SUBJECT: Revised Massachusetts-Specific Reporting Requirements and Value Sets
Workbook

The purpose of this memorandum is to announce the release of the revised Medicare-Medicaid Capitated Financial Alignment Model Reporting Requirements: Massachusetts-Specific Reporting Requirements and corresponding Massachusetts-Specific Value Sets Workbook. The documents are designed to provide updated guidance, technical specifications, and applicable codes for the state-specific measures that Massachusetts Medicare-Medicaid Plans (MMPs) are required to collect and report under the demonstration.

Please see below for a high-level summary of the changes that were made to the Massachusetts-Specific Reporting Requirements. Note that the Massachusetts-Specific Value Sets Workbook also includes changes; Massachusetts MMPs should carefully review and incorporate the updated value sets, particularly for measures MA4.3, MA4.6, and MA6.2.

Massachusetts MMPs must use the updated specifications and value sets for measures due on or after June 30, 2017. Should you have any questions, please contact the Medicare-Medicaid Coordination Office at mmcocapsreporting@cms.hhs.gov.
