

2006 ICD-10-PCS Tables in Text Format – Text files

The ICD-10-PCS descriptions consist of 1 zipped text file

	Record count:
Medical and Surgical Section (Section 0)	78,254
Medical and Surgical Related Sections (Sections 1 – 9)	3,223
Ancillary Sections (Sections B-D,F-H)	6,218
TOTAL	87,695

The following describes the record layout for the ICD-10-PCS tables in text format files.

Each character of the 7-character ICD-10-PCS code is represented by a 1-character value, followed by a space, followed by its corresponding description term, as it appears in the Tables.

Each character value and description is delimited by a pipe (“|”).

For example:

```
|0 Medical and Surgical|F Hepatobiliary System and Pancreas|1 Bypass|4 Gallbladder|0 Open|  
D Intraluminal Device|3 Duodenum|
```

where:

Character 1	0 Medical and Surgical
Character 2	F Hepatobiliary System and Pancreas
Character 3	1 Bypass
Character 4	4 Gallbladder
Character 5	0 Open
Character 6	D Intraluminal Device
Character 7	3 Duodenum

The first character of the code identifies the section; the codes in each section are in the order in which they appear in the Tables.
