**SUBJECT: MCS Prepayment Review Report**

**I. SUMMARY OF CHANGES:** Medicare Administrative Contractors, Zone Program Integrity Contractors and Recovery Audit Contractors perform Prepayment Review on Medicare Claims. Prepayment review impacts a provider's cash flow and may cause financial issues that are brought forward to CMS. CMS needs to have knowledge of the prepayment reviews occurring to monitor and administer the program. This CR will create a report in MCS that lists all claims chosen for prepayment review by system edits implemented by the contractors and/or CMS.

## I. GENERAL INFORMATION

**A. Background:** Medicare contractors conduct prepayment review on Medicare providers through system edits implemented by the contractors and/or CMS. At times, these reviews impact a provider financially and this is brought to the attention of CMS. CMS needs to have awareness of the prepayment reviews being completed. This CR creates a report/flat file that can be uploaded to the CMS RAC Data Warehouse so that this information is readily available to CMS. This report/flat file shall include all claims chosen for prepayment review by system edits implemented by the Contractors and/or CMS. The report shall also identify which Contractor performed the review.

**B. Policy:** Medical review authorities can be found in Section 1893 of the Social Security Act.
