

Virginia Medicare-Medicaid Plan Quality Withhold Analysis Results Calendar Year 2014

The Medicare-Medicaid Financial Alignment Initiative (FAI) seeks to better serve people who are enrolled in both Medicare and Medicaid by testing person-centered, integrated care models. In order to ensure that Medicare-Medicaid enrollees receive high quality care and to encourage quality improvement, both Medicare and Medicaid withheld a percentage of their respective components of the capitation rate paid to each Medicare-Medicaid Plan (MMP) participating in a capitated model demonstration under the FAI. MMPs are eligible for repayment of the withheld amount subject to their performance on a combination of CMS Core and State-specific quality withhold measures.¹ For each measure, MMPs earn a “met” or “not met” designation depending on their achieved rate relative to the benchmark level. Based on the total number of measures met, MMPs receive a quality withhold payment according to the following tiered scale:

Percent of Measures Met	Percent of Withhold MMP Receives
0-19%	0%
20-39%	25%
40-59%	50%
60-79%	75%
80-100%	100%

This report provides the results of the quality withhold analysis for MMPs in the Virginia Commonwealth Coordinated Care demonstration for the first calendar year (CY 2014) of Demonstration Year (DY) 1.² On the following pages, Table 1 provides results for each CMS Core measure, Table 2 provides results for each State-specific measure, and Table 3 provides summary results for the full quality withhold analysis. When interpreting this information, note that some measures are designed to be competitive (e.g., the benchmark for the CMS Core Assessments measure is calculated separately for each demonstration based on the rate achieved by the highest scoring MMP minus ten percentage points); therefore, an MMP’s performance may be considered adequate even if its rate did not meet the benchmark level.

For more information about the quality withhold methodology, measures, and benchmarks, refer to the Medicare-Medicaid Capitated Financial Alignment Model Quality Withhold Technical Notes for DY 1 and the Virginia Withhold Measure Technical Notes for DY 1. These documents are available on the CMS website at the following link: <https://www.cms.gov/Medicare-Medicaid-Coordination/Medicare-and-Medicaid-Coordination/Medicare-Medicaid-Coordination-Office/FinancialAlignmentInitiative/InformationandGuidanceforPlans.html>.

¹ CMS Core measures apply consistently across all capitated model demonstrations, unless a certain measure is inapplicable due to differences in demonstration design (e.g., the demonstration’s target population is not captured by the measure) or timing/enrollment constraints (e.g., the reporting period for the measure does not align with the demonstration start date). State-specific measures apply to a specific capitated model demonstration. Note that the number, type, and complexity of State-specific measures vary depending on key areas of interest for the respective demonstration.

² The results for the second calendar year (CY 2015) of DY 1 are forthcoming.
