¹ The HAC Reduction Program CDC NHSN HAI measure calculations use data from the Hospital Inpatient Quality Reporting (IQR) Program. See the IQR [Important Dates and Deadlines](#) document on the QualityNet website.

² CMS will notify hospitals of any changes to dates for the Scoring Calculations Review and Corrections period.

³ Payment reductions apply to all Medicare discharges during the applicable fiscal year and occur when the hospital claim is paid. Hospital performance data appears on the [HAC Reduction Program](#) page of *Hospital Compare* (accessible from the [Hospital Linking Quality to Payment](#) section).

⁴ After taking the “snapshot,” CMS does not incorporate corrections to claims or accept additional claims in the data extract.

For more information about the CMS PSI 90, please see the [CMS PSI 90 Fact Sheet \(version 9.0\)](#) on *QualityNet*.
