1 Introduction

This user guide provides the information necessary for Centers for Medicare & Medicaid Service (CMS) users with appropriate permissions governed by the user management rules to effectively use the features and processes in the Rate Review module, which covers a market-wide audience including Marketplace (Federally Facilitated Marketplace, FFM) and non-Marketplace users.

2 Referenced Documents

The Center for Consumer Information and Insurance Oversight (CCIIO) has provided additional information detailing specific policy and submission criteria for each section of the Rate Review module on the CCIIO webpage. In addition, specific instructions are posted on the CCIIO webpage to aid issuers. Please use the following link for more information:
<http://cciio.cms.gov/programs/exchanges/qhp.html>.

3 Overview

Section 2794 of the Public Health Service Act (PHS Act), as added by the Patient Protection and Affordable Care Act (ACA), establishes a process for the annual review of an unreasonable increase in premiums for health insurance coverage. The Center for Medicaid and Medicare Services (CMS) issued a final rule, the “Rate Increase Disclosure and Review” (Rate Review rule) (codified at 45 C.F.R. §§ 154.101-154.301) implementing section 2794 of the PHS Act.

This user guide explains how health insurance issuers and state reviewers will use the Rate Review module to submit and review information and provide step-by-step instructions for all of the issuer and state system features and functionalities available in the Rate Review system.

3.1 Conventions

This document provides screen prints and corresponding narratives to describe how to use the Rate Review module’s process and functionality.

NOTE: The term user is used throughout this document to refer to a person who requires and/or has acquired access to any functionality contained in the Rate Review module.

Fields or buttons to be acted upon are indicated in **bold** text. Grayed out fields are considered read only, and the default values cannot be changed.

4 Getting Started

This section provides information about set-up and system access.

4.1 Set-Up Considerations

CMS screens are designed to be viewed at a minimum screen resolution of 1024 x 768 based on Health and Human Services (HHS) standards. To optimize your access to the Plan Management (PM) system:

1. Please *disable pop-up blockers* prior to attempting access to the Rate Review system.
2. Use the following browser for optimum usability:
 - Internet Explorer, Versions 9 and 10
 - Firefox, Version 28
 - Chrome, Version 33
3. Recommended Excel Versions include 2007 and 2010.

4.2 User Access Considerations

A variety of users will be credentialed to use this system. This type of credentialing can include limiting the user to only entering data, only viewing data, only approving data, or a combination of these or other requests, as necessary. Documentation for requests and access will be retained by security for reporting and auditing purposes.

Each authorized user will be credentialed and limited to specific work environments within the system. Should an authorized user require access to additional work environments, a request should be submitted to security to set up, grant and/or revoke privileges, and retain documentation for system access.

User restrictions to the system include rules such as a user entering data cannot approve the same data or a user who approves the data cannot enter or update the same data.

4.3 Accessing the System

All Federally-Facilitated Marketplace (FFM) users require a CMS Enterprise Portal ID and Health Insurance Oversight System (HIOS) user role to access the system.

4.4 System Organization and Navigation

This module allows issuers to submit all necessary information using a web-based user interface and Excel templates.

When a data submitter uploads the rates data and business rules data template XML file, the system validates the data on the template and the web-based sections of the application.

4.5 Exiting the System

To exit the system, click the Logout link located at the bottom right corner of the page header.

5 Using the System

The following sections provide instructions about using the various functions or features of the Rate Review Module.

Unified Rate Review Issuer Submitter Tabs

- **Rate Review Overview:** The Rate Review Overview tab provides a home page for Issuer Submitter and Issuer Validator users. On this page, additional submission tips can be found to help guide you to successfully submit a rate filing. In addition, the Unified Rate Review template is located on this page and must be completed as part of a system submission.
- **Create Submission:** The Create Submission tab provides a place to submit your rate filing into the system. You can create a submission for any state and issuer you are currently associated with.
- **View/Edit Submission:** The View/Edit Submission tab allows you to search for and view a submission summary of a previous or current submission. From the submission summary, you can view or edit previously submitted submissions. The submission summary screen allows you to see updates to the status of previously submitted review or access materials during your review.

Unified Rate Review Issuer Validator Tabs

- **Rate Review Overview:** The Rate Review Overview page provides a home page for Issuer Submitter and Validator users. On this page, additional submission tips can be found to help guide you through successfully submitting a rate filing. In addition, the Unified Rate Review template is located on this page and must be completed as part of a system submission.
- **View/Edit Submission:** The View/Edit Submission tab allows you to search for and provide a submission summary of a previous or current submission or to validate a new submission. From the Submission Summary screen, you can view or edit previous submissions. The Submission Summary screen allows you to see updates to the status of review or access materials that were previously submitted.

Unified Rate Review State User Tabs

- **Rate Review Overview:** The Rate Review Overview page provides a home page for State users. On this page, additional Reviewer tips can be found to help guide you to successfully conduct a review of rates. In addition, the Unified Rate Review template is located on this page and must be completed as part of a system submission.
- **Review Submissions:** The Review Submissions tab provides you with the search capability to find and review submissions for your associated state. Once selected, the submission will be viewable on the Submission Summary page, where you can access materials submitted by the issuer, update the status of a submission, add internal comments, request updated or supplemental materials, and review the threshold rate increase.
- **View Reports:** The View Reports tab provides you with system-generated reports for issuers within your associated state. The report provides valuable data on issuers, products, and users within your state.

5.1 Issuer – Rate Review Overview Page

The Rate Review Overview page, shown in Figure 1, allows you to view submission tips and access the Rate Review instructions and User Guide to help you complete your submission. You can also download a copy of the Unified Rate Review Template from this page.

5.3 Issuer – Submission Pending Validation Page

This page, shown in Figure 3, allows you, as the Issuer Submitter, to review all submission data and files that were submitted to the system. There is a note on the page that the record has been uploaded to the system and is pending validation.

Once the validation is complete, both the Issuer Submitter and Issuer Validator users will receive an e-mail notification stating whether or not the Unified Rate Review Template passed the system validations. If the template passed system validations, the Issuer Submitter or Issuer Validator can take additional actions on the submission. If the template failed the system validation, the submission will not be created in the system. The Issuer Submitter will receive a list of errors discovered in the Unified Rate Review Template and will need to address them before creating a new submission.

5.6 Issuer Validator – Edit Submission Summary Page

This page, shown in Figure 6, allows you, as an Issuer Validator user, to view or edit a submission. Only hyperlinks to the functionality for which you have permission, based on the

submission status and your user type, will be displayed on top of this page. An Issuer Validator cannot alter the Rate Filing Documentation submitted by an Issuer Submitter; therefore, if the Validator discovers any errors in this information, the Validator must instruct the Submitter to make the requested updates. Once the Rate Filing Documentation looks accurate and the submission is in a status of Pre-Validation, an Issuer Validator validates the submission on this page, triggering the beginning of the review. This page also serves as a submission summary page that displays all the metadata associated to a submission.

5.9 Issuer – View/Enter Consumer Justification Narratives

This page, shown in Figure 9, allows you to select a list of products and enter a Consumer Justification Narrative for a group of selected products. A Consumer Justification Narrative (Part II of the Rate Filing Documentation) is required for every product rate increase at or above a 10% threshold. If multiple products have the same rate increase, these products can be bundled together to share the same Consumer Justification Narrative. If there are multiple products with

different rate increases, a Consumer Justification Narrative must be provided for each rate increase. Every product with a rate increase above the review threshold must have a Consumer Justification Narrative associated with it before the Issuer Validator can validate a submission for review.

Figure 9 shows the Issuer – View/Enter Consumer Justification Narratives page.

5.12 State Reviewer – Rate Review Overview

State Reviewers will be responsible for conducting reviews of State Primary submissions; however, there could be instances where the State Reviewers will not be able to review and mark a disposition on Association products in a given market. In such cases, the submission will be set to “State Primary” Review type, but a Collaborative review will be enabled, whereby CMS conducts review of those Association products in a given market.

The Rate Review Overview page, shown in Figure 12, allows you to view reviewer tips and access some instructional materials to help you complete your review of a submission. You can also download a copy of the blank Unified Rate Review Template from this page.

5.14 State Reviewer – Submission Summary

After selecting a submission on the Submission Search page, you, as a State Reviewer, are directed to the Submission Summary page. This page allows you to view all data and documents associated to a submission. Only functionality available to the Reviewer given the submission's status is displayed on top of this page.

This page, shown in Figure 14, gives several pieces of Reviewer functionality. State Reviewers will only be able to conduct rate reviews on State Primary submissions in their state that contain rate increases above the threshold. A State Reviewer can set a submission to "Review in Progress" once it is in a status of "Submission Filed." Once a submission is in "Review in Progress," you can start leaving internal comments on this page to help keep notes on the submission. Once all of the product rate increases above the review threshold have been given a determination status, you can set the submission status to "Review Complete" on this page.

5.15 State Reviewer – Request Updated or Supplemental Materials

The purpose of this page, shown in Figure 15, is to allow you, as the State Reviewer, to request either Resubmission or Supplemental Materials.

Requesting resubmission puts the submission in a status of "Pending Resubmission" and allows the issuer to edit their Rate Filing Documentation information. When you request resubmission, the system requires the issuer to revalidate the submission and requires a new content assessment by CMS. When resubmission is requested, an email is sent to the associated issuer containing State Reviewer-provided Request Comments.

Requesting supplemental materials moves the submission to a status of "Pending Supplemental Materials" and allows the associated issuer to upload Supplemental Materials. Uploading Supplemental Materials does require issuer revalidation or CMS content assessment. When Supplemental Materials are requested, an email is sent to the associated issuer containing State Reviewer-provided Request Comments.

State Reviewers can only make requests for submissions that are State Primary and are in the correct status.

If the validation rules fail, an error message is displayed at the top of the page. If the validation rules pass, the actions are contingent upon the Request Type selected. If the Request Resubmission button is selected, an email is sent to the Issuer, and the submission is moved to a status of "Pending Resubmission". Request Comments are added to the Request Comments field on the reviewer Submission Summary page. If the Request Supplemental Materials button is selected, an email is sent to the Issuer, and the submission is moved to a status of "Pending Supplemental Materials". Reviewer Comments are added to the Request Comments field on the reviewer Submission Summary page.

5.16 State Reviewer – Review Rate Increases Splash Page

The Review Rate Increases Splash Page, shown in Figure 16, is visible after clicking the **Review** link for a submission on the State Reviewers Submission Summary page. This page allows you, as the State Reviewer, to choose a bundle of products, grouped under a Consumer Justification Narrative, for which to conduct or view the progress of a rate review. This page is only visible for submissions that contain product rate increases above the review threshold.

5.17 State Reviewer – Review Rate Increase Page

The purpose of this page, shown in Figure 17, is to allow you, as a State Reviewer, to conduct a rate review on products above the review threshold. As a State Reviewer, you cross-reference the Consumer Justification Narrative against the Rate Filing Documentation downloadable from the Submission Summary Page and make a determination on the bundle of products by selecting a "Review Status." If a user selects a "Modified" status, the user is required to enter a Modified Rate Change as well.

External comments to provide an explanation of the determination status selected are required in the case of every review.

Unreasonable Rate Increase Comments are entered by the issuer and, in the event of an unreasonable rate determination, optionally appear on the Review Rate Increase Rate Review page once an issuer responds.

This page can also be accessed for CMS Primary submissions in your state as view-only. Refer to Table 28 for additional information.

6 Templates

6.1 Unified Rate Review Template

The Unified Rate Review template is designed to capture information at the market level (worksheet 1 of the template) and information at the product and plan level (worksheet 2 of the template), consistent with the requirement to set premium rates using a single risk pool, as defined in 45 CFR Part 156, §156.80. Figure 19 shows worksheet 1, and Figures 20, 21 and 22 show worksheet 2, of the blank Unified Rate Review Template.

You can add products to the template on worksheet 2 by clicking the **Add Product** button. You will then be prompted to specify how many plans exist underneath that product. Additionally, you can select if you prefer to enter plan-specific information or to enter information averaged out at the product level. Once these selections have been made, data entry cells for the product will be added to Worksheet 2.

Additionally, you can validate the template by clicking the **Validate** button. This button scans the sheet and returns a set of values in the submission that may potentially be incorrect.

Lastly, you can finalize the template by clicking the **Finalize** button. Finalizing the template runs a final check on the values submitted and instructs you to fix any critical errors that would cause the template to fail validation. If no such errors exist, an .XML file is created containing the template data that will be submitted as part of your Rate Filing Documentation.

Specific cells in the template have values displayed up to predefined decimal points of precision; however, the value stored in the database will be the actual value that you entered in each cell. One exception to this is the Product Threshold Rate Increase % cells, which have the calculated value truncated to display two digits of percentage precision.

NOTE: Copying and pasting data into the template is not supported and can impact the template design and reported data. Pasting overwrites cell validation and formatting, which can cause formulas to calculate incorrectly and might allow invalid data into the template. Data that has been pasted can also produce unreliable results when the template is Validated and/or Finalized with the **Validate** and/or **Finalize** buttons to produce the output file required for a submission.
