

**Second National Medicare Fee-For-Service (FFS) Provider Education Call on HIPAA Version 5010
August 26, 2009**

The Centers for Medicare & Medicaid Services (CMS) presented the second in a series of national provider training calls on Medicare's Fee-For-Service (FFS) implementation of HIPAA Version 5010. **The target audiences for this call was clearinghouses and billing software vendors.** The topic for this call was error handling transactions (TA1, 999, and 277CA). The discussion covered CMS' planned use of each transaction, including rules and exceptions, for the Medicare FFS program. A presentation was given and Subject Matter Experts answered questions specific to Medicare.
