## COMPLIANCE DATE OCTOBER 1, 2015

News Updates | December 3, 2015

### Resources for Specialties, Selected Health Conditions, and Services

With the ICD-10 compliance date two months behind us, many practices have moved beyond their initial transition activities and into the regular rhythm of coding using ICD-10. To help coders as they become more comfortable with ICD-10, the Centers for Medicare & Medicaid Services (CMS) has developed a [new guide](#) with resources for specialties and selected health conditions and services.

The [Specialty Resources Guide](#) features coding and documentation information for common conditions and specialties, including:

- Asthma
- Cardiology
- Diabetes
- OB/GYN
- Lab services

The guide also includes links to the CMS [Clinical Concepts Guides](#), [Interactive Case Studies](#), [Medical Case Studies](#), [Webcasts](#), and more.
