

**Recommended Skilled Nursing Facility Therapy Student Supervision Guidelines**

**Submitted to CMS by the American Physical Therapy Association (APTA)**

**during the comment period for the FY 2012 SNF PPS Final Rule**

**Please note, these suggested guidelines would be in addition to the student supervision guidelines outlined in the RAI MDS 3.0 Manual and all relevant Federal Regulations**

- The amount of supervision must be appropriate to the student's level of knowledge, experience, and competence.
- Students who have been approved by the supervising therapist or assistant to practice independently in selected patient/client situations can perform those selected patient/client services specified by the supervising therapist/assistant.
- The supervising therapist/assistant must be physically present in the facility and immediately available to provide observation, guidance, and feedback as needed when the student is providing services.
- When the supervising therapist /assistant has cleared the student to perform medically necessary patient/client services and the student provides the appropriate level of services, the services will be counted on the MDS as skilled therapy minutes.
- The supervising therapist/assistant is required to review and co-sign all students' patient/client documentation for all levels of clinical experience and retains full responsibility for the care of the patient/client.
- Therapist assistants can provide instruction and supervision to therapy assistant students so long as the therapist assistant is properly supervised by the therapist.
