Provider Types Affected Inpatient Prospective Payment System (PPS) hospitals, Inpatient Rehabilitation PPS Hospitals, and PPS Long-Term Care Hospitals (LTCHs) that submit informational claims for Indirect Medical Education (IME)/Graduate Medical Education (GME)/Nursing and Allied Health to Medicare FI or A/B MACs

Change Request (CR) 6784 announces that (effective for discharges on or after July 1, 2010) all hospital informational-only claims submitted with CC 04 will begin to accumulate on the PS & R report type 118.

Provider Needs to Know...

- All hospital informational-only claims submitted with CC 04 (informational only bill) will begin to accumulate on the PS & R report type 118 (Inpatient – Part A Managed Care).
- This report summarizes services billed under Part A for Medicare managed care patients in order to receive reimbursement for GME and IME.

Background

- Currently, claims for IME, GME and Nursing and Allied Health with CC 04 (information only bill) and CC 69 are sent to the PS & R, report type 118.
- With the recently released CRs that address capturing days for Supplemental Security Income purposes, it became necessary to also capture CC 04-only claims in the PS & R, so that the data will be available to both providers and Medicare contractors.
- These CRs are :
 - CR5647 - *Capturing Days on Which Medicare Beneficiaries are Entitled to Medicare Advantage (MA) in the Medicare/Supplemental Security Income (SSI) Fraction*, released on July 20, 2007 (<http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM5647.pdf>); and
 - CR6329 - *Providers Submitting Information Regarding Medicare Beneficiaries Entitled to Medicare Advantage (MA) for Fiscal Year (FY) 2006 for the Medicare/Supplemental Security Income (SSI)*, released on March 6, 2009 (<http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM6329.pdf>) on the CMS website.
