

2017 CMS Navigator Grant Recipients

Navigators serve as a resource for Americans when shopping for and enrolling in health insurance through a Health Insurance Exchange.

Below are the 2017 CMS Navigator grant recipients in the 34 states with a Federally-facilitated Exchange (FFE), including those FFE states where the state performs plan management functions and states with a State Partnership Exchange, grouped by state. The table under each grantee organization provides information on which counties the grantee will serve and their target populations (as included in their grant application). As a reminder, Navigators are required to assist any consumer seeking assistance, even if that consumer is not a member of the community(ies) or group(s) the grantee expects to target, as outlined in their grant application. If applicable, the tables also include information on subgrantee/subrecipient organization(s) the grantee is working with.

The grant award amount listed under each state only applies to the amount awarded to an organization for Navigator activities in that particular state during the third and final 12-month budget period of the 36-month project period under the 2015 Navigator grant awards. Recipients marked with an asterisk (*) are funding to work in more than one state. The 2015 Navigator grants were awarded for a three year (36 month) project period, funded in 12-month increments known as budget periods. The third and final budget period which runs from September 13, 2017 through September 12, 2018.
