Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)
Transmittal 1953	**Date: October 27, 2017**
	Change Request 10305

Transmittal 1930, dated October 6, 2017, is being rescinded and replaced by Transmittal 1953, dated October 27, 2017, to correct the Effective and Implementation dates. All other information remains the same.

SUBJECT: Shared System Enhancement 2014: Implementation of Fiscal Intermediary Shared System (FISS) Obsolete On-Request Jobs - Phase 1

I. SUMMARY OF CHANGES: The purpose of this Change Request (CR) is to confirm that certain on-request jobs produced by FISS can be archived since they are no longer used by the A/B MACs. FISS has identified approximately 573 reports that can be archived. This CR will be completed in 4 phases.

EFFECTIVE DATE: November 6, 2017 - Business requirement 10305.1 - November 6, 2017; Business requirement 10305.2 – December 8, 2017; Business requirement 10305.3 – January 8, 2018; Business requirement 10305.4 – February 8, 2018
Unless otherwise specified, the effective date is the date of service.
IMPLEMENTATION DATE: November 6, 2017 - Business requirement 10305.1 - November 6, 2017; Business requirement 10305.2 – December 8, 2017; Business requirement 10305.3 – January 8, 2018; Business requirement 10305.4 – February 8, 2018

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

III. FUNDING:
For Medicare Administrative Contractors (MACs):
The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

Transmittal 1930, dated October 6, 2017, is being rescinded and replaced by Transmittal 1953, dated October 27, 2017, to correct the Effective and Implementation dates. All other information remains the same.

SUBJECT: Shared System Enhancement 2014: Implementation of Fiscal Intermediary Shared System (FISS) Obsolete On-Request Jobs - Phase 1

EFFECTIVE DATE: November 6, 2017 - Business requirement 10305.1 - November 6, 2017; Business requirement 10305.2 – December 8, 2017; Business requirement 10305.3 – January 8, 2018; Business requirement 10305.4 – February 8, 2018
Unless otherwise specified, the effective date is the date of service.
IMPLEMENTATION DATE: November 6, 2017 - Business requirement 10305.1 - November 6, 2017; Business requirement 10305.2 – December 8, 2017; Business requirement 10305.3 – January 8, 2018; Business requirement 10305.4 – February 8, 2018

I.   GENERAL INFORMATION

A.   Background: The Centers for Medicare & Medicaid Services' (CMS) goal is to identify and remove any on-request obsolete jobs (i.e., jobs that no longer meet the needs of the business owner). The removal of on-request jobs reduces (1) System complexity and makes future maintenance easier and more efficient; (2) Processing and storage costs at the Virtual Data Centers; and (3) Processing and storage costs at the MACs by discontinuing the need to warehouse these jobs at their local data centers. CMS will issue a separate CR in which FISS will be directed to remove on-request obsolete jobs from the shared system. This CR is subsequent to CR9566.

B.   Policy: There are no legislative or regulatory policies associated with this CR.

II.   BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

Number	Requirement	Responsibility								
		A/B MAC			DME MAC	Shared-System Maintainers				Other
		A	B	HHH		FISS	MCS	VMS	CWF	
10305.1	In Phase 1, the contractor shall review and identify the on-request jobs that should continue to be produced within 30 days of the CR issuance.	X		X						
10305.1.1	The contractor shall use the attached spreadsheet to identify the on-request jobs that should not be archived. Note: No response is needed for those on-request jobs where the MAC agrees with	X		X

Banking	This job will update the check history records with an 'O' status to a 'T' status and create a remarks record for the check.	MAFUCHT1	MAPUCHT1
Other On-request Jobs	Restore the SFSMG VSAM File from Backp	MAJDMGF	MAPDMGF

On-Request Job Purpose	Comments Required for Non-Concur
Delete, Define and Initalize the VSAM File FSSFDDMO. THIS JOB IS FOR INITIAL CREATION OF SNF NFI FILE. MUST RUN WITH RELEASE.	
Job will create adjustments for claims assigned 'FR' in error.	
Job will create adjustments for claims assigned 'FR' in error.	
This job splits the daily report extract file into separate, files, by Site code.	
This job is for the HIPAA Update. It updates FSSFCLMU with SFSCINFO SFSCINFO data for the 277 responses.	
This job will produce a report to track the security access to FISS Core and Financial Systems.	
This job loads EMC Claims to EMC VSAM Files for online loading to claims files.	
This job corrects EDI interchange (001) records with invalid or missing receipt dates for 4010A1 (Addenda.) It produces report(#6496)96xCorrected Receipt Dates.	
This job corrects EDI 837 4010 records with invalid or missing receipt dates.	
This job generates a Hospital-based Provider claim work file.	
run inhouse pro adjustments	

On-Request Job Purpose	Comments Required for Non-Concur
This job updates the Coordination of Benefits Eligibility file with Insurer transactions.	
This job is the Medicare denied statistics report generator. creates a detailed report containing statistical information about medically and technically denied claims.	
Using the data on the FSSFMEDP VSAM file, this job generates copybook code to handle the medical policy screening edits. It produces the Medical Policy Parameter Report (#601).	
This job generates report 307 Intermediary Benefit Payment Report.	
This job creates and prints focus Medical Review reports, Principle Diagnosis Ranking Report, and the Procedure Code Ranking Report.	
This job unloads the DCN Purge file 0, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 1, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 2, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 3, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 4, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 5, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 6, merges in new records, and reloads the file.	

On-Request Job Purpose	Comments Required for Non-Concur
This job unloads the DCN Purge file 7, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 8, merges in new records, and reloads the file.	
This job unloads the DCN Purge file 9, merges in new records, and reloads the file.	
This job produces the Statistical Sampling Parameter Extract file.	
This job purges the DCN Purge file 0 of summary records older than seven years.	
This job purges the DCN Purge file 1 of summary records older than seven years.	
This job purges the DCN Purge file 2 of summary records older than seven years.	
Purges the DCN3 file of claims that meet the age criteria.	
Purges the DCN4 file of claims that meet the age criteria.	
Purges the DCN5 file of claims that meet the age criteria.	
Purges the DCN6 file of claims that meet the age criteria.	
Purges the DCN7 file of claims that meet the age criteria.	
Purges the DCN9 file of claims that meet the age criteria.	
This job will create FSSFJCLA file from a file submitted in job.	
Delete/Define/Init the FSSFMEDA and FSSFMEDB VSAM Files.	
Create FSSFMEDB backup file from FSSFMEDP VSAM File.	
Delete/Define/init FSSFPECO File and copy High Value Record in.	
Delete/Define/Init FSSFPIMR file and load Init Record.	
Delete/Define/Init and copy the NPI Crosswalk File.	

On-Request Job Purpose	Comments Required for Non-Concur
Creates the FSSFZIP9 VSAM File.	
Produces the Provider Profile Report #801.	
Create Detail and Summary Reports of Providers by BSI.	
Year end JCL for copying the current Tot Balance File and the Current Detail Balance File to Year End Files and changes the Audit Code from a 'C' to 'A'.	
This job creates the quarterly Provider Deactivation Report.	
This job produces the 982 report from the DMEPOS Fee File.	

SPECIAL UTILITY FOR BATCH STANDARDIZATION INSTALLATION PROCESS WHICH HAS 2 PURPOSES BASED ON CONTROL CARD:
 1. RAN BEFORE INITIAL INSTALL OF PAR FS9405 TO BUILD THE
   GDG BASES NECESSARY FOR INPUT TO UTILITY JOB FSSJCATG.
 	
 2. RAN AT VERY END OF BATCH STANDARIZATION INSTALLATION
   PROCESS TO DELETE GDGS NO LONGER NEEDED.	

This job will print English and Spanish MSN's.	
Creates new FSSFPIMR VSAM file from back up.	
Job to create Report 650.	
Delete/Define/Init the MASS Adjustment Files.	
Job to backup the MASS Adjustment Files.	
Restore Mass Adjust files. MADC, MADP, MADX	
Restore Mass Adjustment file MAFF.	

On-Request Job Purpose	Comments Required for Non-Concur
Release/Delete Mass Adjustment Claim Records.	
Restore Mass Adjustment files. MADC, MADP, MADX, MAFF	
This job creates the Spanish Bene Extract File and the Spanish MSN Report RPT28691.	
Merge multiple regions files. PPSH, OPPS, PVDR and CWF*.	
Merge together PPSH and OPPS files from multiple regions for reporting.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Merge together CWF files from multiple regions.	
Split Reply file to multiple regions.	
Combine multiple Regions MSPI VSAM Files.	
This job is the install process for JAR files.	
Reason Code by Activity Code Report.	
One time job to init the dcn record of the System Control File.	
Read finder file and update intermediary numbers in those claims.	
This job will extract offline history claims from CLMHIST7 based on parameters created from job FSSJ5551.	
This job will extract offline history claims from CLMHIST6 based on parameters created from job FSSJ5551.	

On-Request Job Purpose	Comments Required for Non-Concur
This job will extract offline history claims from CLMHIST5 based on parameters created from job FSSJ5551.	
This job will extract offline history claims from CLMHIST4 based on parameters created from job FSSJ5551.	
This job will extract offline history claims from CLMHIST3 based on parameters created from job FSSJ5551.	
This job will extract offline history claims from CLMHIST2 based on parameters created from job FSSJ5551.	
This job will extract offline history claims from CLMHIST1 based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM0 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM1 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM2 file based on parameters created from job FSSJ5551.	no jcl
This job will extract claims from the FSSFCLM3 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM4 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM5 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM6 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM7 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM8 file based on parameters created from job FSSJ5551.	
This job will extract claims from the FSSFCLM9 file based on parameters created from job FSSJ5551.	

On-Request Job Purpose	Comments Required for Non-Concur
This job will extract claims from the FSSFCLMU file based on parameters created from job FSSJ5551.	
This job will split individual history extract files for each BSI out into the following fiscal years. 2005, 2006, 2007, 2008, 2009 and 2010 and beyond.	
This job will convert Workload File 1 into a IDR Format.	
This job will convert Workload File 2 into a IDR Format.	
This job will convert Workload File 3 into a IDR Format.	
This job will convert Workload File 4 into a IDR Format.	
This job will convert Workload File 5 into a IDR Format.	
This job will convert Workload File 6 into a IDR Format.	
This job will convert Workload File X into a IDR Format.	
This job will create the sort/parm cards used in jobs FSSJ551A thru FSSJ551R	
This job will read in the files created in jobs FSSJ551A thru FSSJ551R and merge them into one file and then split the data from the one file out based on BSI.	
This job is for the updates (rebuild) of the RTPS file. It creates the RTPS VSAM file using the Paid Claims file and runs daily to re-create the file.	
This job is for the updates (rebuild) of the RTPS file. It is the initial define and load of the RTPS VSAM file and runs weekly to re-create the file.	
This job identifies duplicate updates to the claim file from the batch-logging run. Because of the nature of logging, only one of these updates can be applied and the other is dropped.	

On-Request Job Purpose	Comments Required for Non-Concur
This job is for the Electronic Media Claim Submission Statistics Reporting Of File 0. It is a derivative of original job FSSJ0613. Due to the excessive amount of time required to execute FSSJ0613, it was split into eleven separate jobs. Ten of the jobs (FSSJ6130 - FSSJ6139) each extracts data from a single VSAM claim file, and the eleventh job (FSSJ613A) sorts the data and produces report 613.	
This job is for the Electronic Media Claim Submission Statistics Reporting Of File 1. It is a derivative of original job FSSJ0613. Due to the excessive amount of time required to execute FSSJ0613, it was split into eleven separate jobs. Ten of the jobs (FSSJ6130 - FSSJ6139) each extracts data from a single VSAM claim file, and the eleventh job (FSSJ613A) sorts the data and produces report 613.

This job is for the Electronic Media Claim Submission Statistics Reporting Of File7. It is a derivative of original job FSSJ0613. Due to the excessive amount of time required to execute FSSJ0613, it was split into eleven separate jobs. Ten of the jobs (FSSJ6130 - FSSJ6139) each extracts data from a single VSAM claim file, and the eleventh job (FSSJ613A) sorts the data and produces report 613.	
This job is for the Electronic Media Claim Submission Statistics Reporting Of File 8. It is a derivative of original job FSSJ0613. Due to the excessive amount of time required to execute FSSJ0613, it was split into eleven separate jobs. Ten of the jobs (FSSJ6130 - FSSJ6139) each extracts data from a single VSAM claim file, and the eleventh job (FSSJ613A) sorts the data and produces report 613.	

On-Request Job Purpose	Comments Required for Non-Concur
This job is for the Electronic Media Claim Submission Statistics Reporting Of File 9. It is a derivative of original job FSSJ0613. Due to the excessive amount of time required to execute FSSJ0613, it was split into eleven separate jobs. Ten of the jobs (FSSJ6130 - FSSJ6139) each extracts data from a single VSAM claim file, and the eleventh job (FSSJ613A) sorts the data and produces report 613.	
ELECTRONIC MEDIA CLAIM SUBMISSION STATISTICS REPORTING	
This job is for the Extract Star Claim Records for Lewin Intervention. Tracking Method (ITM) report creation. The program reads the claims VSAM files, expands summary portion and if the claim receipt date is within the PARM dates, it expands the whole claim and writes out the claim record. It produces report (#621A) Lewin ITM Report Claim Extract Statistics.	
This job generates report PRTA/RHHI Sampling Respondent (#621C).	
This job creates the Functional Acknowledgement file For Electronic Media Claims (EMC) UB92 versions V4.0 and V4.1.	
This job creates the Functional Acknowledgement file for Electronic Media Claims (EMC) using the National Standards Format (NSF.)	

On-Request Job Purpose	Comments Required for Non-Concur
This job creates the Functional Acknowledgement file for Electronic Media Claims (EMC) version 5.0 UB92 files.	
This job creates the Functional Acknowledgement file for Electronic Media Claims (EMC) version 6.0 UB92 files.	
This job generates the Reason Code Summary and Status Report(#6458)	
This job generates the Reason Code Status and Category Reports.	
This job generates the (HIPPA) ANSI Crosswalk Report (#0983) Note: FSSJ6480 also generates report (#0983). However, FSSJ6483 allows execution of the report only with a PARM member. FSSJ6480 uses the entire ANSI Code file and identifies all the deleted ANSI codes automatically and identifies the reason codes that referenced the deleted ANSI codes. FSSJ6483 and FSSJ6480 use the same program with different input to produce report (#0983).	
This job creates two reports. 'Active Providers Sorted by Provider Number' and 'Active Providers Sorted by Provider Master Name/Number.	
THIS JOB COMPARES THE PREVIOUS QUARTER'S FSSFZIPM FILE TO THE MOST CURRENT VERSION OF THE FSSFZIPM FILE. IT CREATES A REPORT OF ANY ADDS, CHANGES OR UNCHANGED ZIP CODES SINCE THE PRIOR QUARTER.	

On-Request Job Purpose	Comments Required for Non-Concur
This job will read the claims files and sort off any claims in status/location PO9997. It will create a report of those claims with hic, dcn, tob, stmt covered from date and stmt covered to date.	
On request utility to produce the 7200 report which identifies existing active and any missing active Exit Flag records on the FSSFSYSC System COntrol file and displayed on the Exit Flag screen (MAP189I).	
On request utility to select SNF Providers from the Monthly Paid Claim (PDCL) files or Month-To-Date (MTD) Paid Claim files or the Daily Paid Claim files.	
NEW JOB WHICH READS IN THE DATASET THAT CONTAINS A LIST OF GDGS THAT IS SENT WITH A RELEASE AND PERFORM THE APPROPRIATE FUNCTION (ADD/ALTER/DELETE GDGS).	
This job will print MSP Reports. RPT09* reports.	
This job will create an extract from the CLMU file based on the parameters passed to FSSBXCL1.	
This job will create an extract from the PVDR file based on parameters passed to FSSBXPR0.	
This job will update the status on the FSSF810T Records.	
This job creates the CFO Correction Action Plan Quarterly Report (#053).	
This job will create ADR Claims Report and ADR Claims Extract File.	
HPSA Bonus Rerun process.	

On-Request Job Purpose	Comments Required for Non-Concur
This job reads in three paid claim files and will produce the PCIP payments for those paid claim files.	
This job builds RTS Insurer records from CMS's Data Match file and loads the new Insurer records into the RTS VSAM Insurer file.	
This job checks all RTS Tracking record Report-ID's and changes the status to CT when the Report ID is below the tolerance amount. A report is generated showing all records with changed statuses.	
This job ensures that duplicate RTS Tracking records are not loaded to the VSAM Tracking file.	
This job sorts the RTS Tracking records into sequence and loads them onto the VSAM Tracking file.	
This job creates RTS cross-references between each Report ID and HIC	
This job extracts records in preparation for producing RTS recovery packages.	
This job creates files for the production of RTS recovery packages.	
This job creates RTS Recovery Demand packages.	
This job creates updated records to use in modifying the RTS tracking records.	
This job updates the RTS Tracking record VSAM file.	
This job produces a SNAP report.	
This job prints the contents of the RTS Request file.	
This job deletes/redefines the RTS Request file.	

On-Request Job Purpose	Comments Required for Non-Concur
This job produces the RTS Manual Follow-Up Report.	
This job produces the Receivable Report for Bankrupt/Terminated Payees. #838	
This job produces the IRS DATA MATCH STATUS REPORT #825	
Loads claims needed for recovery Facsimile printing to the RTS Facsimile VSAM File.	
This job prints the RTS Claim Facsimiles needed for recovery packages.	
This job purges the RTS VSAM Tracking File of all records which have been closed for 90 days or more.	
This job retrieves RTS VSAM Tracking File off-line records for insertion on the RTS VSAM Tracking File.	
This job loads the retrieved records to the RTS VSAM Tracking File FSSFRTST.	
This job produces RTS Litigation Reports and Extract File.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract January	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract February.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract March.	

On-Request Job Purpose	Comments Required for Non-Concur
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract April.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract May.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract June.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract July.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract August.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract September.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract October.	

On-Request Job Purpose	Comments Required for Non-Concur
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract November.	
This job will take the dates entered in the job parm and create a SORT Card. Used to select records from the DCNS file used to create INACTIVE PROVIDER REPORT #978 in job FSSJ0978. Used to extract December.	
Extract claims from the CLM0-CLM9 files that are used to create INACTIVE PROVIDER REPORT #978 Report in FSSJ978X.	
This job creates the RTS Closed Claim Status Report #821.	
Add a new provider specific record for providers that have a FYB date one year less than the time period for the month your running in.
