1 Summary of Version 3.5 and 3.6 User Guide Updates

The updates listed below have been made to this version of the Non-Group Health Plan (NGHP) User Guide. As indicated during Section 111 NGHP Town Hall teleconferences, CMS continues to review some of this language and will post any applicable updates in the form of revised Alerts and User Guide revisions as necessary.

User Guide Version 3.5 Updates:

- Error Code CJ07 found in Appendix F – Disposition, Error and Compliance Flag Codes has been revised. This Error Code will also be returned on a Claim Input File Detail Update Record that is submitted with no settlement, judgment, award, or other payment [including assumption of ORM]).
- The Alleged Cause of Injury, Incident, or Illness (Field 15) on the Claim Input File is no longer a required field.
- The CI25 Error description has been redefined and will only be returned if the NOINJ default code is not used properly. The CI25 error will be received in the following situations:
 - If the value "NOINJ" is submitted in the Alleged Cause of Injury field and something other than "NOINJ" is submitted in the ICD-9 Diagnosis Code 1 field; or
 - If the value "NOINJ" is submitted in the ICD-9 Diagnosis Code 1 field and another diagnosis code is also supplied. (Note: When the value "NOINJ" is submitted, it must be the only diagnosis code supplied); or
 - If the value "NOINJ" is submitted in the ICD-9 Diagnosis Code 1 field and something other than "NOINJ" (or spaces) is submitted in the Alleged Cause of Injury field.
- Error Code CI03 will no longer be returned if the Alleged Cause of Injury, Incident, or Illness (Field 15) is left blank. However, if invalid data is entered in this field, the CI03 error will be returned.
- The Claimant TIN is no longer a required field. Error Codes CC02, CC22, CC42 and CC62 have been modified as follows:
 - Error Code CC02: if the Claimant TIN for Claimant 1 (field 105 of the detail record) is left blank when the Claimant 1 Relationship (field 104 of the detail record) contains a value other than space, the CC02 error will no longer be returned.
 - Error Code CC22: if the Claimant TIN for Claimant 2 (field 8 on the auxiliary record) is left blank when the Claimant 2 Relationship (field 7 of the auxiliary record) contains a value other than space, the CC22 error will no longer be returned.
 - Error Code CC42: if the Claimant TIN for Claimant 3 (field 37 on the auxiliary record) is left blank when the Claimant 3 Relationship (field 36 of the auxiliary record) contains a value other than space, the CC42 error will no longer be returned.

- Error Code CC62: if the Claimant TIN for Claimant 4 (field 66 on the auxiliary record) is left blank when the Claimant 4 Relationship (field 65 of the auxiliary record) contains a value other than space, the CC62 error will no longer be returned.
- The system shall consider entry of the Claimants and/or Claimants' Representative SSNs and EINs on the Claimant Information (Field 105) or Claimant Attorney/Other Representative Information (Field 123) sections of the NGHP Claim Input File to be Optional.

User Guide Version 3.6 Corrections:

- The Claim Input File Detail Record Layout and Claim Input File Auxiliary Record Layouts have been modified as follows:
 - Fields 104 – 118 “Claimant 1 Information” and Fields 119 – 132 “Claimant 1 Attorney/Other Representative Information” on the Claim Input File Detail Record, and Fields 7-21, 36-53, and 65-79 “Claimant [2, 3, and 4]” and Fields 22-35, 51-64, and 80-92 “Claimant [2, 3, and 4] Attorney/Other Representative Information” on the Claim Input File Auxiliary Record are no longer required even if the injured party is deceased and the claimant is not the injured party. These fields are all ***Optional.***

Note: Although “Claimant Information” and “Claimant Attorney/Other Representative Information” are no longer required even if the injured party is deceased, if entries are made in any of these fields, it will be edited for validity and completeness. Errors will be returned if “Claimant Information” or “Claimant Attorney/Other Representative Information” submitted is found to be invalid or incomplete. ***Leave the Claimant Relationship fields blank if not supplying Claimant Information.***

2 Introduction

The Liability Insurance (including Self-Insurance), No-Fault Insurance, and Workers' Compensation User Guide, Version 3.6 has been written for use by all Section 111 liability insurance (including self-insurance), no-fault insurance, and workers' compensation Responsible Reporting Entities (RREs). The five chapters of the User Guide - referred to collectively as the "Section 111 NGHP User Guide" - provide information and instructions for the Medicare Secondary Payer (MSP) NGHP reporting requirements mandated by Section 111 of the Medicare, Medicaid and SCHIP Extension Act of 2007 (MMSEA) (P.L. 110-173).

This **Appendices Chapter** of Version 3.6 of the MMSEA Section 111 NGHP User Guide provides detailed information on Section 111 file format standards, and record and field specifications for the files used to report Section 111 claim information. The other four chapters of the NGHP User Guide: Introduction and Overview, Registration Procedures, Policy Guidance, and Technical Information should be referenced as needed for applicable guidance.

Please note that the Centers for Medicare & Medicaid Services (CMS) continues to implement the Section 111 reporting requirements in phases. New versions of the Section 111 User Guide will be issued, when necessary, to document revised requirements and add clarity. At times, certain information may be released in the form of an Alert document. Any Alert dated subsequent to the date of the currently published User Guide supersedes the applicable language in the User Guide. All updated Section 111 policy and technical reporting requirements published in the form of an Alert will be incorporated into the next version of the User Guide. RREs must refer to the current User Guide and any subsequent Alerts for complete information on Section 111 reporting requirements. Alerts contain a list of all the applicable NGHP Alerts posted prior to the publication of this version of the User Guide.

All information pertinent to Section 111 reporting can be found on the various pages of the Section 111 Web site (<http://www.cms.gov/MandatoryInsRep>). Please check this site often for the latest version of this guide and for other important information such as the aforementioned Alerts. To be notified via e-mail of updates to this Web page, click on the [For e-mail updates and notifications](#) link on the Web site and add your e-mail address to the distribution list. Additional information related to Section 111 can be found on the login page of the Section 111 Coordination of Benefits Secure Web site (COBSW) at <http://www.section111.cms.hhs.gov>.

Technical questions should be directed to your Coordination of Benefits Contractor (COBC) Electronic Data Interchange (EDI) Representative. Your EDI Representative contact information can be found in your profile report (received after registration has been completed).

Note: Section 3 (File Formats) apply to RREs using a file submission method.

3 File Formats

3.1 General File Standards

Both the Claim Input and TIN Reference Files are transmitted in a flat, text, ASCII file format. The Connect:Direct file transmission method will convert files into EBCDIC. Query Files are transmitted using the ANSI X12 270/271 Entitlement Query transaction set. On request, the COBC will supply each RRE free software to translate flat file formats to and from the X12 270/271. As described in the NGHP User Guide Technical Information Chapter (Section 8), the Query File formats are the flat file input and output to the translator software supplied by the COBC. The remainder of this section assumes the RRE will use that software. If you are using your own X12 translator, the necessary mapping is documented in an X12 270/271 companion guide that can be downloaded from the NGHP page at the following link:

<http://www.cms.gov/MandatoryInsRep/Downloads/NGHPInterfaceSpec5.0.pdf>. Note that the COBC will only accept files transmitted using the 5010A1 version of the X12 270/271 RREs will continue to be given at least 6 months advance notice of any future upgrades.

Mainframe and Windows PC/Server-based versions of the HEW software are available. You may download the Windows version of the HEW software after logging on to the Section 111 COBSW at <http://www.section111.cms.hhs.gov>. You may request a copy of both the mainframe and Windows versions from your EDI Representative or by contacting the COBC EDI Department at 646-458-6740. The HEW software is maintained free of charge by the COBC. No source code will be provided.

With the exception of the X12 270/271, all input files submitted for Section 111 must be fixed width, flat, text files. All records in the file must be the same length, as specified in the file layouts. If the data submitted ends prior to the end of the specified record layout, the rest of the record must be completely filled or padded with spaces.

All data fields on the files are of a specified length and should be filled with the proper characters to match those lengths. No field delimiters, such as commas between fields, are to be used. A carriage return/line feed (CRLF) character is in the byte following the end of each record layout defined in this chapter of the NGHP User Guide (2221st byte of the line if the record is defined as 2220 bytes). When information is not supplied for a field, provide the default value per the specific field type (numeric and numeric date fields filled with zeroes; alphabetic, alphanumeric and “Reserved for Future Use” fields filled with spaces).

Each input file format contains at least three record types.

- Header Record - each file begins with a *header* record. Header records identify the type of file being submitted, and will contain your Section 111 RRE ID. (You will receive your RRE ID on your profile report after your registration for Section 111 is processed.)
- Detail Records - represent claim information where the injured party is a Medicare beneficiary, or query requests for individuals on the Query Input File.

- Trailer Record - each file always ends with a *trailer* record that marks the end of the file and contains summary information including counts of the detail records for validation purposes.

Each header record must have a corresponding trailer record. The file submission date supplied on the header record must match the date supplied on the corresponding file trailer record. Each trailer record must contain the proper count of detail records. **Do not include the header and trailer records in these counts.** If the trailer record contains invalid counts, your entire file will be rejected.

3.2 Data Format Standards

The following table defines the formatting standard for each data type found in the Section 111 files, both input and response. *These standards apply unless otherwise noted in specific file layouts.*

Table 3-1: Data Format Standards

DataType	Formatting Standard	Examples
Numeric	Zero through nine (0 - 9) Right justified. Padded with leading zeroes. Do not include decimal point. See individual field descriptions for any assumed decimal places. Default to all zeroes unless otherwise specified in the record layouts. <i>Note: the last two positions of dollar amount fields reflect cents. For example, in an 11 byte numeric field specified as a dollar amount, an amount of 10,000 (ten thousand) dollars and no cents must be submitted as "0000100000".</i>	Numeric (5): "12345" Numeric (5): "00045"

DataType	Formatting Standard	Examples
Alphabetic	<p>A through Z</p> <p>Left justified.</p> <p>Non-populated bytes padded with spaces.</p> <p>Alphabetic characters sent in lower case will be converted and returned in upper case.</p> <p>Default to all spaces unless otherwise specified in the record layouts.</p> <p>Embedded hyphens (dashes), apostrophes and spaces will be accepted in alphabetic last name fields.</p> <p>First name fields may only contain letters and spaces.</p>	<p>Alpha (12): “TEST EXAMPLE”</p> <p>Alpha (12): “EXAMPLE”</p> <p>Alpha (12): “SMITH-JONES “</p> <p>Alpha 12): “O’CONNOR”</p>

Alphanumeric Plus Parens	<p>Same as above but including</p> <p>Parentheses ()</p>	<p>“Department Name (DN)”</p>

DataType	Formatting Standard	Examples
Numeric Date	Zero through nine (0 - 9) formatted as CCYMMDD. No slashes or hyphens. Default to zeroes unless otherwise specified in the file layouts (no spaces are permitted).	A date of March 25, 2011 would be formatted as "20110325" Open ended date: "00000000"
Reserved for Future Use	Populate with spaces. Fields defined with this field type may not be used by the RRE for any purpose. They must contain spaces.

Section 111 Query Input File (ANSI X12 270/271 Entitlement Query HEW Flat File Input/Output Format)

Note: These file layouts are for use with the HIPAA Eligibility Wrapper (HEW) software supplied by the COBC to process the ASC X12 270/271. They reflect the flat file input and output for the current (January 2012 Version 3.0.0) of the HEW software. RREs using the HEW software must use Version 3.0.0 effective January 1, 2012.

Mainframe and Windows PC/Server-based versions of the HEW software are available. You may download the Windows version of the HEW software after logging on to the Section 111 COBSW at <http://www.section111.cms.hhs.gov>. You may request a copy of both the mainframe and Windows versions from your EDI Representative or by contacting the COBC EDI Department at 646-458-6740.

If you choose to use your own ANSI X12 translator to create the ANSI X12 270 files for the Section 111 Query Input File and process the X12 271 response, please refer to the NGHP page of <http://www.cms.gov/MandatoryInsRep>. Download the companion document for the X12 270/271 mapping required for Section 111 (“270/271 Health Care Eligibility Benefit Inquiry and Response Companion Guide for NGHP Entities”) or contact your EDI Representative for a copy.

Click on the Reference Materials menu option to view the reference files available for download including the error table below.

Error Code Descriptions

In general, when you receive an error related to a Claim Input File Detail Record and/or a TIN Reference File Detail Record, the corrected record(s) needs to be resubmitted on your next Quarterly Claim Input File submission. If TIN Reference File records are not corrected, subsequently processed Claim Input File Detail Records with matching RRE TIN/Office Code will reject. Any Claim Input File Detail Record that rejects for TIN-related errors must be resubmitted with the corrected TIN Reference File Detail Record in order for it to correctly process.

Error codes are prefaced with two letters followed by two numbers. Error codes that begin with a ‘C’ indicate that the error occurred in the Claim Input File. Error codes that begin with a ‘T’ indicate that the error occurred in the TIN Reference File. See the table below:

Table F-3: Error Codes Descriptions

Error Codes beginning with	Relate to
CB	Claim Beneficiary Information
CC	Claim Claimant Information
CI	Claim Injury Information
CJ	Claim Ongoing Responsibility for Medicals (ORM) or Total Payment Obligation to Claimant (TPOC) Information

Error Code Resolution Tables

The Error Code Resolution Tables (Claim Response and TIN Reference Response) provide information on the error codes that you may receive on your Section 111 response file(s). Each table identifies the record and field that caused the error, identifies whether or not the field is required, provides the record layout field descriptions and provides some possible causes of the error.

NOTE: *If you receive an error code that is not listed in this table, or you are not able to use this table to resolve your error, contact your EDI Representative for additional assistance.*

Appendix H: MMSEA Section 111 Definitions and Reporting Responsibilities

Attachment A – Definitions and Reporting Responsibilities

(Attachment A to the Supporting Statement for the MMSEA Section 111 Paperwork Reduction Act (PRA) Federal Register (FR) Notice published February 13, 2009.)

SUPPORTING DOCUMENT FOR PRA PACKAGE FOR MEDICARE SECONDARY PAYER REPORTING RESPONSIBILITIES FOR SECTION 111 OF THE MEDICARE, MEDICAID, AND SCHIP EXTENSION ACT OF 2007

Note: The second paragraph under Liability Self-Insurance was revised subsequent to the initial publication of this Attachment on August 1, 2008.

DEFINITIONS AND REPORTING RESPONSIBILITIES

GROUP HEALTH PLAN (GHP) ARRANGEMENTS (42 U.S.C. 1395y(b)(7)) --

INSURER

For purposes of the reporting requirements at 42 U.S.C.1395y(b)(7), an insurer is an entity that, in return for the receipt of a premium, assumes the obligation to pay claims described in the insurance contract and assumes the financial risk associated with such payments. In instances where an insurer does not process GHP claims but has a third party administrator (TPA) that does, the TPA has the responsibility for the reporting requirements at 42 U.S.C. 1395y(b)(7).

THIRD PARTY ADMINISTRATOR (TPA)

For purposes of the reporting requirements at 42 U.S.C.1395y(b)(7), a TPA is an entity that pays and/or adjudicates claims and may perform other administrative services on behalf of GHPs (as defined at 42 U.S.C. 1395y(b)(1)(A)(v)), the plan sponsor(s) or the plan insurer. A TPA may perform these services for, amongst other entities, self-insured employers, unions, associations, and insurers/underwriters of such GHPs. If a GHP is self-funded and self-administered for certain purposes but also has a TPA as defined in this paragraph, the TPA has the responsibility for the reporting requirements at 42 U.S.C. 1395y(b)(7).

USE OF AGENTS FOR PURPOSES OF THE REPORTING REQUIREMENTS AT 42 U.S.C. 1395y(b)(7):

For purposes of the reporting requirements at 42 U.S.C. 1395y(b)(7), agents may submit reports on behalf of :

- Insurers for GHPs
- TPAs for GHPs
- Employers with self-insured and self-administered GHPs

Accountability for submitting the reports in the manner and form stipulated by the Secretary and the accuracy of the submitted information continues to rest with each of the above-named entities.

The CMS will provide information on the format and method of identifying agents for reporting purposes.

LIABILITY INSURANCE (INCLUDING SELF-INSURANCE), NO-FAULT INSURANCE, AND WORKERS' COMPENSATION (42 U.S.C. 1395y(b)(8))

INSURER

For purposes of the reporting requirements for 42 U.S.C. 1395y(b)(8), a liability insurer (except for self-insurance) or a no-fault insurer is an entity that, in return for the receipt of a premium, assumes the obligation to pay claims described in the insurance contract and assumes the financial risk associated with such payments. The insurer may or may not assume responsibility for claims processing; however, the insurer has the responsibility for the reporting requirements at 42 U.S.C. 1395y(b)(8) regardless of whether it uses another entity for claim processing.

CLAIMANT:

For purposes of the reporting requirements at 42 U.S.C. 1395y(b)(8), “claimant” includes: 1) an individual filing a claim directly against the applicable plan, 2) an individual filing a claim against an individual or entity insured or covered by the applicable plan, or 3) an individual whose illness, injury, incident, or accident is/was at issue in “1)” or “2)”.

APPLICABLE PLAN:

For purposes of the reporting requirements at 42 U.S.C. 1395y(b)(8), the “applicable plan” as defined in subsection (8)(F) has the responsibility for the reporting requirements at 42 U.S.C. 1395y(b)(8). For workers’ compensation information this would be the Federal agency, the State agency, or self-insured employer or the employer’s insurer.

NO-FAULT INSURANCE:

Trade associations for liability insurance, no-fault insurance and workers’ compensation have indicated that the industry’s definition of no-fault insurance is narrower than CMS’s definition. For purposes of the reporting requirements at 42 U.S.C. 1395y(b)(8), the definition of no-fault insurance found at 42 C.F.R. 411.50 is controlling.

LIABILITY SELF-INSURANCE:

42 U.S.C. 1395y(b)(2)(A) provides that an entity that engages in a business, trade or profession shall be deemed to have a self-insured plan if it carries its own risk (whether by a failure to obtain insurance, or otherwise) in whole or in part. Self-insurance or deemed self-insurance can be demonstrated by a settlement, judgment, award, or other payment to satisfy an alleged claim (including any deductible or co-pay on a liability insurance, no-fault insurance, or workers’ compensation law or plan) for a business, trade or profession. See also 42 C.F.R. 411.50.

Where an entity engages in a business, trade, or profession, deductible amounts are self-insurance for MSP purposes. **However**, where the self-insurance in question is a deductible, and the insurer is responsible for Section 111 reporting with respect to the policy, it is responsible for reporting both the deductible and any amount in excess of the deductible.

WORKERS' COMPENSATION LAW OR PLAN

For purposes of the reporting requirements at 42 U.S.C. 1395y(b)(8), a workers' compensation law or plan means a law or program administered by a State (defined to include commonwealths, territories and possessions of the United States) or the United States to provide compensation to workers for work-related injuries and/or illnesses. The term includes a similar compensation plan established by an employer that is funded by such employer directly or indirectly through an insurer to provide compensation to a worker of such employer for a work-related injury or illness.

USE OF AGENTS FOR PURPOSES OF THE REPORTING REQUIREMENTS AT 42 U.S.C. 1395y(b)(8):

Agents may submit reports on behalf of:

- Insurers for no-fault or liability insurance
- Self-insured entities for liability insurance
- Workers' compensation laws or plans

Accountability for submitting the reports in the manner and form stipulated by the Secretary and the accuracy of the submitted information continues to rest with each of the above-named entities.

TPAs of any type (including TPAs as defined for purposes of the reporting requirements at 42 U.S.C. 1395y(b)(7) for GHP arrangements) have no reporting responsibilities for purposes of the reporting requirements at 42 U.S.C. 1395y(b)(8) for liability insurance (including self-insurance), no-fault insurance, or workers' compensation. Where an entity reports on behalf of another entity required to report under 42 U.S.C. 1395y(b)(8), it is doing so as an agent of the second entity.

CMS will provide information on the format and method of identifying agents for reporting purposes.

Appendix I: Excluded ICD-9 Diagnosis Codes

This list contains ICD-9 diagnosis codes that are considered invalid by CMS for Section 111 reporting and are to be excluded from all claim report records. Decimal points are not shown in these codes. Each code is 5 positions, left justified and padded at the end with spaces as necessary to fill 5 bytes.

None of these codes may be submitted in Field 15 Alleged Cause of Injury, Incident, or Illness or the ICD-9 Diagnosis Code 1-19 (Fields 19-55) on the Claim Input File Detail Record. Field 15 must be a code starting with the letter ‘E’ **not** on this list. The ICD-9 Diagnosis Codes 1-19 cannot start with the letter ‘E’, cannot start with the letter ‘V’, and cannot be a code on this list.

All ICD-9 Diagnosis Codes beginning with the letter ‘V’ are considered invalid for Section 111 reporting and should be excluded. Therefore, no specific “V Code” appears on this list.

As of January 1, 2011, on add and update record submissions, ICD-9 Diagnosis Codes submitted in Fields 19-55 must be valid, that is, the submitted ICD-9 Diagnosis Code **MUST**:

- Exactly match the first 5 bytes or characters of a record on any of the ICD-9 Diagnosis Code files incorporated into the COBC Section 111 process (from Versions 25 and subsequent), and
- Begin with a number (cannot be an E code and cannot be a V code); and
- Cannot be one of the diagnosis codes found on the Excluded ICD-9 Codes list.

Excel and text files containing this list of Excluded ICD-9 Diagnosis Codes may be downloaded from the Section 111 COBSW at <http://www.section111.cms.hhs.gov> by clicking on the link found under the Reference Materials menu option of the Login page.
