ABOUT THIS MANUAL

This manual provides information and instructions pertaining to the Inpatient Rehabilitation Facility - Patient Assessment Instrument (IRF-PAI) System for facility users who are required to submit IRF-PAI data. This system enables you to connect electronically to the National Assessment Collection Database, transmit IRF-PAI records, and receive feedback via the system for your facility. This manual is intended to be used as a reference and learning tool for the IRF-PAI System.

HOW THIS MANUAL IS ORGANIZED

This user's manual is organized into five sections as follows:

- C Section 1, **Introduction**, provides general information about this manual, its organization, and document conventions.
- C Section 2, **Overview**, introduces the IRF-PAI System environment to include activities that take place during the submission cycle.
- C Section 3, **System Functions**, provides an overview of the IRF-PAI Submission processes.
- C Section 4, **Troubleshooting**, addresses what to do if you need assistance with the system, as well as, suggestions for troubleshooting.
- C Section 5, **Glossary**, is a list of acronyms with correlating words and a glossary of terms used in manual.

CONVENTIONS USED IN THIS MANUAL

This manual uses the following conventions:

Point and Click

Point - move the mouse until the tip of the mouse pointer rests on what you want to choose on the window (such as in a field or on specified text)

Click - press and release the left mouse button without moving the mouse to select an item or execute a desired activity (such as going to another window).

Double Click

Click the left mouse button twice in rapid succession to select a file or execute an activity.

Bold

Identifies words, characters, or commands that a user types on a window or key strokes.

Italics

Identifies directory, path, file, or field names or book titles.

Underlined

Identifies the “title” of a link to another window.

Initial Letter Capitalized

Identifies screen or window title.

○ *Precedes a note or suggestion to the user.*

Right Click

Press and release the right mouse button.

Icons

Icons for specific software functions are used where applicable and available.
