CMS and AMA Announce Efforts to Help Providers Get Ready for ICD-10

With less than three months remaining until the nation switches from ICD-9 to ICD-10 coding for medical diagnoses and inpatient hospital procedures, the Centers for Medicare & Medicaid Services (CMS) and the American Medical Association (AMA) are announcing efforts to continue to help physicians get ready ahead of the October 1 deadline. In response to requests from the provider community, CMS is releasing additional guidance that will allow for flexibility in the claims auditing and quality reporting process as the medical community gains experience using the new ICD-10 code set. For more details, please see the joint announcement on the [CMS ICD-10 website](#).
