

# **ICD-10-PCS Reference Manual**

## **2013 Version Summary of Changes**

The ICD-10-PCS Reference Manual final changes to date from public comment and internal review are listed below. The 2013 ICD-10-PCS Reference Manual will be updated to reflect these changes once technical issues involving access for users requiring assistive technologies are resolved.

Page 1.14      Typographical error

A duplicate "the" has been deleted from the sentence below:

“These are the root operation tables that form the system.”

Page 1.15      Typographical error

The word "code" has been added to the sentence below:

“A code built using values from more than one row of a table is not a valid code”

Page 2.9        Typographical error

The word “transerse” was revised to “transverse” in the sentence below:

“The mass was palpated and a radial transverse incision was made over the mass.”

Page 2.17      Coding exercise revised
