Considerations for Web-brokers (Individual Market)

- A senior official representing the web-broker entity must sign and submit to CMS/CCIIO a Web-broker API Agreement agreeing to comply with applicable privacy and security terms, as well as standards for connecting to the Federal Data Services Hub.

- In addition, a representative of the web-broker entity must register and complete the individual market training, exams, and the individual market agreements on MLN.

- Individual agents or brokers who are affiliated with a web-broker will not sign a Web-broker Agreement but must complete the registration steps required for the Individual Marketplace in which he or she is participating.
