I. GENERAL INFORMATION

A. Background: These instructions provide updated data for determining the Disproportionate Share (DSH) adjustment for IPPS hospitals and the low-income patient (LIP) adjustment for IRFs as well as payments as applicable for LTCH discharges (e.g., paid the IPPS comparable amount under the short-stay outlier payment adjustment). The SSI/Medicare beneficiary data for hospitals are available electronically and contains the name of the hospital, CMS certification number, SSI days, total Medicare days, and the ratio of days for patients entitled to Medicare Part A attributable to SSI recipients. The files are located at the following CMS website addresses:

IPPS: <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS/dsh.html>

IRF: <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/InpatientRehabFacPPS/SSIData.html>

LTCH: <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/LongTermCareHospitalPPS/download.html>

The data is used for settlement purposes for IPPS hospitals and IRFs with cost reporting periods beginning and during Fiscal Year (FY) 2016 (cost reporting periods beginning on or after October 1, 2015, and before October 1, 2016), except when explicitly directed otherwise by CMS.

B. Policy: Section 9105 of the Consolidated Omnibus Budget Reconciliation Act of 1985 provides that for discharges occurring on or after May 1, 1986, an additional payment must be made to IPPS hospitals serving a disproportionate share of low-income patients. The additional payment is determined by multiplying the federal portion of the Diagnosis-Related Group (DRG) payment by the DSH adjustment factor, and beginning for discharges occurring on or after October 1, 2014, the additional payment is determined by multiplying the DRG payment by the DSH adjustment factor reduced by 75 percent. (See 42 CFR 412.106.) Under IRF Prospective Payment System (PPS), IRFs will receive an additional payment amount to account for the cost of furnishing care to low-income patients. The additional payment is determined by multiplying the federal prospective payment by the LIP adjustment formula. (See 42 CFR 412.624(e)(2).)

Under the LTCH PPS, the payment adjustment for Short-Stay Outlier (SSO) cases at 42 CFR 412.529 requires the calculation of an amount comparable to the amount that would otherwise be paid under the IPPS (i.e., the "IPPS comparable amount."). This calculation includes an "IPPS Comparable" DSH adjustment, where applicable, that is determined using the best available SSI data at the time of claim payment (See 42 CFR 412.529(d)(4)).
