I. GENERAL INFORMATION

A. Background: The HH Grouper assigns each claim into a Home Health Resource Group (HHRG) based on the reported claim and patient assessment information, including diagnosis codes. The International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) code set is updated annually, effective October 1. Each year, the Grouper contractor, 3M Health Information Systems (3M-HIS), develops a new HH Grouper software package to reflect these updates.

Additional HH Grouper updates may be needed in quarterly releases when HH rulemaking changes the case-mix grouping policies or if additional ICD-10-CM diagnosis codes are created throughout the year. Change Request (CR) 12940 provided the January 2023 update to correspond with the HH final rule for calendar year 2023. This CR provides the April 2023 update to reflect new diagnosis codes.

The HH Grouper and related documentation for each update is located on the Centers for Medicare & Medicaid Services (CMS) webpage at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HomeHealthPPS/CaseMixGrouperSoftware>. Current instructions regarding the HH Grouper are available in the Claims Processing Manual publication 100-04, chapter 10, section 80.

B. Policy: Version 04.1.23 of the HH Grouper shall be effective for claim From dates on or after April 1, 2023.
