Marketplace News for Agents & Brokers

Live Now: Find Local Help Update

CMS has updated the [Find Local Help tool](#). This tool allows consumers looking for Marketplace assistance to search for nearby registered agents and brokers based on a ZIP code, city or state.

The update includes a new badge that shows the number or years you have been registered for the Marketplace, as shown below:

Assist Your Clients with Identity Proofing in the Marketplace

Consumers who fill out a Marketplace application need to provide specific information before they can enroll for the first time. Identity proofing is an important part of this process. Identity proofing is necessary only for consumers who are new to the Marketplace. Consumers returning for annual renewal during the Open Enrollment period, or consumers who experience a qualifying event to enroll in or change plans through a SEP do not have to recomplete identity proofing.

Identity Verification

The Marketplace verifies identity by asking a series of questions, based on information in your client's credit report maintained by a consumer reporting agency. These questions will depend upon the client's situation, but may include questions that only the client is likely to know the correct answer to, such as address history, a current or previous employer, or a previous phone number.

Successful Identity & Eligibility Verification

If your client passes the identity verification process, a "Privacy & Use of Your Information" page will appear. This page tells consumers how the Marketplace will use the information they

entered and that the Marketplace may access data from other sources to verify their information. Integrated systems will check consumers' eligibility by verifying consumer information with other entities, such as the Internal Revenue Service, Social Security Administration, and the Department of Homeland Security.

If your client wishes to continue with the application process, he or she should check the boxes at the bottom of this page to indicate agreement to have the Marketplace use and retrieve his or her information from these trusted data sources to verify the information provided on the application.

Unsuccessful Identity Verification

If the Marketplace cannot verify your client's identity, he or she will get a message to re-verify the information entered and try again. If that does not work, the Marketplace will direct your client to call the consumer reporting agency help desk at 1-(866) 578-5409 and provide the reference code shown on his or her Marketplace application screen.

If the consumer reporting agency help desk cannot verify your client's identity, he or she will need to upload documents to the Marketplace via his or her account on HealthCare.gov or mail copies of the requested documents to Health Insurance Marketplace, 465 Industrial Blvd, London, KY 40750-0001.

The Marketplace will process the information received and alert your client via written notice about the status of his or her identity verification within 7-10 business days following receipt of the documents, if not sooner.
