1 The HAC Reduction Program CDC measures are calculated using data from the Hospital IQR Program. See the IQR Important Dates and Deadlines document on the QualityNet website.
2 CMS will notify hospitals of changes to dates for the Scoring Calculations Review and Corrections period.
3 Payment reductions apply to all Medicare discharges during the applicable fiscal year and occur when the hospital claim is paid. Hospital performance data can be found on the HAC Reduction Program page of Hospital Compare (accessible from the Hospital Linking Quality to Payment section).
4 After taking the “snapshot”, CMS does not accept additional claims and/or corrections to the claims in the data extract. For more information about the CMS PSI 90, please see the CMS Recalibrated PSI 90 Fact Sheet (version 8.0) on QualityNet.
Acronyms

CAUTI – Catheter-Associated Urinary Tract Infection
CDC – Centers for Disease Control and Prevention
CDI – Clostridium difficile Infection
CLABSI – Central Line-Associated Bloodstream Infection
CMS – Centers for Medicare and Medicaid Services
HAC – Hospital-Acquired Condition
HAI – Healthcare-Associated Infection
IQR – Inpatient Quality Reporting
PSI – Patient Safety Indicator
SSI – Surgical Site Infection
MRSA – Methicillin-resistant Staphylococcus aureus
NHSN – National Healthcare Safety Network
