SUBJECT: Changes to the Laboratory National Coverage Determination (NCD) Edit Software for January 2018

EFFECTIVE DATE: October 1, 2017 - - Unless otherwise noted **Unless otherwise specified, the effective date is the date of service.* **IMPLEMENTATION DATE: January 2, 2018**

I. GENERAL INFORMATION

A. Background: This transmittal announces the changes that will be included in the January 2018 quarterly release of the edit module for clinical diagnostic laboratory services. The National Coverage Determinations (NCDs) for clinical diagnostic laboratory services were developed by the laboratory negotiated rulemaking committee, and the final rule was published on November 23, 2001. Nationally uniform software was developed and incorporated in the Medicare shared systems so that laboratory claims subject to one of the 23 NCDs (Publication 100-03, Sections 190.12 - 190.34) were processed uniformly throughout the nation effective April 1, 2003.

B. Policy: In accordance with Chapter 16, §120.2, Publication 100-04, the laboratory edit module is updated quarterly as necessary to reflect ministerial coding updates and substantive changes to the NCDs developed through the NCD process. The changes are a result of coding analysis decisions developed under the procedures for maintenance of codes in the negotiated NCDs and biannual updates of the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) codes. This instruction communicates requirements to Shared System Maintainers (SSMs) and contractors notifying them of changes to the laboratory edit module to update it for changes in laboratory NCD code lists for January 2018.
