I. EXECUTIVE SUMMARY

Background

Health Net Life Insurance Company (HNLI) is a Federally-facilitated Exchange (FFE) issuer that offered Preferred Provider Organization (PPO) qualified health plans (QHPs) in the individual market in Arizona during the 2014 benefit year. HNLI submitted their final restated 2014 benefit year data in their November 2016 Enrollment and Payment Data Workbook (EPDW). The issuer received a total of $43,715,420.26 in advance premium tax credit (APTC) and advance cost-sharing reduction (CSR) payments and paid a total of $2,636,440.59 in FFE user fees for its 2014 benefit year individual market plans.

This report presents the results of the work performed to assess HNLI’s compliance with the APTC, advance CSR, and FFE user fee programs established in sections 1311, 1401 and 1402 of the Patient Protection and Affordable Care Act (Pub. L. 111–148) enacted on March 23, 2010 and further amended and revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111–152) enacted on March 30, 2010 and implementing regulations (collectively referred to throughout as PPACA).

Audits to Determine Compliance with the Administration of APTC, Advance CSR, and FFE User Fee Programs

Title 45 of the Code of Federal Regulations (CFR), sections 156.480 and 156.705, allow the Department of Health and Human Services (HHS) to conduct audits of issuers that offer a QHP in the individual market through an Exchange to assess compliance with the APTC, advance CSR, and FFE user fee program requirements. The audit supports the Centers for Medicare & Medicaid Services (CMS) objectives to:

- Safeguard Federal funds;
- Instill confidence amongst regulated entities of data quality, soundness, and robustness;
- Evaluate health insurance issuer compliance with program rules and regulations; and
- Develop a successful and coordinated risk-based, multi-year audit program that maximizes resources.

This audit is part of a program established by CMS to validate the enrollment and payment data reported on the final 2014 EPDW and analyze controls and policies of selected issuers pursuant to the authority defined in the regulations.

---

To provide the flexibility needed when standing up a new oversight program and to ensure that issuers are able to provide CMS with their most accurate data, audit protocols allow for dialog between auditor and issuer to identify and correct errors in data submission that differ somewhat from some independence and reporting standards laid out under Generally Accepted Government Auditing Standards (GAGAS). These procedures were defined and executed consistent with the competence, integrity, and analytical discipline required for performance audits as defined by GAGAS.
Results of Review

CMS’s procedures identified one finding for HNLI. The finding involves the inclusion of enrollment and payment data for subscribers who were reported more than once in the same month.
II. BACKGROUND, OBJECTIVES, SCOPE, AND METHODOLOGY

A. Background
Sections 1401 and 1402 of the PPACA established the APTC and advance CSR programs to support the provision of affordable health care coverage to individuals. Additionally, section 1311 of the PPACA allowed the FFE to charge participating issuers user fees to support FFE operations.

CMS has the responsibility to confirm successful implementation of, and adherence to, the PPACA provisions and implementing regulations governing the APTC, advance CSR, and FFE user fee programs. As such, CMS established this audit program.

Interim Payment Process
For the 2014 benefit year, CMS implemented a temporary process (“interim payment process”) to calculate and make monthly payments of APTC and advance CSR amounts and to calculate and collect monthly FFE user fee amounts based on data submitted by issuers at the QHP level. On a monthly basis, CMS required submitters to use a standard template, i.e. the EPDW that CMS staff created and maintained, to submit payment data. The EPDW was preprogramed with individual submitter data that allowed the submitter to self-validate data prior to submission to CMS. The EPDW included the option to restate prior months’ data or indicate no change in data since the last submission. CMS required submitters to send the following information at the QHP plan variant level via the password-protected template:

1. State
2. Tax Identification Number (TIN)
3. Health Insurance Oversight System (HIOS) ID
4. QHP ID
5. Total premium amount for all enrollments
6. Total APTC amount
7. Total advance CSR amount
8. Total FFE User Fee amount
9. Total effectuated enrollment groups
10. Total effectuated enrollment groups with APTC
11. Total effectuated enrollment groups with advance CSR
12. Total effectuated members
13. Total effectuated members with APTC
14. Total effectuated members with advance CSR

Issuers and State-based Exchanges (SBEs) on behalf of issuers were required to calculate the QHP level enrollment and payment amounts submitted on the EPDW using their internal source data.
B. Audits to Determine Compliance with the Administration of APTC, Advance CSR, and FFE User Fee Programs

CMS established an audit protocol that is organized around the following regulations governing APTC, advance CSR, and FFE user fee programs, and the procedures required to assess compliance with these applicable regulations:

- 45 CFR 156.50: Financial Support;
- 45 CFR 156.460: Reduction of enrollee’s share of premium to account for advance payments of the premium tax credit;
- 45 CFR 156.480: Oversight of the administration of the cost-sharing reductions and advance payments of the premium tax credit programs;

Refer to Appendix 1 for the specific requirements established under the authorities listed above.

C. Objectives

The objectives of these audits are to:

1. Evaluate the accuracy and integrity of issuer-generated EPDW data reported for the APTC, advance CSR, and FFE user fee programs;
2. Identify potential CMS payment errors resulting from issuer data reporting errors; and
3. Test accuracy and integrity of processes for reducing an enrollee’s share of premium to account for APTCs (45 CFR 156.460).

D. Scope and Methodology

CMS selected HNLI for an audit under the above-mentioned regulation(s). As established by CMS, the audit centered on evaluating activity at HNLI related to the 2014 benefit year (January 1, 2014, through December 31, 2014), individual market data reported on the final EPDW(s) submitted by the issuer to support APTC and advance CSR payments, and FFE user fee collections.

CMS informed HNLI via electronic letter on November 16, 2016, that it would be audited. HNLI then received a letter on November 18, 2016 from CMS’s audit contractor identifying data requirements required to conduct the audit. CMS’s audit contractor reviewed HNLI’s information provided and performed the procedures to assess compliance with APTC, advance CSR, and FFE user fee program rules and regulations as defined in the CMS protocols.

CMS’s audit contractor applied audit protocol procedures to obtain sufficient and appropriate evidence to establish reasonable bases for the findings related to the audit objectives identified in section II.C of this report. CMS’s audit contractor performed the following procedures:
Validations of the APTC/CSR Desk Audit File\(^2\) data submitted to CMS:

- EPDW Validations: Comparison of the final 2014 EPDW submitted to CMS to the APTC/CSR Desk Audit File from HNLI’s systems.
- Duplicate Check: Review of the APTC/CSR Desk Audit File containing subscriber level data from HNLI’s systems to verify that duplicate Exchange-assigned subscriber IDs (i.e. Exchange-assigned subscriber IDs that were reported on the file twice in the same month) were not reported on the file.
- Unreconciled Subscribers Review: Review and comparison of the subscribers reported on the APTC/CSR Desk Audit File to the subscribers included in CMS’s systems to determine if the subscribers existed and were effectuated (i.e. the amount the subscriber is responsible to pay toward the first month’s total premium amount has been paid in full by the subscriber) in CMS’s systems.

Validations on samples of issuer system data:

- 45 Subscriber Review: Review and comparison of the data from the issuer’s systems to the corresponding data included in CMS’s systems for a selected sample of 45 subscribers.
- 15 Subscriber Review: Analysis and review of data and documentation from the issuer’s systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of 15 subscribers.

Policy and Procedure Review: Review of issuer APTC policies and procedures for completeness and clarity.

\(^2\) The APTC/CSR Desk Audit File is CMS’s standard document for issuers to provide information in support of this audit.
III. RESULTS OF REVIEW

EPDW Validations
No findings resulted from the comparison of the final 2014 EPDW to HNLI’s APTC/CSR Desk Audit File.

Duplicate Check
One finding resulted from the review of HNLI’s APTC/CSR Desk Audit File to verify duplicate Exchange-assigned subscriber IDs were not reported on the file. Refer to Finding No. 1 included in section IV for details on the finding.

Unreconciled Subscribers Review
No findings resulted from the review of HNLI’s APTC/CSR Desk Audit File to determine if the subscribers reported on the file existed and were effectuated in CMS’s systems.

45 Subscriber Review
No findings resulted from the review and comparison of the data from HNLI’s systems to the corresponding data included in CMS’s systems for a selected sample of 45 subscribers.

15 Subscriber Review
No findings resulted from the analysis and review of the data and documentation from HNLI’s systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of 15 subscribers.

Policy and Procedure Review
No findings resulted from the review of HNLI’s APTC policies and procedures.
IV. FINDINGS

A finding is an identification of an instance of issuer non-compliance with CMS requirements that requires corrective action. CMS’s audit procedures identified one finding. The finding resulted in a change to HNLI’s reported EPDW for individual market plans for the 2014 benefit year. In light of the one finding, the adjusted 2014 benefit year EPDW APTC and advance CSR payments and FFE user fee amounts for individual market plans are shown in the following table.

* Note: The advance CSR financial impact is for informational purposes only.

The net financial impact of the one audit finding is a payment due to CMS of $649.35 consisting of $(44.65) in FFE user fees and $694.00 in APTC. The one audit finding along with the criteria, cause, effect, corrective action, and HNLI’s response is as follows:

In May 2015, working the RCNO file, record was reinstated to make updates but was incorrectly cancelled eff 12/31/14 by rep. Initial record with incorrect SSN is now cancelled eff 1/31/14 to eliminate dual coverage.”

| Effect: | The inclusion of enrollment and payment data for the one duplicate subscribers resulted in a change to HNLI’s final, restated benefit year 2014 EPDW data. |
|Corrective Action Required: | The net financial impact for this finding is a payment due to CMS of $649.35 consisting of $(44.65) in FFE user fees and $694.00 in APTC. HNLI should confirm this financial impact and coordinate with CMS on resolution. |
|Issuer Management Response: | Health Net Life Insurance Company (HIOS 51485) has reviewed the findings and is in agreement with the finding. A review of internal enrollment processes was conducted. The Company believes this to be an isolated occurrence caused by a manual error in processing the subscriber’s enrollment. Please reference Appendix 3. |
