

Closing Remarks *Stacey Plizga, PRI*

Stacey Plizga: Then I have some closing remarks to share with everyone, so hang on with me for just a moment. Okay. First of all, to obtain your CEU credits for today's event, please refer to page 17 in the conference guide, and that is posted on the CTEO website. And that will tell you how to get those credits.

Additionally, this conference will provide participants with the opportunity to earn HCCA CCB CEUs. So, please refer, again, to the CTEO website for information on how to obtain those credits. So, we have lots of credits available for today, so please take advantage of that.

For our in-house audience, when you are exiting, if you could please just drop your badges at the table out front and we will recycle those. So, I wanted to mention that. And then we would like to thank, of course, our presenters for their time and dedication, and, of course, all of our in-house and our web guests for your participation today. I think it's time for me to call it a day also, but thank you all very much. You guys have a great day.

And if you would like to complete the event survey, so evaluating the entire event for today, go ahead and select "A," you will get a link, and you can evaluate that survey -- evaluate -- use that survey to evaluate this event on your way out. So, we would appreciate your feedback there. And everyone have a fabulous day. And thank you so much.
