New Cardiology Clinical Concepts Guide

To help physicians and other providers get quickly up to speed, CMS is launching the ICD-10 Clinical Concepts Series for specialties.

Posted on the CMS [ICD-10 website](http://www.cms.gov/ICD10), each guide in the series compiles key information from the [Road to 10 online tool](http://www.cms.gov/ICD10) in a PDF format that can be readily shared, emailed, posted to websites, and printed.

Each guide includes:

- Common ICD-10 codes and corresponding ICD-9 codes
- Clinical documentation tips
- Clinical scenarios
- Links to interactive cases studies, in-depth webinars, and other [Road to 10](http://www.cms.gov/ICD10) features

Today, we are releasing Clinical Concepts for [Cardiology](#), which highlights ICD-10 concepts for conditions like heart failure, hypertension, heart valve disease, and more.

Keep Up to Date on ICD-10

Visit the CMS [ICD-10 website](http://www.cms.gov/ICD10) and Roadto10.org for the latest news and resources to help you prepare. Sign up for [CMS ICD-10 Industry Email Updates](#) and [follow us](#) on Twitter.
