III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC statement of Work. The contractor is not obliged to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: Inpatient Prospective Payment System (IPPS) Hospital Extensions per the Pathway for SGR Reform Act of 2013

EFFECTIVE DATE: October 1, 2013

IMPLEMENTATION DATE: April 7, 2014

I. GENERAL INFORMATION

A. Background:

On December 26, 2013, President Obama signed into law the Pathway for SGR Reform Act of 2013. The new law includes the extension of certain provisions of the *Affordable Care Act*. Specifically, the following Medicare fee-for-service policies have been extended through March 31, 2014.

<u>Hospitals</u> The *Affordable Care Act* provided for temporary changes to the low-volume hospital adjustment for FYs 2011 and 2012. To qualify, the hospital must have less than 1,600 Medicare discharges and be 15 miles or greater from the nearest like hospital. The temporary changes to the low-volume hospital adjustment were extended for FY 2013 by the *American Taxpayer Relief Act*. This provision of the Pathway for SGR Reform Act extends the temporary changes to the low-volume payment adjustment through March 31, 2014, retroactive to October 1, 2013.

<u>Section 1106 - Extension of the Medicare-Dependent Hospital (MDH) Program</u> - The MDH program provides enhanced payment to support small rural hospitals for which Medicare patients make up a significant percentage of inpatient days or discharges. This provision of the Pathway for SGR Reform Act extends the MDH program until March 31, 2014, and is retroactive to October 1, 2013.

B. Policy:

<u>Low-Volume Hospitals – Criteria and Payment Adjustments for FY 2014</u>

Sections 3125 and 10314 of the Affordable Care Act amended the low-volume hospital adjustment in section 1886(d)(12) of the Act by revising, for FYs 2011 and 2012, the definition of a low-volume hospital and the methodology for calculating the low-volume payment adjustment. These amendments were extended for FY 2013 by section 605 of the American Taxpayer Relief Act (ATRA). Prior to the recently enacted Pathway for SGR Reform Act of 2013, beginning with FY 2014, the low-volume hospital qualifying criteria and payment adjustment had returned to the statutory requirements that were in effect prior to the amendments made by the Affordable Care Act and the ATRA. Section 1105 of the Pathway for SGR Reform Act of 2013 extends, for FY 2014 discharges occurring before April 1, 2014, the temporary changes in the low-volume hospital payment policy provided for by the Affordable Care Act, as amended by the ATRA. CMS implemented the changes to the low-volume payment adjustment provided by the Affordable Care Act and the ATRA in the regulations at § 412.101 in the FY 2011 IPPS/LTCH PPS final rule (75 FR 50238 through 50275) and the FY 2014 IPPS/LTCH PPS final rule (78 FR 50611 through 50613).

To implement the extension of the temporary change in the low-volume hospital payment policy for FY 2014 discharges occurring before April 1, 2014 provided for by section 1105 of the Pathway for SGR Reform Act of 2013, in accordance with the existing regulations at § 412.101(b)(2)(ii) and consistent with our implementation of the low-volume hospital payment adjustment in FYs 2011 through 2013, CMS

published an interim final rule with comment (IFC) in the Federal Register (CMS 1599-IFC2) updating the discharge data source used to identify qualifying low-volume hospitals and calculate the payment adjustment (percentage increase) for FY 2014 discharges that occur before April 1, 2014.

In that IFC, CMS established that for FY 2014 discharges occurring before April 1, 2014, the low-volume payment adjustment is determined using FY 2012 Medicare discharge data from the March 2013 update of the MedPAR files. In Table 14 of the Addendum to that IFC, CMS provides a list of the IPPS hospitals with fewer than 1,600 Medicare discharges based on the March 2013 update of the FY 2012 MedPAR files. However, this list of IPPS hospitals with fewer than 1,600 Medicare discharges is not a listing of the hospitals that qualify for the low-volume adjustment for FY 2014 discharges occurring before April 1, 2014 since it does not reflect whether or not the hospital meets the mileage criterion (that is, to qualify for the low-volume adjustment, the hospital must also be located more than 15 road miles from any other IPPS hospital). In order to receive the applicable low-volume hospital payment adjustment (percentage increase) for FY 2014 discharges occurring before April 1, 2014, a hospital must meet both the discharge and mileage criteria.

In order to receive a low-volume hospital payment adjustment for FY 2014 discharges occurring before April 1, 2014, consistent with the previously established procedure, CMS is continuing to require a hospital to notify and provide documentation to its MAC that it meets the mileage criterion. Specifically, a hospital must make its request for low-volume hospital status in writing to its MAC and provide documentation that it meets the mileage criterion, so that the applicable low-volume percentage increase is applied to payments for its discharges occurring on or after October 1, 2013 (that is, the beginning of FY 2014). The MAC must be in receipt of the hospital's written request by March 31, 2014, in order for the effective date of the hospital's low-volume hospital status to be October 1, 2013. A hospital that qualified for the low-volume payment adjustment in FY 2013 may continue to receive a low-volume payment adjustment for FY 2014 discharges occurring before April 1, 2014, without reapplying, if it continues to meet the Medicare discharge criterion, based on the FY 2012 MedPAR data (shown in Table 14 of the IFC (available on the Internet as noted below)) and the distance criterion. However, the hospital must verify in writing to its MAC that it continues to be more than 15 miles from any other "subsection (d)" hospital no later than March 31, 2014. For requests for low-volume hospital status for FY 2014 discharges occurring before April 1, 2014 received after March 31, 2014, if the hospital meets the criteria to qualify as a low-volume hospital, the MAC will establish a low-volume hospital status effective date that would be applicable prospectively within 30 days of the date of the MAC's low-volume status determination, consistent with our historical policy. However, given the timing of this partial year extension of the temporary changes to the low-volume hospital payment adjustment, which expires March 31, 2014, any applicable low-volume payment adjustment will not be applied in determining payments to the hospital's FY 2014 discharges occurring before April 1, 2014 since our policy does not provide for retroactive effective dates. However, in anticipation of a future subsequent extension, the MAC should process those requests and send a letter to the hospital indicating that although the provider meets the low-volume hospital criteria for FY 2014 set forth at \(\) 412.101(b)(2)(ii), the those provisions are expired under current law. In the event the temporary changes to the low-volume hospital payment adjustment is subsequently extended, then the MAC can establish the effective date as 30 days from the date of the letter.

MACs will verify that the hospital meets the discharge criteria by using the Medicare discharges based on the March 2013 update of the FY 2012 MedPAR files as shown in Table 14 of the IFC (CMS-1599-IFC2) and available on the Internet at http://www.cms.hhs.gov/AcuteInpatientPPS/01_overview.asp (click on the link on the left side of the screen titled, "FY 2014 IPPS Final Rule Home Page"). (We note that in order to facilitate administrative implementation, the only source that CMS and the MACs will use to determine the number of Medicare discharges for purposes of the low-volume payment adjustment for FY 2014 discharges occurring before April 1, 2014 is the data from the March 2013 update of the FY 2012 MedPAR file.)

The MAC shall notify CMS Central Office – Baltimore, CM/HAPG/DAC, Michele Hudson and Maria Navarro, of any changes or additions to IPPS hospitals that qualify as a low-volume hospital and the effective date of the determination for discharges occurring in FY 2014 by May 15, 2014. The notification may be sent via e-mail to Michele.Hudson@cms.hhs.gov and Maria.Navarro@cms.hhs.gov, and shall

include:

- hospital's name,
- provider number,
- address (street, city, state and zip code),
- number of Medicare discharges,
- distance to the nearest IPPS hospital (as well as that hospital's address: street, city, state and zip code) by which the hospital qualified for low-volume status, and
- effective date of the low-volume hospital determination

For low-volume hospital requests received after March 31, 2014, MACs shall notify CMS Central Office as above within 15 days of the determination.

In order to implement this policy for FY 2014, the Pricer will include a table containing the provider number and discharge count determined from the March 2013 update of the FY 2012 MedPAR file. The discharge count includes any billed Medicare Advantage claims in the MedPAR file but excludes any claims serviced in non-IPPS units. The table in Pricer includes IPPS providers with fewer than 1,600 Medicare discharges but does not consider whether the IPPS hospital meets the mileage criterion (that is, located more than 15 road miles from the nearest IPPS hospital).

The existing low-volume indicator field on the Provider Specific File (position 74 on the PSF – temporary relief indicator) must be updated by the MAC to hold a value of "Y" if the provider qualifies for a low-volume payment adjustment for FY 2014 discharges occurring before April 1, 2014, by meeting **both the discharge and mileage criteria** set forth at§ 412.101(b)(2)(ii). Any hospital that does not meet either the discharge or mileage criteria is not eligible to receive a low-volume payment adjustment for FY 2014 discharges occurring before April 1, 2014, and the MAC must update the low-volume indicator field on the Provider specific file (position 74 on the PSF – temporary relief indicator) to hold a value of "blank".

The applicable low-volume payment adjustment (percentage increase) is based on and in addition to all other IPPS per discharge payments, including capital, DSH, uncompensated care, IME and outliers. For SCHs and MDHs, the applicable low-volume percentage increase is based on and in addition to either payment based on the Federal rate or the hospital-specific rate, whichever results in a greater operating IPPS payment.

Reinstatement of Medicare Dependent Hospital status

Under section 3124 of the Affordable Care Act, the MDH program authorized by section 1886(d)(5)(G) of the Act was set to expire at the end of FY 2012. These amendments were extended for FY 2013 by section 606 of the American Taxpayer Relief Act. Prior to the recently enacted Pathway for SGR Reform Act of 2013, the MDH program was set to expire at the end of FY 2013. As part of the Pathway for SGR Reform Act of 2013, Congress reinstated the MDH program which had expired as of October 1, 2013

Section 1106 of the Pathway for SGR Reform Act of 2013 extends the MDH program through March 31, 2014. CMS implemented the extension of the MDH program provided by the Affordable Care Act and the ATRA in the regulations at § 412.108 in the FY 2011 IPPS/LTCH PPS final rule (75 FR 50287) and the FY 2014 IPPS/LTCH PPS final rule (78 FR 50647 through 50649), respectively.

Consistent with our implementation of the MDH program extension in FY 2013, generally, providers that were classified as MDHs as of the date of expiration of the MDH provision will be reinstated as MDHs

effective October 1, 2013 with no need to reapply for MDH classification. There are two exceptions:

a. MDHs that classified as Sole-Community Hospitals (SCHs) on or after October 1, 2013

In anticipation of the expiration of the MDH provision, CMS allowed MDHs that applied for classification as an SCH by August 31, 2013, to be granted such status effective with the expiration of the MDH program. Hospitals that applied in this manner and were approved for SCH classification received SCH status as of October 1, 2013. Additionally, some hospitals that had MDH status as of the September 30, 2013 expiration of the MDH program may have missed the August 31, 2013 application deadline. These hospitals applied for SCH status in the usual manner instead and may have been approved for SCH status effective 30 days from the date of approval resulting in an effective date later than October 1, 2013.

b. MDHs that requested a cancellation of their rural classification under § 412.103(b)

In order to meet the criteria to become an MDH, a hospital must be located in a rural area. To qualify for MDH status, some MDHs may have reclassified as rural under the regulations at § 412.103. With the expiration of the MDH provision, some of these providers may have requested a cancellation of their rural classification.

Any provider that falls within either of the two exceptions listed above will not have its MDH status automatically reinstated retroactively to October 1, 2013. All other former MDHs will be automatically reinstated as MDHs effective October 1, 2013. Providers that fall within either of the two exceptions will have to reapply for MDH classification in accordance with the regulations at 42 CFR 412.108(b) and meet the classification criteria at 42 CFR 412.108(a). Specifically, the regulations at § 412.108(b) require that:

- 1. The hospital submit a written request along with qualifying documentation to its contractor to be considered for MDH status (§ 412.108(b)(2)).
- 2. The contractor make its determination and notify the hospital within 90 days from the date that it receives the request for MDH classification (§ 412.108(b)(3)).
- 3. The determination of MDH status be effective 30 days after the date of the contractor's written notification to the hospital (§ 412.108(b)(4)).

We note, given the timing of this partial year extension of the MDH program, the current regulations governing the cancellation of SCH status § 412.92(b)(4), the request for rural reclassification under § 412.103, and the effective date of MDH classification at § 412.108(b) may not allow for sufficient time for hospitals that have reclassified as SCHs or canceled their rural status in anticipation of the expiration of the MDH program to cancel their SCH status or request rural reclassification and then reapply and be approved for MDH status. These regulations may not allow for sufficient time for a hospital seeking to classify as an MDH to be approved prior to the March 31, 2014 expiration of the MDH program.

Cancellation of MDH status

As required by the regulations at § 412.108(b)(5), contractors must "evaluate on an ongoing basis" whether or not a hospital continues to qualify for MDH status

Therefore, as required by the regulations at § 412.108(b)(5) and (6), the contractors shall ensure that the hospital continues to meet the MDH criteria at § 412.108(a) shall notify any MDH that no longer qualifies for MDH status. The cancellation of MDH status will become effective 30 days after the date the contractor provides written notification to the hospital.

It is important to note that despite the fact some providers might no longer meet the criteria necessary to be classified as MDHs, these providers could qualify for automatic reinstatement of MDH status retroactive to October 1, 2013 (unless they meet either of the two exceptions for automatic reinstatement as explained

above) and would subsequently lose their MDH status prospectively.

Attachment 1 outlines the various possible actions to be followed for each former MDH and the corresponding examples for each scenario.

Notification to CMS

As part of this CR, we have included (**Attachment 2**) a listing with the following data for all providers that were classified as MDHs at the time the MDH provision expired (i.e., October 1, 2013):

- a. CCN/Provider number
- b .Provider name
- c. Medicare Contractor

The contractor shall take appropriate action as described above for each provider in the listing for which they are responsible. The contractor shall then complete the listing for each provider and provide CMS with the following data:

- d. Notification sent to provider? Select Yes/No from drop down list
- e. Action taken Select appropriate action taken from the drop down list
- f. & g. dates if applicable
- h. Explanation for action taken/comments

The completed listing shall be emailed to Shevi.Marciano@cms.hhs.gov and Maria.Navarro@cms.hhs.gov.

Notification to Provider

Each contractor shall notify each affected provider shown in the listing under their jurisdiction. A draft of such letter is attached (**Attachment 3**) to this CR with text corresponding to each of the 6 scenarios outlined above. Each FI/MAC shall add to each letter, information specific to that provider regarding how it is affected by the MDH program extension, that is, notifying the provider of its status under the extension of the MDH program. The status of each former MDH will either be:

- 1. MDH status reinstated effective October 1, 2013.
- 2. MDH status not reinstated; additional action required by the provider in order to be classified as an MDH:

Provider must request a cancellation of SCH status or submit a request for rural classification under § 412.103. Provider will then have to reapply for MDH status in accordance with the regulations under § 412.108(b).

1. MDH status reinstated and then subsequently canceled due to the provider not continuing to meet the criteria for MDH classification under the requirements at § 412.108(b) (5).

Hospital Specific (HSP) Rate Update for MDHs

For the payment of FY 2014 discharges occurring before April 1, 2014, the Hospital Specific (HSP) amount for MDHs in the PSF will continue to be entered in FY 2012 dollars (just as was done for SCHs as instructed in CR 8241 (Transmittal 2778; August 30, 2013)). PRICER will apply the cumulative

documentation and coding adjustment factor for FYs 2011 - 2013 of 0.9480 and make all updates to the HSP amount for FY 2013 and beyond.

In addition, as noted in CR 8241, the HSP logic in Pricer has been updated, consistent with the implementation of the statutory changes to the operating DSH payment methodology provided by the provisions of section 3133 of the Affordable Care Act, to include the empirically justified DSH payment and the estimated uncompensated care payment in the Federal rate payment amount, if applicable, when comparing the HSP rate payment amount to the Federal rate payment amount. This logic applies in determining the payment amount for both SCHs and MDHs.

II. BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

Number	Requirement	Responsibility									
			A/E	3	D		Sha	red-		Other

Pre-Implementation Contact(s): Michele Hudson, michele.hudson@cms.hhs.gov, Shevi Marciano, shevi.marciano@cms.hhs.gov, Sarah Shirey-Losso, sarah.shirey-losso@cms.hhs.gov, Maria Navarro, maria.navarro@cms.hhs.gov

Post-Implementation Contact(s): Contact your Contracting Officer's Representative (COR) or Contractor Manager, as applicable.

VI. FUNDING

Section A: For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS do not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

Attachment 1—CR 8627

If the provider was classified as an MDH as of the September 30, 2013		
expiration of the MDH provision		
and the provider	Then	Example #
Did not reclassify as an SCH since		
October 1, 2013 and is still classified	MDH status will be automatically reinstated to	
as a rural provider	October 1, 2013.	1
Reclassified as an SCH immediately		
following the expiration of the MDH	The provider's MDH status will not be	
provision with SCH status effective	automatically reinstated and the provider will have	
October 1, 2013	to reapply for MDH classification (§412.108(b)).	2
	The provider's MDH status will be reinstated,	
Reclassified as an SCH, but the	effective October 1, 2013 for the portion of time	
effective date of SCH status was a	during which it was not classified as an SCH. The	
date after October 1, 2013 and prior	provider's MDH status will be cancelled effective	
to the effective date of the MDH	with the effective date of its SCH status. The	
program extension on December 26,	provider will have to reapply for MDH classification	
2013	(§412.108(b)).	3
	The provider's MDH status will not be	
Cancelled its rural classification	automatically reinstated and the provider will have	
under §412.103 effective October 1,	to reapply for rural classification (§412.103(b)) and	
2013	then reapply for MDH classification (§412.108(b)).	4
	The provider's MDH status will be reinstated for	
Cancelled its rural classification	the portion of time during which it was classified as	
under §412.103, but the effective	rural. The provider's MDH status will then be	
date of the rural status cancellation	cancelled effective with the date that its rural	
was a date after October 1, 2013 and	classification cancellation became effective. The	
prior to the effective date of the	provider will have to reapply for rural classification	
MDH program extension on	(§412.103(b)) and then reapply for MDH	
December 26, 2013	classification (§412.108(b)).	5
Did not reclassify as an SCH and is	MDH status will be automatically reinstated to	
still classified as a rural provider but	October 1, 2013. The contractor will then notify	
has a Medicare utilization rate < 60%	the provider that it no longer meets MDH criteria	
in the 3 most recently settled cost	and will cancel MDH status in accordance with the	
reports	regulations at §412.108(b)(6).	6

Examples:

<u>Example 1</u>: Hospital A was classified as an MDH prior to the September 30, 2013 expiration of the MDH program. Hospital A retained its rural classification and did not reclassify as an SCH. Hospital A's MDH status will be automatically reinstated to October 1, 2013.

<u>Example 2</u>: Hospital B was classified as an MDH prior to the September 30, 2013 expiration of the MDH program. In accordance with the regulations at §412.92(b)(2)(v) and in anticipation of the expiration of the MDH program, Hospital B applied for classification as an SCH by August 31, 2013, and was approved for SCH status effective on October 1, 2013. Hospital B's MDH status will not be automatically

Attachment 1—CR 8627

reinstated. In order to reclassify as an MDH, Hospital B must cancel its SCH status, in accordance with §412.92(b)(4), and reapply for MDH status in accordance with the regulations at §412.108(b).

Example 3: Hospital C was classified as an MDH, prior to the September 30, 2013 expiration of the MDH program. Hospital C missed the application deadline of August 31, 2013 for reclassification as an SCH under the regulations at §412.92(b)(2)(v) and was not eligible for its SCH status to be effective as of October 1, 2013. Hospitals C's Medicare contractor approved its classification request for SCH status effective November 16, 2013. Hospital C's MDH status will be reinstated but only for the portion of time in which they met the criteria for MDH status. Hospital C's MDH status will be reinstated effective October 1, 2013 through November 15, 2013 and will be cancelled effective November 16, 2013. In order to reclassify as an MDH, Hospital C must cancel its SCH status, in accordance with §412.92(b)(4), and then reapply for MDH status in accordance with the regulations at §412.108(b).

Example 4: Hospital D was classified as an MDH prior to the September 30, 2013 expiration of the MDH program. In anticipation of the expiration of the MDH program, Hospital D requested that its rural classification be cancelled in accordance with the regulations at §412.103(g). Hospital D's rural classification was cancelled effective October 1, 2013. Hospital D's MDH status will not be automatically reinstated. In order to reclassify as an MDH, Hospital D must request to be reclassified as rural under §412.103(b) and must reapply for MDH status under §412.108(b).

Example 5: Hospital E was classified as an MDH prior to the September 30, 2013 expiration of the MDH program. In anticipation of the expiration of the MDH program, Hospital E requested that its rural classification be cancelled in accordance with the regulations at §412.103(g). Hospital E's rural classification was cancelled effective December 26, 2013. Hospital E's MDH status will be reinstated but only for the portion of time in which they met the criteria for MDH status. Since Hospital E cancelled its rural status and became urban effective December 26, 2013, MDH status will only be reinstated effective October 1, 2013 through December 25, 2013 and will be cancelled effective December 26, 2013. In order to reclassify as an MDH, Hospital E must request to be reclassified as rural under §412.103(b) and must reapply for MDH status under §412.108(b).

<u>Example 6</u>: Hospital F was classified as an MDH prior to the September 30, 2013 expiration of the MDH provision. The hospital's Medicare contractor found that Hospital F had a Medicare utilization rate of less than 60 percent in all three of the most recently settled cost reports. Hospital F did not reclassify as an SCH nor did it drop its rural status with the expiration of the MDH provision. In this case, Hospital F's contractor will automatically reinstate its MDH status retroactive to October 1, 2013. The contractor will then notify Hospital F that it no longer qualifies for MDH status. The change in Hospital F's status (i.e., disqualification from MDH status) will become effective 30 days after the date the contractor's written notification to Hospital F.

Re: Section 1106 of the Pathway for SGR Reform Act of 2013 of the Medicare-Dependent, Small Rural Hospital Program

Provider Name:

CMS Certification Number(CCN): xx-xxxx

Dear {contact name},

As part of the Pathway for SGR Reform Act of 2013, Congress reinstated the Medicare Dependent Hospital (MDH) program which had expired as of October 1, 2013 through March 31, 2014. Generally, providers that were classified as MDHs prior to the expiration of the MDH provision will be reinstated as MDHs effective October 1, 2013 with no need to reapply for MDH classification. This letter serves as notification regarding {Provider Name's} MDH status.

<Insert any of the following paragraphs, as applicable:>

- 1. <{Provider Name} will be reinstated to MDH status effective October 1, 2013. No additional action is required on your part.>
- 2. <{Provider Name} had requested classification for SCH status and was approved effective October 1, 2013. This SCH classification precludes {Provider Name} from being reinstated as an MDH. Therefore, in order to be classified as an MDH, {Provider Name} must request a cancellation of its SCH status in accordance with the regulations at 42 CFR 412.92(b)(4) and then reapply for MDH classification in accordance with the regulations at 42 CFR 412.108(b).>
- 3. < {Provider name} requested classification for SCH status and was approved effective {effective date after 10/01/2013 and before 12/26/13. {Provider Name's} MDH status will be reinstated effective October 1, 2013 through {enter date of day immediately prior to effective date of SCH classification} and will be cancelled effective {enter effective date of SCH classification}. In order to be classified as an MDH, {Provider Name} must request a cancellation of its SCH status in accordance with the regulations at 42 CFR 412.92(b)(4) and reapply for MDH classification in accordance with the regulations at 42 CFR 412.108(b).>
- 4. <{Provider Name} requested a cancellation of its rural status under 42 CFR 412.103 and was approved for the cancellation effective October 1, 2013. This cancellation precludes {Provider Name} from being reinstated as an MDH. Therefore, in order to be classified as an MDH, {Provider Name} must submit a request for reclassification as a rural hospital under the regulations at 42 CFR 412.103 (b) then and reapply for MDH classification in accordance with the regulations at 42 CFR 412.108(b).>

- 5. < {Provider name} requested a cancellation of its rural status under 42 CFR 412.103 and was approved for the cancellation effective {effective date after 10/01/2012 and before 12/26/13. {Provider Name's} MDH status will be reinstated effective October 1, 2013 through {enter date of day immediately prior to effective date of cancellation of rural classification} and will be cancelled effective {enter effective date of cancellation of rural classification}. In order to be classified as an MDH, {Provider Name} must submit a request for reclassification as a rural hospital under the regulations at 42 CFR 412.103 (b) and then reapply for MDH classification in accordance with the regulations at 42 CFR 412.108(b).>
- 6. <This letter serves as notification that {Provider Name} will be reinstated to MDH status effective October 1, 2013. However, it has come to our attention that {Provider Name} no longer meets the criteria for MDH status under 42 CFR 412.108(a)(1)(iii)(C). Based on {enter Medicare utilization during applicable cost reporting periods}, {Provider Name} has {enter the percentage of days/discharges} and consequently does not meet the 60% Medicare inpatient utilization requirement in at least two of the last three most recent settled cost report for which the hospital has a settled cost report. Therefore, {Provider Name's} MDH classification will be cancelled effective {date = 30 days from date of notification}.

Under the regulations at 42 CFR 412.108(b)(7), in order to be reclassified as an MDH, a hospital may reapply only after another cost report has been audited and settled.>

If you have any questions, please contact me at {insert phone number}.

Sincerely,
