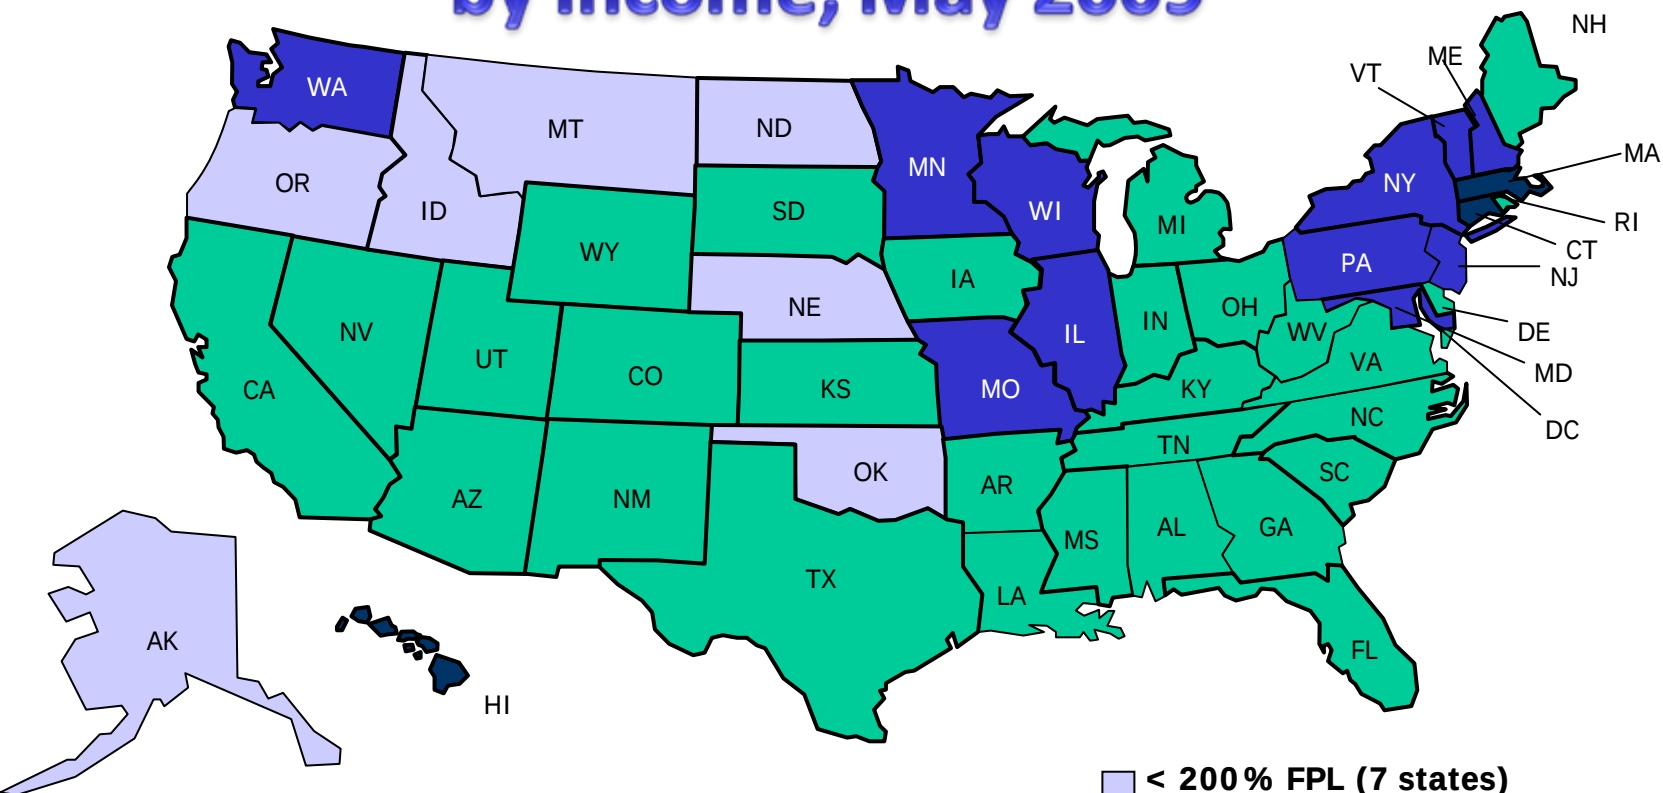

Allotments

\$32 billion in new federal funding

Improved allotment formula --

- Distributes funding based on State spending
- Adjustments for inflation, child population growth, eligibility expansions
- “Re-basing” every two years
- Shortfalls averted

Children's Eligibility for Medicaid/CHIP by Income, May 2009

*The Federal Poverty Line (FPL) for a family of three in 2008 is \$17,600 per year.
 ***IL uses state funds to cover children above 200% FPL.; MA uses state funds to cover children above 300% FPL

SOURCE: KCMU/CBPP annual survey of state eligibility and enrollment policies, 2009.

 < 200 % FPL (7 states)

■ 200-250% FPL (29 states)

■ > 250% FPL (14 states plus DC)

Coverage Options

- Federal funding now available for coverage of lawfully residing immigrant children and pregnant women
 - No more 5-year waiting period
- Pregnant women eligible for CHIP
- States can set income eligibility
 - Previous Federally-imposed limits repealed (“August 17 directive”)
 - Regular match over 300% FPL

Enrolling Eligible Children

- Citizenship documentation requirement
- Express Lane Eligibility
- Increased Federal match for translation and interpretation services
- Outreach funds

Changes in Citizenship Documentation

- No delay in coverage
- New SSA data match option; 90% match for systems upgrade
- Applies to CHIP as well as Medicaid

Express Lane Eligibility

- States may rely on existing data provided through other programs, tax forms to facilitate enrollment
- Minimize red tape for families and States

Outreach

CHIPRA authorized \$100 million in Outreach funding: no state match

- \$80 million grant funds to states, community-based organizations, tribes; first \$40 million awarded September 30, 2009.
- \$10 million for National Outreach Campaign
- \$10 million focused on outreach to Native American children

Grant Goals

- Reduce the number of uninsured, low-income children through the enrollment and retention of eligible children in Medicaid and CHIP.
- Overcome barriers to enrollment and participation in Medicaid and CHIP for racial, minority and under-served populations.

Outreach Grants Overview

- Cycle I – awarded Sept. 30, 2009
- Grant period
 - Sept. 30, 2009-Sept. 29, 2011

- Outreach strategies
- Sustainability

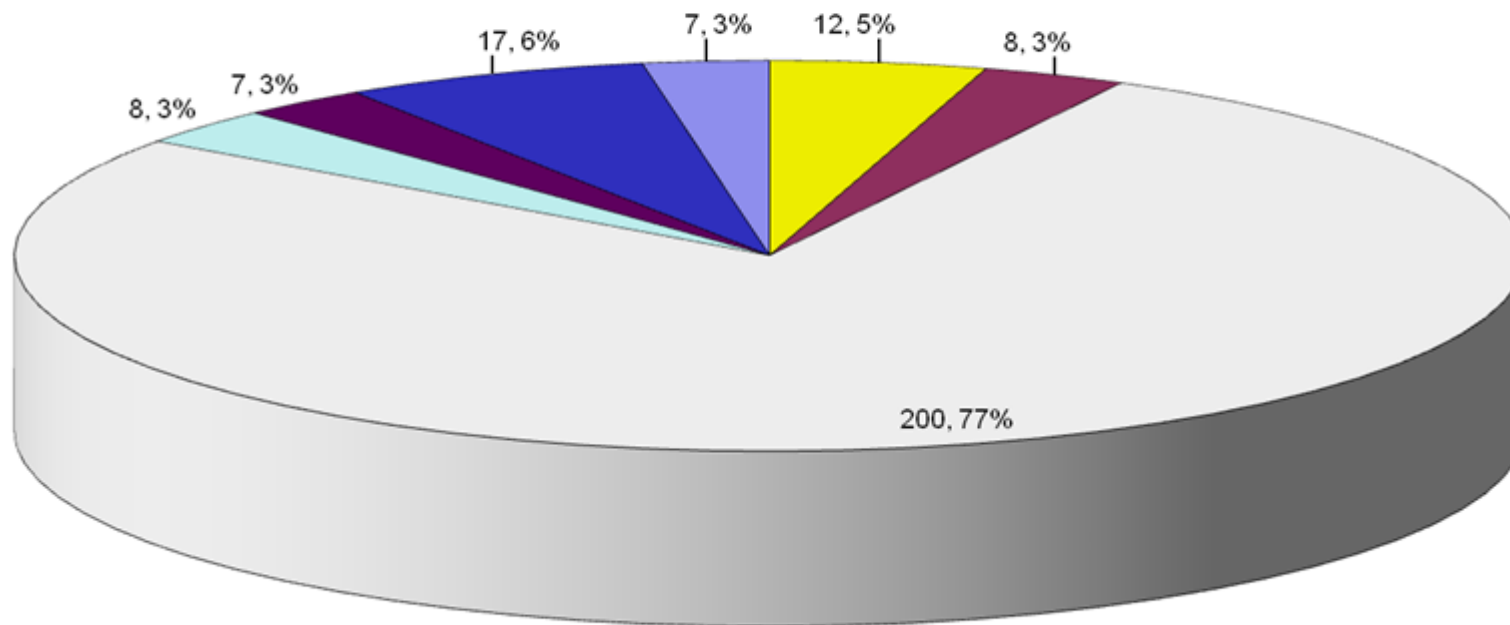

**Demographic Breakdown
Outreach and Enrollment Grants
Total: 69 Awards (\$39,999,984)**

■ Rural Area ■ Legal Immigrants ■ Cross-Border ■ Migrants ■ Hispanics ■ Teens ■ Homeless ■ AI/AN

Applicant Types
Outreach and Enrollment
Total Awards (\$39,999,984)

State Medicaid/CHIP Agency	Local Government	Public/nonProfit
Elem.Sec. School	Other State Agency	Faith-based non profit
Indian Org/Provider		

Data Collection & Reporting

- Memorandum of Understanding
- Plan to track data on enrollment and retention
- Quarterly and annual reporting
- Final report

Evaluation Plan

Overall quality and outcome performance measures

- # of children enrolled
- # of children retained
- Overall impact of grantee's efforts

Evaluation (cont'd)

Specific quality and outcome performance measures

- # of children referred and found eligible
- # of children who retain eligibility
- # of children target population referred
- # of children denied coverage
- Assessment of strategies and events
- Ability to replicate

Grants Summary

Points

- 69 Grants Awarded
- Range - \$72,999 - \$988,177
- 49 individual entities and 20 coalitions
